INDEPENDENT AUDITOR'S REPORT

To the Board of Education
Marion Public Schools
Marion, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Marion Public Schools, Marion, Michigan as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Marion Public Schools, Michigan as of June 30, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter – Change in Accounting Principle

As discussed in Note 3.T to the financial statements, Marion Public Schools implemented Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information (as identified in the table of contents) on pages iv through xi and 40-46 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Marion Public Schools, Michigan's basic financial statements. The Combining Fund Financial Statements and Other Supplementary Information sections are presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Combining Fund Financial Statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining Fund Financial Statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Other Information section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 13, 2018, on our consideration of Marion Public Schools, Michigan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Marion Public Schools internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Marion Public Schools, Michigan's internal control over financial reporting and compliance.

MANAGEMENT’S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2018

This section of Marion Public Schools’ (“the District”) annual report presents our discussion and analysis of the District’s financial performance during the year ended June 30, 2018. Please read it in conjunction with the District’s financial statements, which immediately follow this section.

This discussion and analysis is intended to serve as an introduction to the District’s basic financial statements. The basic financial statements consist of the following three components: the government-wide financial statements, fund financial statements, and the notes to basic financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Financial Highlights Section

Government-Wide

- The liabilities of the District exceeded its assets and deferred outflows of resources at the close of the most recent fiscal year creating a deficit net position of \$7,990,679. Of this amount net capital assets net of related debt was a positive \$921,923.
- The District’s deficit net position decreased by \$230,021 meaning it improved.

Fund Level

- As of the close of the current fiscal year, the District’s governmental funds reported combined ending fund balances of \$1,151,226, a decrease of \$1,234,051 in comparison with the prior year.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$373,405 and total fund balance was \$528,689.

Overview of the Financial Statements

A. Government-Wide Financial Statements

The government-wide statements provide short-term and long-term financial information about the District’s overall financial status. These statements are required by generally accepted accounting principles (GAAP) as described in the Government Accounting Standards Board (GASB) Statement No. 34. The district-wide financial statements are compiled using full accrual basis of accounting and more closely represent financial statements presented by business and industry. The Statement of Net Position includes all of the District’s assets and liabilities. All of the year’s revenue and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two district-wide statements report the District’s net position and how they have changed. Net position – the difference between the District’s assets and liabilities – is one way to measure the District’s financial health or position.

Over time, increases and decreases in the District’s net position are indicators of whether its financial position is improving or deteriorating, respectively.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

MANAGEMENT’S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2018

To assess the overall health of the District requires consideration of additional non-financial factors, such as changes in the District’s property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District’s activities are all shown in one category titled “Governmental Activities”. These activities, including regular and special education, transportation, administration, food services, athletic activities, and community services, are primarily financed with state and federal aids and property taxes.

B. Fund Financial Statements

The fund financial statements provide more detailed information about the District’s funds, focusing on its most significant or “major” funds, rather than the District as a whole. Funds that do not meet the threshold to be classified as major funds are called “non-major” funds. Detailed financial information for non-major funds can be found in the combining and individual fund statements section.

Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District may establish other funds to control and manage money for particular purposes.

The District maintains the following kinds of funds:

Governmental Funds – The District’s basic services are included in governmental funds, which generally focus on 1) how cash and other financial assets that can be readily be converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or less financial resources that can be spent in the near future to finance the District’s programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information (reconciliation schedules) immediately following the governmental funds statements that explain the relationship (or differences) between these two types of financial statement presentations.

Fiduciary Funds – The District is a trustee, or fiduciary, for assets that belong to other organizations. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District’s fiduciary activities are reported in a separate Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position. We exclude these activities from the government-wide financial statements because the District cannot use these assets to finance its operations.

The District maintains two types of fiduciary fund. The Agency Fund reports resources held by the District in a custodial capacity for individuals, private organizations and other governments. The Private Purpose Trust Fund accounts for assets where the principal is considered either expendable or non-expendable and the earnings may be spent.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2018

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-wide and fund financial statements. The notes to the financial statements can be found on pages 11-39 of this report.

Other Information

In addition to the basic financial statements, this report further presents Required Supplementary Information (RSI) that explains and supports the information presented in the financial statements.

C. Summary of Net Position

The following schedule summarizes the net position at fiscal year ended June 30. The prior year has not been restated to include the new GASB No. 75 Standards—*Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*:

	<u>2018</u>	<u>2017</u>
Assets		
Current Assets	\$ 2,484,533	\$ 3,646,295

D. Analysis of Financial Position

During the fiscal year ended June 30, 2018, the District's net position increased by \$230,021. A few of the more significant factors affecting net position during the year are discussed below:

1. Depreciation Expense

GASB 34 requires school districts to maintain a record of annual depreciation expense and the accumulation of depreciation expense over time. The net increase in accumulated depreciation expense is a reduction in net position.

Depreciation expense is recorded on a straight-line basis over the estimated useful lives of the assets. In accordance with GAAP, depreciation expense is calculated based on the original cost of the asset less an estimated salvage value, where applicable. For the fiscal year ended June 30, 2018, \$448,784 was recorded for depreciation expense.

2. Capital Outlay Acquisitions

For the fiscal year ended June 30, 2018, \$1,354,777 of expenditures were capitalized and recorded as assets of the District. These additions to the District's capital assets will be depreciated over time as explained above.

The net effect of the new capital assets and the current year's depreciation is an increase to capital assets in the amount of \$905,993 for the fiscal year ended June 30, 2018.

3. Pension and Other Postemployment Benefits Expense

GASB 68 and 75 now require the District to account for its payments to the Michigan Public School Employees' Retirement System in a manner that has a significant effect on the District's change in net position. Based on various factors, the District may report an increase or decrease in net position depending on whether the District's proportionate share of the net pension and net OPEB liabilities increases or decreases in any given year. For the year ended June 30, 2018, the District reported an increase in net position related to GASB 68 and 75, which indicates that the District's proportionate share of the net pension and net OPEB liabilities have decreased.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2018

E. Change in Net Position

The following schedule summarizes the results of operations, on a district-wide basis, for the fiscal year ended June 30. The prior year has not been restated to include the new GASB No. 75 Standards—*Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*:

	2018	2017
General Revenues		
Property Taxes	\$ 2,025,704	\$ 2,034,643
Investment Earnings	16,000	10,851
State Sources	2,930,038	2,970,210
Other	46,376	52,856
	5,018,118	5,068,560
Program Revenues		
Charges for Services	65,690	69,385
Operating Grants	1,156,801	1,059,613
	1,222,491	1,128,998
Total Revenues	6,240,609	6,197,558
Expenses		
Instruction	3,135,680	3,780,282
Supporting Services	1,738,552	1,362,754
Community Activities	90	427
Non-Public School Pupils	25,252	1,066
Food Service Activities	335,666	389,386
Athletic Activities	163,905	115,969
Facilities Acquisition	15,009	0
Interest on Long-Term Debt	145,900	153,504
Bond Issuance Costs	0	44,958
Other Transactions	1,750	1,750
Unallocated Depreciation	448,784	416,259
	6,010,588	6,266,355
Total Expenses	6,010,588	6,266,355
Change in Net Position	\$ 230,021	\$ (68,797)

