COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE AT THE CONCLUSION OF THE AUDIT

To the Board of Education
Mesick Consolidated Schools
Mesick, Michigan

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Mesick Consolidated Schools for the year ended June 30, 2016. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 21, 2016. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Mesick Consolidated Schools are described in Note 1 to the financial statements. The application of existing policies was not changed during 2015-2016. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the governmental activities of the Mesick Consolidated Schools' financial statements were:

Management's estimate of the useful lives of depreciable capital assets is based on the length of time it is believed that those assets will provide some economic benefit in the future. Management's estimates of the liability of the payout of employee compensated absences are based on expected payout. Management's estimates of unfunded liabilities related to the Michigan Public School Employees Retirement System are based on actuarial valuations. We evaluated the key factors and assumptions used to develop the estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. One adjustment of \$4,907 related to a prepaid expenditure was not recorded in the financial statements. Management has determined that their effects are immaterial, both individually and in the aggregate, to the financial statements taken as a whole. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 22, 2016.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

During the course of our audit of the basic financial statements of the Mesick Consolidated Schools for the year ended June 30, 2016, we noted the following items which we feel deserve comment:

Uniform Guidance

The U.S. Office of Management and Budget (OMB) has consolidated eight of its existing circulars into one document, entitled **2 CFR Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards**, is commonly referred to as the **Uniform Guidance (UG)**. **UG** became effective during the current fiscal year for the District. In order to

fully align with the Uniform Guidance, we recommend the District compare its current policies and procedures to the six required policies and procedures in the UG. The Michigan Department of Education has indicated it will post sample policies on its website that comply with UG and can be used as a tool by the District.

Condition of Accounting Records and Accounting Controls

We would like to thank the accounting personnel for their efforts in accumulating the information needed for our audit. We encourage you to review your internal and accounting controls on a routine basis to ensure they are adequate and operating as intended.

Other Matters

We applied certain limited procedures to the Management Discussion and Analysis and the Budgetary Comparison Schedule, the Schedule of Proportionate Share of Net Pension Liability, the Schedule of Contributions, and the Notes to Required Supplementary Information, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the Combining Fund Financial Statements, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the use of the School Board and management of the Mesick Consolidated Schools and is not intended to be, and should not be, used by anyone other than these specified parties.
