- B. A teacher or the Association believing that there has been a violation, misinterpretation or misapplication of any provision of this Agreement relating to wages, hours, terms or conditions of employment, may file a written grievance with the Employer or its designated representative within 10 working days on the grievance report form as appended. - B. A teacher shall be promptly notified when complaints originating after initial employment result in written material being placed in his/her personnel file. The teacher may submit a written notation regarding any material including written complaints, and the same shall be attached to the file copy of the material in question. When a teacher is asked to sign material placed in his/her file, such signature shall indicate his/her awareness of the material and does not necessarily mean agreement with the content of the material. No such complaint will be acted

upon, included in the teacher's personnel file or used in any disciplinary action unless the teacher has been informed of the complaint.

- C. Statements, complaints or other material in a personnel file to which an employee disagrees will be handled in accordance with guidelines outlined in the Bullard-Plawecki Employee Right to Know Act (as amended).
- D. The Employer shall promptly notify an employee of any requests for personnel file information concerning the teacher made pursuant to the Freedom of Information Act (FOIA), and the employee may review any such request(s) and/or response(s) to such request(s) before the Employer formally responds to such request unless such review is later than four (4) days after the request. In such situation, the Employer may either respond to the request or ask for an extension as allowed under the Act as the Employer deems appropriate.
- E. If any material to be placed in the teacher's personnel file is shown to be illegal or in error, and both parties agree, the material will be corrected or expunged from the file, whichever is appropriate.

### **ARTICLE 3.3**

#### **LEAST RESTRICTIVE ENVIRONMENT**

- A. The Employer and the Association acknowledge that the policy of least restrictive environment is legally mandated and intended in the best educational interest of the student. Accordingly, the parties also recognize that the extent to which any individual student who would fit legal requirements which would involve the use of an individual educational planning committee (IEPC) for placement in the regular classroom must be appropriate to the student's unique needs as determined by an IEPC on an individual basis. For the purpose of this article, such students shall be referred to as "students with disabilities".
- B. If any member, in writing, advises the administration of a reasonable basis to believe that a student with disabilities assigned to the member has a current IEPC report that is not meeting the student's unique needs as required by law, the administration shall call a meeting of involved staff. If the group determines the need for an IEPC meeting, such a meeting will be called. The member so advising the administration shall be invited to attend the IEPC.

- C. Recognizing periodic changes in student status and enrollment subsequent to the start of the school year, to the extent possible, students with disabilities will be assigned in equitable numbers across general education grade levels within each elementary location and across sections of the same course within the middle and senior high school. This section will not apply in the event the teacher volunteers in writing to take additional students with disabilities. In such situations, if the teacher so requests, the administration will reduce class size by an equivalent number of students on a one-to-one basis.
- D. The following conditions shall apply to placement of students with disabilities in general education classrooms:
1. The district shall comply with Special Education Laws and Regulations.
  2. In instances where it is not possible to identify general education teachers who ultimately will have student(s) with disabilities assigned to their classroom(s) in advance of an IEPC, meetings will be convened with such general education teachers as soon as possible following the placement of the student(s) to explain the conclusion of the IEPC and to provide for the teacher to voice concerns.
  3. The student's IEPC should specify and provide for all supplementary aides, support personnel, materials and other related services deemed necessary by the IEPC to satisfactorily achieve educating the student in the regular education classroom. The district shall make every reasonable effort to encourage the IEPC process to so specify and to support the receiving teacher with necessary classroom materials.
  4. The student with disabilities' placement should be determined to the extent permissible by law and through the IEPC in such a way as would be sensitive to both the educational process for the student with disabilities and the other students in the classroom to be entered.
  5. The administration shall provide, prior to such placement whenever possible, in-service training to the teacher regarding the instruction and behavioral management of such student with disabilities in the regular education classroom setting, including but not limited to, the differing approaches, problems and techniques to be utilized with varying physical, mental, emotional and behavioral conditions as are likely to be faced in the given situation. Such inservice training shall be at Employer expense and shall be mutually arranged with the teacher(s) to be involved. If such prior training is not possible, the training will be provided as early as can be arranged after the placement has occurred.
  6. The administration shall provide, prior to such placement whenever possible, awareness information to the affected members and students regarding placement of student with

disabilities in the class(es). The activities shall be provided to assure that the school climate is receptive to the placement and to maximize the potential of the student with disabilities while minimizing possible areas of concern. Should prior provision of such information not be possible, the information shall be provided as early as can be arranged after the placement has occurred.

- E. Except in life threatening or extenuating circumstances, no member shall be required to perform medical, hygienic or other non-instructional specialized procedures for or on students with disabilities such as but not limited to: suctioning, catheterization, diapering, or attending to any personal hygienic or medical need(s) of the student(s). Any such extenuating circumstances shall be preceded by notification to the Association that such circumstances exist and provide an opportunity for the Association and the teacher(s) who may be affected to meet and discuss the issues involved and how best to meet the needs of the student, the regular classroom, the teacher and the school district.