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2018

F. Financial Analysis of the District's Funds

The financial performance of the District as a whole is also reflected in its governmental funds. The following table shows the change in total fund balances of each of the District's governmental funds:

	<u>2018</u>	<u>2017</u>	<u>Increase (Decrease)</u>
Major Fund			
General Fund	\$ 528,689	\$ 412,238	\$ 116,451
2016 Building and Site Fund	417,548	1,756,241	(1,338,693)
Nonmajor Funds			
Food Service	52,363	78,632	(26,269)
2016 Debt Retirement Fund	51,252	70,018	(18,766)
2015 Debt Refunding	70,444	47,537	22,907
2010 Debt Refunding	19,636	14,215	5,421
2012 Debt Retirement	11,294	6,396	4,898
Total Governmental Funds	<u>\$ 1,151,226</u>	<u>\$ 2,385,277</u>	<u>\$ (1,234,051)</u>

The School District decreased its fund balance due to the decrease in the 2016 Building and Site Fund due to spending the bond proceeds received in the prior year. Other funds' changes were insignificant compared to this.

G. General Fund Budgetary Highlights

The Uniform Budget Act of the State of Michigan requires that the local Board of Education approve the original budget for the upcoming fiscal year prior to its starting on July 1. Any amendments made to the operating budget must be approved by the Board prior to the close of the fiscal year on June 30.

For the 2017-2018 fiscal year, the District amended the general fund budget throughout the year. The following schedule shows a comparison of the original general fund budget, the final amended general fund budget and actual totals from operations:

	<u>ORIGINAL BUDGET</u>	<u>FINAL BUDGET</u>	<u>ACTUAL</u>
Total Revenues	<u>\$ 4,965,137</u>	<u>\$ 5,263,905</u>	<u>\$ 5,258,862</u>
<u>EXPENDITURES</u>			
Instruction	\$ 3,444,145	\$ 3,421,450	\$ 3,351,181
Supporting Services	1,607,723	1,757,513	1,721,988
Community Activities	0	1,490	90
Non-Public School Pupils	0	33,160	25,252
Debt Services	43,900	43,900	43,900
Total Expenditures	<u>\$ 5,095,768</u>	<u>\$ 5,257,513</u>	<u>\$ 5,142,411</u>

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2018

The change in the Total Revenue Original Budget to Final Budget was an increase of \$297,768 as a result of state aid and grant increases. At risk revenue increased \$37,539. In addition, 147c (UAAL) increased approximately \$96,695 from the initial to final budget. Pupil count increased by 3 FTE from original to final budget. At \$7,631 per student, this is an increase \$22,893. Federal grants increased by \$67,403. Also, the District became the fiscal agent for other schools in passing Title funding to a private school. This increased revenue by \$24,158.

The change in the Total Expenditures Original Budget to Final Budget was an increase of \$161,745. This is due to budgeting for additional legal fees, UAAL (retirement), increase in utilities, custodial supplies and grant funded bus cameras.

The difference between final budgeted revenue and actual revenue was insignificant.

The actual expenditures are lower than the final budget due to actual expenses being less than anticipated.

H. Capital Asset and Debt Administration

1. Capital Assets

At June 30, 2018, the District has \$11,870,345 in a broad range of capital assets, including school buildings and facilities, school buses, and various types of equipment. Depreciation expense for the year amounted to \$448,784, bringing the accumulated depreciation to \$6,163,466 as of June 30, 2018.

The addition to capital assets included:

- Bus cameras \$16,803
- Three milk coolers \$8,076
- Refrigerator \$1,603
- Flooring \$4,330
- Elementary Building Improvements \$592,702
- High School Improvements \$1,204,719

The additions above include \$473,456 of prior year construction in progress that was placed in service in 2017-2018.

Additional information on the District's capital assets can be found in the notes to this report.

2. Long-Term Debt

At June 30, 2018, the District has \$5,140,000 in bonded debt outstanding. This represents a decrease of \$500,000 from the amount outstanding at the close of the prior fiscal year. Other long-term debt includes compensated absences of \$75,198, a water connection loan in the amount of \$49,156, net pension liability of \$7,573,046, and net other postemployment benefit liability of \$2,596,339.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2018

Additional information on the District's long-term debt can be found in the notes to this report.

I. Factors Bearing on the District's Future

Due to decreasing enrollments, the District is able to use a 3 year blended count for determining their state aid. In 2018-2019, the year that drops out of the blend is larger than the remaining ones. This loss alone will result in a decrease of 13 students. At an anticipated foundation allowance of \$7,871, this is a potential decrease in revenue of \$102,323.

All of the union contracts have wage and benefit reopeners. The District is trying to come up with a reasonable solution for all parties.

Retirement costs continue to be a concern for the District. In 2018-2019, the District anticipates spending approximately 17% of its total budget for employee retirement costs.

The cost of health care also continues to be a concern for the District. The District anticipates health insurance to cost approximately \$570,478 for 18/19. This is approximately 11% of the total budget.

For the past six years, Marion Public Schools has been fortunate to have found a person to act as both the superintendent and elementary principal after their retirement. This was a large cost savings to the district. Recently, the person filling that role has left the District. The District was fortunate to have a person step in as an interim superintendent. However, they are in the process of searching for a superintendent and an elementary principal. This will likely be an additional cost to the District.

Marion Public Schools is striving to meet the challenges facing them while remaining a "great small school".

J. Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, please contact the Wexford-Missaukee Intermediate School District, 9907 East 13th Street, Cadillac, Michigan 49601.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN
FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

YEAR ENDED JUNE 30, 2018

Net Change in Fund Balances Total Governmental Funds \$ (1,234,051)

Amounts reported for governmental activities are different because:

Governmental funds report capital outlays as expenditures. In the Statement of Activities, these costs are allocated over their estimated useful lives as depreciation.

Depreciation Expense	(448,784)
Capital Outlay	1,354,777

Accrued interest on bonds is recorded in the Statement of Activities when incurred; it is not recorded in governmental funds until it is paid:

Accrued Interest Payable - Beginning of Year	24,825
Accrued Interest Payable - End of Year	(22,357)

Under the modified accrual basis of accounting used in the governmental funds, the issuance of long-term debt provides a current financial resource to governmental funds, and expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis of accounting, expenses and liabilities are reported regardless of when financial resources are available.

Amortization of Deferred Charges	(734)
Repayment of Bond Principal	500,000
Repayment of Principal on Long-Term Debt	2,471

Governmental funds report district pension and other postemployment benefits contributions as expenditures. However, in the Statement of Activities, the cost of pension and other postemployment benefits earned net of employee contributions is reported as an expense.

