Board of Education
Mio AuSable Schools
Mio, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Mio AuSable Schools (School District), as of and for the year ended June 30, 2016 and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Mio AuSable Schools as of June 30, 2016 and the respective changes in financial position for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis, budgetary comparison information and pension schedules as noted in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The combining nonmajor fund financial statements and schedules of bonded indebtedness are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is also not a required part of the basic financial statements.

The combining nonmajor fund financial statements and schedules of bonded indebtedness and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the combining nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 29, 2016, on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

MIO AUSABLE SCHOOLS
Management's Discussion and Analysis
For the Year Ended June 30, 2016

Our discussion and analysis of Mio AuSable Schools' (School District) financial performance provides an overview of the School District's financial activities for the fiscal year ended June 30, 2016.

Financial Highlights

The School District's net position decreased by \$459,832 or 13%. Program revenues were \$1,349,274 or 23% of total revenues, and general revenues were \$4,447,786 or 77%.

The General Fund reported a positive fund balance of \$633,884. The Food Service Fund reported a positive fund balance of \$51,500.

Using this Annual Financial Report

This annual financial report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the School District financially as a whole. The *District-wide Financial Statements* provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the district-wide financial statements by providing information about the School District's most significant funds - the General Fund and Food Service Fund with all other funds presented in one column as nonmajor funds. The remaining statements, the statement of fiduciary net position and changes in fiduciary net position, present financial information about activities for which the School District acts solely as an agent for the benefit of students. The following summarizes the presentation included in this annual financial report.

Management's Discussion and Analysis
For the Year Ended June 30, 2016

Reporting the District as a Whole

The Statement of Net Position and Statement of Activities

One of the most important questions asked about the School District's finances is: "Is the School District better or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the School District as a whole and about its activities in a manner that helps to answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by private sector companies. All of the current year's revenues and expenses are taken into consideration regardless of when cash is received or paid.

These two statements report the School District's net position as a way to measure the School District's financial position. The change in net position provides the reader a tool to assist in determining whether the School District's financial health is improving or deteriorating. The reader will need to consider other nonfinancial factors such as property tax base, student enrollment growth and facility conditions in arriving at their conclusion regarding the overall health of the School District.

Reporting the District's Most Significant Funds

Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds - not the School District as a whole. Some funds are required to be established by State law and by bond covenants. Other funds are established to help it control and manage money for particular purposes or to meet legal responsibilities for using certain taxes, grants and other sources of revenue. The School District's two types of funds, governmental and fiduciary, use different accounting approaches as further described in the notes to the financial statements.

Governmental Funds

Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources available to spend in the near future to finance the School District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the basic financial statements.

Fiduciary Funds

The School District is the trustee, or fiduciary, for its student activity funds and scholarship funds. All of the School District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. We exclude these activities from the School District's other financial statements because the assets cannot be utilized by the School District to finance its operations.

MIO AUSABLE SCHOOLS
Management's Discussion and Analysis
For the Year Ended June 30, 2016

District-wide Financial Analysis

The statement of net position provides the perspective of the School District as a whole. Exhibit A provides a summary of the School District's net position as of June 30, 2016 and 2015:

Exhibit A	<u>Governmental Activities</u>	
	<u>2016</u>	<u>2015</u>
Assets		
Current and other assets	\$ 1,614,402	\$ 1,699,893
Capital assets - net of accumulated depreciation	4,758,434	5,011,320
Total assets	<u>6,372,836</u>	<u>6,711,213</u>
Deferred Outflows of Resources		
Related to pensions	<u>851,487</u>	<u>578,254</u>
Liabilities		
Current liabilities	1,024,546	909,744
Long-term liabilities	9,792,107	9,305,753
Total liabilities	<u>10,816,653</u>	<u>10,215,497</u>
Deferred Inflows of Resources		
Related to pensions	<u>350,588</u>	<u>836,126</u>
Net Position		
Net investment in capital assets	3,120,899	3,149,137
Restricted	129,472	302,244
Unrestricted	<u>(7,193,289)</u>	<u>(7,213,537)</u>
Total net position	<u>\$ (3,942,918)</u>	<u>\$ (3,762,156)</u>

The analysis on the previous page focuses on net position (see Exhibit A). The School District's net position of governmental activities was \$(3,942,918) at June 30, 2016. Investment in property and equipment, net of related debt totaling \$3,120,899, compares the original costs less depreciation of the School District's capital assets to long-term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net position is reported separately to show legal constraints from debt requirements and legislation that limit the School District's ability to use that net position for day-to-day operations.

The \$(7,193,289) in unrestricted net position of governmental activities represents the *accumulated* results of all past years' operations. The operating results of the General Fund will have a significant impact on the change in unrestricted net position from year to year.

The School District implemented GASB Statement No. 68 in 2015. The effect of this Statement required the School District to report in the summary of net position, a liability of \$8,257,371 for 2016 and \$7,563,300 for 2015.

MIO AUSABLE SCHOOLS
Management's Discussion and Analysis
For the Year Ended June 30, 2016

The results of this year's operations for the School District as a whole are reported in the statement of activities. Exhibit B provides a summary of the changes in net position for the years ended June 30, 2016 and 2015.