Change in Pension Related Items	2,716
Change in Other Postemployment Benefits Related Items	(2,011)

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Marion Public Schools have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

The School District (“the District”) is located in Osceola and Clare Counties with its administrative offices located in Marion, Michigan. The District operates under an elected 7-member board of education and provides services to its students in elementary, high school, special education instruction, guidance, health, transportation, food service, athletics and recreation. The District receives funding from local, state, and federal government sources and must comply with all of the requirements of these funding source entities. However, the District is not included in any other governmental reporting entity as defined by generally accepted accounting principles. Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and the primary accountability for fiscal matters.

B. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report the information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable. The School District does not have any business-type activities or component units.

C. Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from the governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

D. Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

The District reports the following major governmental funds:

The *general fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The *capital projects funds (2016 Building and Site Fund)* accounts for the acquisition of fixed assets or construction of major capital projects.

Other non-major funds:

The *special revenue (School Service) fund* accounts for revenue sources that are legally restricted to expenditures for specific purposes. The District accounts for its food service activities in a special revenue fund.

The *debt retirement funds* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of government funds.

Additionally, the District reports the following fiduciary funds:

The *agency fund* is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. This fund is used to account for assets that the District holds for others in an agency capacity.

The *private purpose trust fund* is accounted for using the accrual method of accounting. Private purpose trust funds account for assets where the principal is considered to be either expendable or non-expendable and the earnings may be spent. These funds are not reported on the District's financial statements as they are not used to support District operations or programs.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, state and federal aid and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue resource (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The private-purpose trust funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. The agency fund has no measurement focus but utilizes the *accrual basis of accounting* for reporting its assets and liabilities.

F. Budgetary Information

1. Budgetary Basis of Accounting

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the general and special revenue funds.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting - under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation - is utilized in the governmental funds. While all appropriations and encumbrances lapse at year-end, value outstanding encumbrances (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- a) In June, the superintendent submits to the school board a proposed operating budget for the fiscal year commencing on July 1.
- b) A public hearing is conducted during June to obtain taxpayer comments.
- c) Prior to July 1, the budget is legally adopted by the School Board resolution pursuant to the Uniform Budgeting and Accounting Act. The Act requires that the budget be amended prior to the end of the fiscal year, when necessary, to adjust appropriations if it appears that revenues and other financial sources will be less than anticipated, or so that expenditures will not be in excess of original estimates. Expenditures shall not be made or incurred, unless authorized in the budget, in excess of the amount appropriated.
- d) The superintendent is charged with general supervision of the budgets and shall hold the department heads responsible for performance of their responsibilities.
- e) For purposes of meeting emergency needs of the school district, transfer of appropriations may be made by the authorization of the superintendent. Such transfers of appropriations must be approved by the Board of Education at its next regularly scheduled meeting.
- f) During the year the budgets are monitored and amendments to the budget resolution are made when it is deemed necessary.
- g) Budgeted amounts are as originally adopted on June 22, 2017, or as amended by the School Board of Education throughout the year.

2. *Excess of Expenditures Over Appropriations*

General Fund:

Supporting Services:

- a) Improvement of Instruction expenditures of \$33,236 exceeded appropriations of \$33,055.
- b) Board of Education expenditures of \$77,357 exceeded appropriations of \$75,180.
- c) Fiscal Services expenditures of \$40,780 exceeded appropriations of \$40,736.

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. *Cash and Cash Equivalents*

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments. The District considers all highly liquid investments (including certificates of deposit) to be cash equivalents.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

2. *Investments*

Certain investments are valued at fair value as determined by quoted market prices, or by estimated fair values when quoted market prices are not available. Standards also provide that certain investments are valued at cost (or amortized cost) when they are of a short-term duration the rate of return is fixed, and the District intends to hold the investment until maturity.

The District complies with State statutes regarding investment of funds.

The Board policy on investment of funds authorizes the District to invest as follows:

- a) Bonds, bills, or notes of the United States, or obligations, the principal and interest of which are fully guaranteed by the United States.
- b) Certificates of deposit issued by any state or national bank organized and authorized to operate in this state.
- c) Commercial paper rated prime at the time of purchase and maturing not more than 270 days after the date of purchase.
- d) Securities issued or guaranteed by agencies or instrumentalities of the United States.
- e) United States government or federal agency obligation repurchase agreements.
- f) Bankers' acceptances issued by a bank that is a member of the federal deposit insurance corporation.
- g) Mutual funds composed entirely of investment vehicles that are legal for direct investment by a school district.
- h) Investment pools, as authorized by the Surplus Funds Investment Pool Act, Act No. 367 of the Public Acts of 1982, being sections 129.111 to 129.118 of the Michigan Compiled Laws, composed entirely of instruments that are legal for direct investment by a school district.

The District's deposits and investments are held separately by several of the District's funds.

3. *Inventory and Prepaid Items*

Inventory is valued at cost using the first-in/first-out method. Inventory consists of expendable supplies held for consumption, which are recorded as expenditures when consumed rather than when purchased.

Certain payments made to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

4. *Capital Assets*

Capital assets, which include property and equipment, are reported in the governmental activities column in the District-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets of the District are depreciated using the straight-line method over the following estimated useful lives:

Buildings and Additions	25 - 50 years
Furniture and Other Equipment	5 - 20 years

5. *Unearned Revenue*

Unearned revenue arises when resources are received by the District before it has a legal claim to them. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, revenues is recognized. The District has unearned revenue in the General Fund and Food Service Fund that is related to state and local grants/donations, with restrictions on how they can be spent, being received but as of the year-end have not been spent.

6. *Compensated Absences*

It is the District's policy to permit employees to accumulate earned but unused sick pay and vacation time benefits. The amount allowable to be compensated for depends on the position and the longevity of the individual employee. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

7. *Long-Term Obligations*

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method which approximates the effective interest method over the term of the related debt. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

8. *Deferred Outflows/Inflows of Resources*

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has three items that qualify for reporting in this category. They are the deferred charge on refunding, pension and other postemployment benefits related items reported in the government-wide *Statement of Net Position*. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or funding debt. A deferred outflow is recognized for pension and other postemployment benefits related items. These amounts are expenses in the plan year in which they apply. Details can be found in footnotes 3.E and 3.F.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. The separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category. They are future resources yet to be recognized in relation to the pension and other postemployment benefits actuarial calculation. These future resources arise from differences in the estimates used by the actuary to calculate the pension and other postemployment benefits liabilities and the actual results. Details can be found in footnotes 3.E and 3.F.

9. *Defined Benefit Plans*

For purposes of measuring the net pension and other postemployment benefit liabilities, deferred outflows of resources and deferred inflows of resources related to pensions and other postemployment benefits, and pension and other postemployment benefits expense, information about the fiduciary net position of the Michigan Public School Employees Retirement System (MPERS) and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. *Net Position Flow Assumption*

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

11. *Fund Balance Flow Assumption*

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

12. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The governing board is the highest level of decision-making authority for the government that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The governing board has authorized the superintendent to assign fund balance. The board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

13. Use of Estimates

The process of preparing basic financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenditures. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

H. Revenues and Expenditures/Expenses

1. State Revenue

The State of Michigan utilizes a foundation grant approach which provides for a specific annual amount of revenue per pupil based on a statewide formula. The Foundation is funded from state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of state funds to school districts based on information supplied by the districts. For the year ended June 30, 2018 the foundation allowance was based on pupil membership counts taken in February of 2017 and October of 2017. For fiscal year ended June 30, 2018, the per pupil foundation allowance was \$7,631 for Marion Public Schools.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

The state portion of the foundation is provided primarily by a state education property tax millage of 6 mills and an allocated portion of state sales and other taxes. The local portion of the foundation is funded primarily by non-homestead property taxes, which may be levied at a rate of up to 18 mills. The State revenue is recognized during the foundation period and is funded through payments from October 2017 to August 2018. Thus, the unpaid portion at June 30th is reported as due from other governmental units.

The District also receives revenue from the state to administer certain categorical education programs. State rules require that revenue earmarked for these programs be used for its specific purpose. Certain governmental funds require an accounting to the state of the expenditures incurred. For categorical funds meeting this requirement, funds received, which are not expended by the close of the fiscal year are recorded as unearned revenue. Other categorical funding is recognized when the appropriation is received.

2. Program Revenues

Amounts reported as program revenue include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, state foundation aid, certain revenue from the intermediate school district and other unrestricted items are not included as program revenue but instead as *general revenues*.

3. Property Taxes

Property taxes levied by the District are collected by various municipalities and periodically remitted to the District. The taxes are billed as of December 1. The due date is February 14, after which time the bills become delinquent and penalties and interest may be assessed by the collecting entity.

The various counties in which the School District is located have tax revolving funds which allow the counties to pay off the various taxing units for their share of the current year real property taxes returned delinquent. Taxes receivable are uncollected delinquent personal property taxes.

For the year ended June 30, 2018, the District levied the following amounts per \$1,000 of taxable valuation:

Fund	Mills
General Fund – Non-Principal Residence Exemption (PRE)	18.0000
General Fund – Commercial Personal Property	6.0000
2010 Refunding Debt Retirement Fund – PRE, Non-PRE	0.7100
2015 Refunding Debt Retirement Fund – PRE, Non-PRE	2.0000
2012 Debt Retirement Fund – PRE, Non-PRE	0.4900
2016 Debt Retirement Fund – PRE, Non-PRE	1.0000

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 3 – DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

A. Deposits and Investments

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. As of June 30, 2018, the District’s bank balance was \$1,940,153 and \$996,392 of that amount was exposed to custodial credit risk because it was uninsured and uncollateralized. The risk is spread amongst the District’s funds. Although the District’s investment policy does not directly address custodial credit risk, it typically limits its exposure by purchasing insured or registered investments or by controlling who holds the deposits.

Interest rate risk. In accordance with its investment policy, the District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and, investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools and limiting the average maturity in accordance with the District’s cash requirements.

Credit risk. State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations (NRSOs).

Concentration of credit risk. The District will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the District’s investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

Foreign currency risk. The District is not authorized to invest in investments which have this type of risk; therefore, it is not addressed in the investment policy.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Although the District’s investment policy does not directly address custodial credit risk, it typically limits its exposure by purchasing insured or registered investments or by controlling who holds the investments.

As of June 30, 2018, the District had the following investments:

	Fair Value	Weighted Average Maturity (Years)	Standard & Poor's Rating	%
MILAF+ External Investment Pool - MIMAX	\$ 357,174	0.0027	AAAm	100.00%
Portfolio Weighted Average Maturity		0.0027		

1 Day Maturity Equals 0.0027, One Year Equals 1.000

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

The District invests certain excess funds in external pooled investment funds which include money market funds. One of the pooled investment funds utilized by the District is the Michigan Investment Liquid Asset Fund Plus (MILAF+). MILAF+ is a local government investment pool of “qualified” investments for Michigan school districts. MILAF+ is not regulated nor is it registered with the SEC. MILAF+ reports as of June 30, 2018, the fair value of the District’s investments is the same as the value of the pooled shares. MILAF, as defined by GASB, is recorded at amortized cost which approximates fair value. The MILAF+ portfolio offers three share classes which are: Cash Management Class, MAX Class, and GovMIC Class. The only class that has limitations or restrictions on withdrawals is MAX Class, which requires notification of redemptions prior to 14 days to avoid penalties. The MILAF+ portfolio is not subject to fair value disclosures.

Fair Market Value Disclosure - The District is required to disclose amounts within a framework established for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Quoted prices in active markets for identical securities.

Level 2: Prices determined using other significant observable inputs. Observable inputs are inputs that reflect the assumptions market participants would use in pricing a security and are developed based on market data obtained from sources independent of the reporting entity. These may include quoted prices from similar activities, interest rates, prepayment speeds, credit risk, and others. Debt securities are valued in accordance with evaluated bid price supplied by the pricing service and generally categorized as Level 2 in the hierarchy. Securities that are categorized as Level 2 in the hierarchy include, but are not limited to, repurchase agreements, U.S. government agency securities, corporate securities, and commercial paper.

Level 3: Prices determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable or deemed less relevant (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the reporting entity’s own assumptions about the factors market participants would use in pricing the security and would be based on the best information available under the circumstances.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There are two types of valuation techniques most commonly used and vary depending on the level of investment. These two techniques are the market approach and income approach. The market approach uses prices and other relevant information generated by the market transactions involving identical or similar assets and liabilities. The income approach discounts future amounts to a single current amount and the discount rate used in the process should reflect current market expectations about risks associated with those future cash flows.

The District does not have any investments subject to the fair value measurement.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

The carrying amount of deposits and investments is as follows:

	Total
Deposits – including Fiduciary Funds of \$353,819	\$ 1,789,060
Investments	357,174
	\$ 2,146,234

The above amounts are reported in the financial statements as follows:

	Total
Cash - Fiduciary Funds	\$ 353,819
Cash - District-Wide	1,017,693
Restricted Cash	417,548
Investments	357,174
	\$ 2,146,234

B. Receivables/Unearned Revenue

Receivables as of year-end for the government’s individual major funds and nonmajor are as follows:

	General	Nonmajor and Other Funds	Total
Receivables			
Accounts Receivable	\$ 915	\$ 0	\$ 915
Due from Other Governmental Units	666,368	2,911	669,279
	\$ 667,283	\$ 2,911	\$ 670,194

Amounts due from other governments include amounts due from federal, state, and local sources for various projects and programs.

Because of the District’s favorable collection experience, no allowance for doubtful accounts has been recorded.

Governmental funds report unearned revenue in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the District reported unearned revenue of \$15,569, which is made up of grant receipts and other revenue that has been received, but not yet earned.

Buses	745,368	0	0	745,368
Equipment and Furniture	1,827,265	26,482	0	1,853,747
Improvements	3,921,798	1,801,751	0	5,723,549
Other Vehicles	30,004	0	0	30,004
Total Capital Assets, Being Depreciated	9,985,295	1,828,233	0	11,813,528
Less Accumulated Depreciation for:				
Books	24,365	0	0	24,365
Buildings	1,645,493	39,688	0	1,685,181
Buses	395,559	69,778	0	465,337
Equipment and Furniture	1,354,802	127,383	0	1,482,185
Improvements	2,266,565	211,120	0	2,477,685
Other Vehicles	27,898	815	0	28,713
Total Accumulated depreciation	5,714,682	448,784	0	6,163,466
Total Capital Assets, Being Depreciated, Net	4,270,613	1,379,449	0	5,650,062
Governmental Activities Capital Assets, Net	\$ 4,800,886	\$ 1,379,449	\$(473,456)	\$ 5,706,879

Depreciation for the fiscal year ended June 30, 2018 amounted to \$448,784. The District determined that it was impractical to allocate depreciation to the various governmental activities as the assets serve multiple functions.

D. Retirement and Postemployment Benefits

Plan Description – The Michigan Public School Employees’ Retirement System (System or MPSERS) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the board’s authority to promulgate or amend the provisions of the System. MPSERS issues a publicly available Comprehensive Annual Financial Report that can be obtained at www://michigan.gov/mpsers-cafr.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

The System is administered by the Office of Retirement Services (ORS) within the Michigan Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State Treasurer serves as the investment officer and custodian for the System.

Benefits Provided- Overall

Introduction

Participants are enrolled in one of multiple plans based on date of hire and certain voluntary elections. A summary of the pension plans offered by MPSERS is as follows:

<u>Plan Name</u>	<u>Plan Type</u>	<u>Plan Status</u>
Basic	Defined Benefit	Closed
Member Investment Plan (MIP)	Defined Benefit	Closed
Pension Plus	Hybrid	Closed
Pension Plus 2	Hybrid	Open
Defined Contribution	Defined Contribution	Open

Benefits Provided – Pension

Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan. Retirement benefits for DB plan members are determined by final average compensation and years of service. DB members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to DB plan members.

Prior to pension reform of 2010 there were two plans commonly referred to as Basic and Member Investment Plan (MIP). Basic plan member's contributions range from 0% to 4%. On January 1, 1987, the Member Investment Plan (MIP) was enacted. MIP members enrolled prior to January 1, 1990 contribute at a permanently fixed rate of 3.9% of gross wages. Members first hired January 1, 1990 or later, including Pension Plus plan members, contribute at various graduated permanently fixed contribution rates from 3.0% to 7.0%.

Pension Reform 2010

On May 19, 2010, the Governor signed Public Act 75 of 2010 into law. As a result, any member of the Michigan Public School Employees' Retirement System (MPSERS) who became a member of MPSERS after June 30, 2010 is a Pension Plus member. Pension Plus is a hybrid plan that contains a pension component with an employee contribution (graded, up to 6.4% of salary) and a flexible and transferable defined contribution (DC) tax-deferred investment account that earns an employer match of 50% (up to 1% of salary) on employee contributions. Retirement benefits for Pension Plus members are determined by final average compensation and years of service. Disability and survivor benefits are available to Pension Plus members.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

Pension Reform 2012

On September 4, 2012, the Governor signed Public Act 300 of 2012 into law. The legislation grants all active members who first became a member before July 1, 2010 and who earned service credit in the 12 months ending September 3, 2012, or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their pension. Any changes to a member's pension are effective as of the member's *transition date*, which is defined as the first day of the pay period that begins on or after February 1, 2013.

Under the reform, members voluntarily chose to increase, maintain, or stop their contributions to the pension fund.

An amount determined by the member's election of Option 1, 2, 3, or 4 described below.

Option 1 – Members voluntarily elected to increase their contributions to the pension fund as noted below and retain the 1.5% pension factor in their pension formula. The increased contribution would begin as of their transition date and continue until terminate public school employment.

- Basic plan members: 4% contribution
- Member Investment Plan (MIP)-Fixed, MIP-Graded, and MIP-Plus members: a flat 7% contribution

Option 2 – Members voluntarily elected to increase their contribution to the pension fund as stated in Option 1 and retain the 1.5% pension factor in their pension formula. The increased contribution would begin as of their transition date and continue until they reach 30 years of service. If and when they reach 30 years of service, their contribution rates will return to the previous level in place as of the day before their transition date (0% for Basic plan members, 3.9% for MIP-Fixed, up to 4.3% for MIP-Graded, or up to 6.4% for MIP-Plus). The pension formula for any service their after would include a 1.25% pension factor.

Option 3 – Members voluntarily elected not to increase their contribution to the pension fund and maintain their current level of contribution to the pension fund. The pension formula for their years of service as of the day before their transition date will include a 1.5% pension factor. The pension formula for any service thereafter will include a 1.25% pension factor.

Option 4 – Members voluntarily elected to no longer contribute to the pension fund and therefore are switched to the Defined Contribution plan for future service as of their transition date. As a DC participant they receive a 4% employer contribution to the tax-deferred 401(k) account and can choose to contribute up to the maximum amounts permitted by the IRS to a 457 account. They vest in employer contributions and related earnings in their 401(k) account based on the following schedule: 50% at 2 years, 75% at 3 years, and 100% at 4 years of service. They are 100% vested in any personal contributions and related earnings in their 457 accounts. Upon retirement, if they meet age and service requirements (including their total years of service), they would also receive a pension (calculated based on years of service and final average compensation as of the day before their transition date and a 1.5% pension factor).

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

Members who did not make an election before the deadline defaulted to Option 3 as described above. Deferred or nonvested public school employees on September 3, 2012, who return to public school employment on or after September 4, 2012, will be considered as if they had elected Option 3 above. Returning members who made the retirement plan election will retain whichever option they chose.

Employees who first work on or after September 4, 2012 choose between two retirement plans: the Pension Plus Plan and a Defined Contribution Plan that provides a 50% employer match up to 3% of salary on employee contributions.

Final Average Compensation (FAC) – Average of highest 60 consecutive months (36 months for MIP members). FAC is calculated as of the last day worked unless the member elected option 4, in which case the FAC is calculated at the transition date.

Pension Reform of 2017

On July 13, 2017, the Governor signed Public Act 92 of 2017 into law. The legislation closes the current hybrid plan (Pension Plus) to newly hired employees as of February 1, 2018 and creates a new optional revised hybrid plan with similar plan benefit calculations but containing a 50/50 cost share between the employee and the employer, including the cost of future unfunded liabilities. The assumed rate of return on the new hybrid plan is 6%. Further, the law provides that, under certain conditions, the new hybrid plan would close to new employees if the actuarial funded ratio falls below 85% for two consecutive years. The law includes other provisions to the retirement eligibility age, plan assumptions, and unfunded liability payment methods.

Benefits Provided – Other Postemployment Benefit (OPEB)

Benefit provisions of the postemployment healthcare plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions. Retirees have the option of health coverage, which, through 2012, was funded on a cash disbursement basis. Beginning fiscal year 2013, it is funded on a prefunded basis. The System has contracted to provide the comprehensive group medical, prescription drug, dental and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by the System with the balance deducted from the monthly pension of each retiree healthcare recipient. For members who first worked before July 1, 2008, (Basic, MIP-Fixed, and MIP-Graded plan members), the subsidy is the maximum allowed by statute. To limit future liabilities of Other Postemployment Benefits, members who first worked on or after July 1, 2008, (MIP-Plus plan members), have a graded premium subsidy based on career length where they accrue credit towards their insurance premiums in retirement, not to exceed the maximum allowable by statute. Public Act 300 of 2012 sets the maximum subsidy at 80% beginning January 1, 2013; 90% for those Medicare eligible and enrolled in the insurances as of that date.

Retiree Healthcare Reform of 2012

Public Act 300 of 2012 granted all active members of the Michigan Public School Employees Retirement System, who earned service credit in the 12 months ending September 3, 2012, or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their retirement healthcare. Any changes to a member's healthcare benefit are effective as of the member's *transition date*, which is defined as the first day of the pay period that begins on or after February 1, 2013.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

Under Public Act 300 of 2012, members were given the choice between continuing the 3% contribution to retiree healthcare and keeping the premium subsidy benefit described above, or choosing not to pay the 3% contribution and instead opting out of the subsidy benefit and becoming a participant in the Personal Healthcare Fund (PHF), a portable, tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2% employee contribution into their 457 account as of their transition date, earning them a 2% employer match into a 401(k) account. Members who selected this option stop paying the 3% contribution to retiree healthcare as of the day before their transition date, and their prior contributions will be deposited into their 401(k) accounts.

Regular Retirement (no reduction factor for age)

Eligibility – A basic plan member may retire at age 55 with 30 years credited service; or age 60 with 10 years credited service. For Member Investment Plan (MIP) members, age 46 with 30 years credited service; or age 60 with 10 years credited service; or age 60 with 5 years of credited service provided member worked through 60th birthday and has credited service in each of the last 5 years. For Pension Plus Plan (PPP) members, age 60 with 10 years of credited service.

Annual Amount – The annual pension is paid monthly for the lifetime of a retiree. The calculation of a member's pension is determined by their pension election under PA 300 of 2012.

Members Contributions

Depending on the plan selected, member contributions range from 0% to 7% for pension and 0% to 3% for other postemployment benefits. Plan members electing the defined contribution plan are not required to make additional contributions.

Employer Contributions

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of members and retiree other postemployment benefits (OPEB). Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis.

For retirement and OPEB benefits, the unfunded (overfunded) actuarial accrued liability as of September 30, 2016 valuation will be amortized over a 22-year period for fiscal 2017.

School districts' contributions are determined based on employee elections. There are several different benefit options included in the plan available to employees based on date of hire. Contribution rates are adjusted annually by the ORS. The range of rates is as follows:

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

	Pension	Other Postemployment Benefit
October 1, 2016 - September 30, 2017	15.27% - 19.03%	5.69% - 5.91%
October 1, 2017 - September 30, 2018	13.54% - 19.74%	7.42% - 7.67%

The District's pension contributions for the year ended June 30, 2018 were equal to the required contribution total. Pension contributions were approximately \$699,160.

The District's OPEB contributions for the year ended June 30, 2018 were approximately \$163,345.

These amounts, for both pension and OPEB, include contributions funded from state revenue Section 147c restricted to fund MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate (100% for pension and 0% for OPEB).

E. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Pension Liabilities

At June 30, 2018, the District reported a liability of \$7,573,046 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation date of September 30, 2016 and rolled-forward using generally accepted actuarial procedures. The District's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2017 and 2016, the District's proportion was .0292235% and .0311407%.

MPSERS (Plan) Non-University Employers Net Pension Liability – As of September 30, 2017 and September 30, 2016

	September 30, 2017	September 30, 2016
Total Pension Liability	\$ 72,407,218,688	\$ 67,917,445,078
Plan Fiduciary Net Position	46,492,967,573	42,968,263,308
Net Pension Liability	\$ 25,914,251,115	\$ 24,949,181,770
Plan Fiduciary Net Position as a Percentage of Total Pension Liability	64.21%	63.27%
Net Pension Liability as a Percentage of Covered Payroll	309.13%	295.81%

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

Pension Expense and Deferred Inflows and Outflows of Resources Related to Pensions

For the year ended June 30, 2018, the District recognized total pension expense of \$406,240. This amount excludes contributions funded from state revenue Section 147c restricted to fund the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate.

At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 65,815	\$ 37,159
Section 147c revenue related to District Pension contributions subsequent to measurement date	0	290,205
Changes of assumptions	829,687	0
Net difference between projected and actual earnings on pension plan investments	0	362,041
Changes in proportion and differences between District contributions and proportionate share of contributions	78,918	370,145
District contributions subsequent to the measurement date	638,637	0
Total	\$ 1,613,057	\$ 1,059,550

\$638,637 reported as deferred outflows of resources and \$290,205 reported as deferred inflows or resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources (+) and deferred inflows of resources (-) related to pensions will be recognized in pension expense as follows:

Year Ended September 30,	Amount
2018	\$ 61,081
2019	185,429
2020	25,260
2021	(66,695)
	\$ 205,075

F. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

OPEB Liabilities

At June 30, 2018, the District reported a liability of \$2,596,339 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of September 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation date of September 30, 2016 and rolled-forward using generally accepted actuarial procedures. The District's proportion of the net OPEB liability was based on a projection of its long-term share of contributions to the OPEB plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2017, the District's proportion was 0.029319%.

MPSERS (Plan) Non-University Employers Net OPEB Liability – As of September 30, 2017 and September 30, 2016

	<u>September 30, 2017</u>	<u>September 30, 2016</u>
Total OPEB Liability	\$ 13,920,945,991	\$ 14,071,279,615
Plan Fiduciary Net Position	5,065,474,948	4,730,719,539
OPEB Liability	<u>\$ 8,855,471,043</u>	<u>\$ 9,340,560,076</u>
Plan Fiduciary Net Position as a Percentage of Total OPEB Liability	36.39%	33.62%
OPEB Liability as a Percentage of Covered Payroll	105.64%	unknown

OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB

For the year ended June 30, 2018, the District recognized total OPEB expense of \$165,355.

At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 0	\$ 27,643
Changes of assumptions	0	0
Net difference between projected and actual earnings on OPEB plan investments	0	60,132
Changes in proportion and differences between District contributions and proportionate share of contributions	4,895	0
District contributions subsequent to the measurement date	150,033	0
Total	<u>\$ 154,928</u>	<u>\$ 87,775</u>

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

\$150,033 reported as deferred outflows of related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources (+) and deferred inflows of resources (-) related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ended September 30,</u>	<u>Amount</u>
2018	\$ (20,117)
2019	(20,117)
2020	(20,117)
2021	(20,117)
2022	(2,412)
	<hr/> <hr/>
	\$ (82,880)

G. Actuarial Valuations and Assumptions of the Pension and OPEB Plans

Investment rate of return for Pension – 7.5% a year, compounded annually net of investment and administrative expenses for the Non-Hybrid groups and 7.0% a year, compounded annually net of investment and administrative expenses for the Hybrid group (Pension Plus Plan).

Investment rate of return for OPEB – 7.5% a year, compounded annually net of investment and administrative expenses.

Salary increases - The rate of pay increase used for individual members is 3.5%.

Inflation – 3.0%

Mortality assumptions - RP2000 Combined Healthy Life Mortality table, adjusted for mortality improvements to 2025 using projection scale BB (for men, 80% of the table rates were used and for women, 70% of the table rates were used).

Experience study - The annual actuarial valuation report of the System used for these statements is dated September 30, 2016. Assumption changes as a result of an experience study for the periods 2007 through 2012 have been adopted by the System for use in the annual pension valuations beginning with the September 30, 2014 valuation.

The long-term expected rate of return on pension and other postemployment benefit plan investments - The pension rate was 7.5% (7% Pension Plus Plan), and the other postemployment benefit rate was 7.5%, net of investment and administrative expenses was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Cost of Living Pension Adjustments – 3.0% annual non-compounded for MIP members.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

Healthcare cost trend rate for other postemployment benefit – 7.5% for year one and graded to 3.5% to year twelve.

Additional assumptions for other postemployment benefit only – Applies to individuals hired before September 4, 2012:

Opt Out Assumption – 21% of eligible participants hired before July 1, 2008 and 30% of those hired after June 30, 2008 are assumed to opt out of the retiree health plan.

Survivor Coverage – 80% of male retirees and 67% of female retirees are assumed to have coverage continuing after the retiree’s death.

Coverage Election at Retirement – 75% of male and 60% of female future retirees are assumed to elect coverage for 1 or more dependents.

The target asset allocation at September 30, 2017 and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Investment Category</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return *</u>
Domestic Equity Pools	28.00%	5.60%
Alternative Investment Pools	18.00%	8.70%
International Equity	16.00%	7.20%
Fixed Income Pools	10.50%	-0.10%
Real Estate & Infrastructure Pools	10.00%	4.20%
Absolute Return Pools	15.50%	5.00%
Short-Term Investment Pools	2.00%	-0.90%
	100%	

*Long-term rate of return are net of administrative expenses and 2.3% inflation.

Pension Discount Rate

A discount rate of 7.5% was used to measure the total pension liability (7.0% for the Pension Plus Plan). This discount rate was based on the long-term expected rate of return on pension plan investments of 7.5% (7.0% for the Pension Plus Plan). The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

OPEB Discount Rate

The discount rate of 7.5% was used to measure the total OPEB liability. This discount rate was based on the long-term expected rate of return on OPEB plan investments of 7.5%. The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that school districts contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the OPEB plan's fiduciary net position was project to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability, calculated using the discount rate of 7.5% (7.0% for the Pension Plus Plan), as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

1% Decrease (Non-Hybrid/Hybrid) 6.5% / 6.0%	Current Single Discount Rate Assumption (Non-Hybrid/Hybrid) 7.5% / 7.0%	1% Increase (Non-Hybrid/Hybrid) 8.5% / 8.0%
\$ 9,865,160	\$ 7,573,046	\$ 5,643,232

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the Reporting Unit's proportionate share of the net OPEB liability calculated using the discount rate of 7.5%, as well as what the Reporting Unit's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

1% Decrease 6.5%	Current Single Discount Rate Assumption 7.5%	1% Increase 8.5%
\$ 3,041,063	\$ 2,596,339	\$ 2,218,907

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the Reporting Unit's proportionate share of the net other postemployment benefit liability calculated using the healthcare cost trend rate of 7.5% (decreasing to 3.5%), as well as what the Reporting Unit's proportionate share of the net other postemployment benefit liability would be if it were calculated using a healthcare cost trend rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

<u>1% Decrease</u> <u>(6.5% decreasing to 2.5%)</u>	<u>Current Healthcare Cost</u> <u>Trend Rates</u> <u>(7.5% decreasing to 3.5%)</u>	<u>1% Increase</u> <u>(8.5% decreasing to 4.5%)</u>
\$ 2,198,750	\$ 2,596,339	\$ 3,047,774

H. Pension and OPEB Plan Fiduciary Net Position

Detailed information about the pension and OPEB plan's fiduciary net position is available in the separately issued Michigan Public School Employees Retirement System 2017 Comprehensive Annual Financial Report.

I. Payables to the Pension and OPEB Plan

As of June 30, 2018, the District is current on all required pension and OPEB plan payments. As of June 30, 2018, the District reported payables in the amount of \$121,296 to the pension and OPEB plan. These amounts represent current payments for June wages paid in July, accruals for summer pay primarily for teachers and also the contributions due funded from state revenue Section 147c restricted to fund the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate.

J. Risk Management

The District is exposed to various risks of loss related to property loss, torts, errors and omissions; employee injuries (workers' compensation). The District participates in two distinct pools of educational institutions within the State of Michigan for self-insuring property and casualty and workers' disability compensation. The pools are considered public entity risk pools. The District pays annual premiums to each pool for the respective insurance coverage. In the event a pool's total claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the specific pool's policy year may be subject to special assessment to make up the deficiency. Each of the pools maintain reinsurance for claims in excess of \$500,000 for each occurrence with the overall maximum coverage being unlimited.

The District continues to carry commercial insurance for other risks of loss, including employee health and accident insurance. No settlements have occurred in excess of coverage for June 30, 2018 or any of the prior three years.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

K. Lease Information

The School District leases copy machines and digital duplicators. The total rental expense for the fiscal years ended June 30, 2018, and June 30, 2017, was \$16,263 and \$15,735 respectively. The future minimum payments are summarized below:

<u>YEAR-ENDING</u>	<u>AMOUNTS</u>
2019	\$ 16,930
2020	15,906
2021	10,780
2022	8,104
2023	2,743
	<u>\$ 54,463</u>

L. Long-Term Liabilities

The District issues general obligation bonds to provide funds for the acquisition, construction and improvement of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the District.

The following is a summary of the governmental long-term liability transactions for the School District for the year ended June 30, 2018:

	General Obligation Serial Bonds	Water Connection Loan	Compensated Absences Payable	Net Pension Liability	Net OPEB Liability	Total
Balance June 30, 2017	\$ 5,640,000	\$ 51,627	\$ 88,745	\$ 7,769,345	\$ 2,738,563	\$ 16,288,280

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

The District's liability obligations at June 30, 2018, are comprised of the following issues:

General Obligation Serial Bonds

2010 refunding bonds due in annual installments of \$80,000 to \$85,000 through May 1, 2021, interest at 4.20% to 4.50%. \$ 245,000

2005 energy conservation improvement bonds due in annual installments of \$35,000 through May 1, 2020, interest at 4.90% to 4.95%. 70,000

2015 refunding bonds due in annual installments of \$210,000 to \$385,000 through May 1, 2025, interest at 3.00%. 2,235,000

2012 school bus bonds due in annual installments of \$65,000 through May 1, 2019, interest at 2.050%. 65,000

2016 school building and site bonds due in annual installments of \$130,000 to \$435,000 through May 1, 2028, interest at 1.95%. 2,525,000

Water Connection Loan

\$78,734 loan from the Village of Marion dated March 1, 2005 to finance new water line connection at High School. Semi-annual payments of \$1,873 including interest at 2.5% due March 1 and August 31 each year through March 1, 2034. 49,156

Compensated Absences Payable

Accumulated Sick and Vacation Pay 75,198

Net Pension Liability

Proportionate Share of MPSERS Pension Liability \$ 7,573,046

Net Other Postemployment Benefit Liability

Proportionate Share of MPSERS Other Postemployment Benefit Liability 2,596,339

TOTAL LONG-TERM DEBT \$ 15,433,739

Annual debt service requirements to maturity for the above obligations except for compensated absences, net pension liability, and net other postemployment benefits liability.

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

The annual requirements to amortize debt outstanding as of June 30, 2018, including interest payments of \$661,463 are as follows:

<u>Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Amounts Payable</u>
2019	\$ 527,533	\$ 132,892	\$ 660,425
2020	542,597	117,373	659,970
2021	527,662	101,120	628,782
2022	542,729	85,939	628,668
2023	557,798	71,560	629,358
2024-2028	2,470,080	150,860	2,620,940
2029-2033	17,075	1,655	18,730
2034	3,682	64	3,746
	<u>\$ 5,189,156</u>	<u>\$ 661,463</u>	<u>\$ 5,850,619</u>

The annual requirements to amortize the accrued compensated absences, net pension liability, and net other postemployment benefits liability are uncertain because it is unknown when the pension and other postemployment benefits liabilities will be paid or when the employees will use the benefit.

Compensated absences, net pension liability, and net other postemployment benefits liability benefits will be paid by the fund in which the employee worked, including the general fund and other governmental funds.

M. Short-Term Debt

On August 21, 2017, the District issued a State Aid Anticipation Note in the amount of \$1,250,000. At June 30, 2018, the balance outstanding on this note was \$821,441, plus accrued interest of \$9,699. The District has approved a note payable in the amount of \$1,100,000 for the year ending June 30, 2019.

The following is a summary of the Short-Term Debt transactions for the School District for the year ended June 30, 2018:

Short-Term Debt at July 1, 2017	\$ 547,803
New Debt Issued	1,250,000
Debt Retired and Paid	<u>(966,663)</u>
Short-Term Debt at June 30, 2018	<u>\$ 831,140</u>

N. Interfund Receivables and Payables

	<u>INTERFUND RECEIVABLES</u>	<u>INTERFUND PAYABLES</u>
General Fund	\$ 8,691	\$ 0
Debt Retirement Funds	<u>0</u>	<u>8,691</u>
	<u>\$ 8,691</u>	<u>\$ 8,691</u>

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All Interfund balances outstanding at June 30, 2018 are expected to be repaid within one year.

O. Interfund Transfers

Transfers are used to (1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; (2) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. There were no interfund transfers.

P. Other Information

1. Commitments and Contingencies

Under the terms of various federal and state grants and regulatory requirements, periodic audits are required, and certain cost may be questioned as not being appropriate expenditures under the terms of the grants and requirements. Such audits could lead to reimbursement of the grantor or regulatory agencies. However, management does not believe such disallowances, if any, would be material to the financial position of the District.

Q. 2016 Building and Site Bonds Capital Projects Fund

The capital projects funds include capital project activities funded with bonds issued after May 1, 1994. For these capital projects, the school district has complied with the applicable provisions of §1351a of the Revised School Code. Cash of \$417,548 is restricted to use specified by the bond provisions.

R. Subsequent Events

The District is in the process of borrowing short-term debt for cash flow purposes in the amount of \$1,100,000.

No adjustment was made to the financial statements for the year ending June 30, 2018 related to this subsequent event.

S. GASB Statement No. 77 Tax Abatements

Effective for the year ended June 30, 2018, the District is required to disclose significant tax abatements as required by GASB statement 77 (tax abatements). The District receives reduced property tax revenues as a result of Industrial Facilities Tax exemptions granted by Marion Township within the District. Industrial facility exemptions are intended to promote construction of new industrial facilities, acquisition of personal property or to rehabilitate historical facilities.

For the fiscal year ended June 30, 2018, (tax year 2017) the District's property tax revenues were reduced insignificantly under these programs (less than \$7,500).

MARION PUBLIC SCHOOLS
MARION, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

T. New Accounting Standards

The District implemented the following new pronouncements: GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

Summary:

GASB Statement No. 75 requires governments that participate in defined benefit other postemployment benefit (OPEB) plans to report in the statements of net position a net OPEB liability. The net OPEB liability is the difference between the total OPEB liability (the present value of projected benefit payments to employees based on their past service) and the assets (mostly investments reported at fair value) set aside in a trust and restricted to paying benefits to current employees, retirees, and their beneficiaries. The Statement requires cost-sharing employers to record a liability and expense equal to their proportionate share of the collective net OPEB liability and expense for the cost-sharing plan. The Statement also will improve the comparability and consistency of how governments calculate the OPEB liabilities and expense.

The restatement of the beginning of the year net position is as follows:

Net Position - Governmental Activities - As Previously Reported, June 30, 2017	\$ (5,604,075)
Adoption of GASB Statement 75:	
Net Other Postemployment Benefit Liability	(2,738,563)
Deferred outflows related to Other Postemployment Benefits	211,387
Deferred inflows related to Other Postemployment Benefits	<u>(89,449)</u>
Net Position - Governmental Activities - Restated as of June 30, 2017	<u>\$ (8,220,700)</u>

NOTE 4 – UPCOMING ACCOUNTING PRONOUNCEMENTS

GASB Statement No. 84, *Fiduciary Activities*, was issued by the GASB in January 2017 and will be effective for the District's 2020 fiscal year-end. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities for all state and local governments. The focus on the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. Districts with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position.

Governmental Account Standards Board (GASB) Statement No. 87, *Leases*, was issued by the GASB in June 2017 and will be effective for the District's 2021 year-end. The objective of this Statement is to increase the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use the underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.