Exhibit B	<u>Governmental Activities</u>	
	<u>2016</u>	<u>2015</u>
Revenues		
Program revenue:		
Charges for services	\$ 105,855	\$ 96,172
Grants and categoricals	1,243,419	1,437,547
General revenue:		
Property taxes	2,436,268	2,468,262
State aid	1,914,942	2,121,879
Other	96,576	109,562
Total revenues	<u>5,797,060</u>	<u>6,233,422</u>
Function/Program Expenses		
Instruction	3,760,404	3,578,691
Support services	1,546,830	1,351,679
Community services	3,937	1,165
Food services	287,163	297,305
Athletics	35,768	30,422
Capital outlay	103,433	32,768
Payments to other governmental units	211,860	244,952
Interest on long-term debt	31,933	36,512
Depreciation (unallocated)	275,564	248,915
Total expenses	<u>6,256,892</u>	<u>5,822,409</u>
Change in Net Position	<u>\$ (459,832)</u>	<u>\$ 411,013</u>

As reported in the statement of activities, the cost of all of our *governmental* activities this year was \$6,256,892. Certain activities were partially funded from those who benefited from the programs, \$105,855, or by the other governments and organizations that subsidized certain programs with grants and categoricals of \$1,243,419. We paid for the remaining "public benefit" portion of our governmental activities with \$2,436,268 in taxes, \$1,914,942 in State aid and with our other revenues, such as interest and entitlements.

The School District's governmental activities had a decrease in net position of \$459,832. This is primarily due to a reduction in revenue attributable to State Aid including 3 year averaging, less Forest Service revenue and reduced property tax revenue.

The School District's Funds

The School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

MIO AUSABLE SCHOOLS
Management's Discussion and Analysis
For the Year Ended June 30, 2016

The School District's governmental funds reported a combined fund balance of \$820,391, which is below last year's total of \$1,011,703. The schedule below indicates the fund balance and the total change in fund balances as of June 30, 2016 and 2015.

	<u>Fund Balance</u> <u>6/30/2016</u>	<u>Fund Balance</u> <u>6/30/2015</u>	<u>Increase</u> <u>(Decrease)</u>
General	\$ 633,884	\$ 702,905	\$ (69,021)
Special Revenue	51,500	53,012	(1,512)
Debt Service	81,193	85,177	(3,984)
Capital Projects	53,814	170,609	(116,795)
	<u>\$ 820,391</u>	<u>\$ 1,011,703</u>	<u>\$ (191,312)</u>

- Our General Fund decrease is mainly due to a reduction in revenue including State Aid 3 year averaging, less Forest Service revenue and less property tax revenue.
- Our Special Revenue Funds decrease has remained consistent with previous year.
- Our Debt Service Fund decreased due to a decrease in interest amounts due.
- Our Capital Projects Fund decreased due to the purchase of technology items and building and site repairs.

MIO AUSABLE SCHOOLS
Management's Discussion and Analysis
For the Year Ended June 30, 2016

As the graph below illustrates, the largest portions of General Fund expenditures are for salaries and fringe benefits. The School District by nature is a labor intensive organization.

Expenditures by Object	<u>2016</u>	<u>2015</u>
Salaries and wages	\$ 2,705,813	\$ 2,769,229
Fringe benefits	1,820,247	1,821,891
Purchased services	448,029	387,985
Supplies	283,591	308,080
Capital outlay	10,011	5,400
Other	310,172	318,237
Total	<u>\$ 5,577,863</u>	<u>\$ 5,610,822</u>

Expenditures have decreased by \$32,959 from the prior year mainly due to the decrease in salaries and benefits including staff reduction. However this reduction was offset by an increase in purchased services including custodial services provided by Axium of \$37,500 and COOR ISD Business Services of \$14,000.

MIO AUSABLE SCHOOLS
Management's Discussion and Analysis
For the Year Ended June 30, 2016

General Fund Budgetary Highlights

Over the course of the year, the School District revises its budget to reflect changes in revenues and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. A schedule showing the School District's original and final budget amounts compared with amounts actually paid and received is provided in required supplemental information of these financial statements. Changes to the General Fund original budget were as follows:

- Budgeted revenues were increased by \$42,866 mainly due to receipt of Federal Payment in Lieu funds received through the Oscoda County Treasurer's office.
- Budgeted expenditures were decreased by \$290,377 due to decreased staff and overall reduction in spending. COOR Business staff will find professional development in this area.
- Actual revenues to final budget increased by \$37,958 due to Forest Service revenue received.
- Actual expenditures to final budget increased by \$130,511 due to invoices coming in after year end. COOR Business staff will find professional development in this area.

Capital Assets

At June 30, 2016, the School District had \$4,758,434 invested in a broad range of capital assets, including land, buildings, furniture and equipment. This amount represents a net decrease (including additions and disposals) of 5% from last year.

	2016	2015
Land improvements	\$ 933,703	\$ 933,703
Buildings and improvements	7,664,195	7,653,377
Buses and other vehicles	1,187,368	1,198,368
Furniture and equipment	820,409	814,644
Total capital assets	10,605,675	10,600,092
Less accumulated depreciation	5,847,241	5,588,772
Net capital assets	\$ 4,758,434	\$ 5,011,320

This year's additions of \$22,678 were for building improvements and repairs, which continued through the 2015-2016 school year. A bond was issued for these additions.

We anticipate capital additions will continue until the completion of the 2013 bond project. We present more detailed information about our capital assets in the notes to the financial statements.

Debt

At the end of this year, the School District had \$1,545,000 in bonds outstanding versus \$1,735,000 in the previous year - a decrease of 11%.

	2016	2015
2013 debt service	\$ 1,545,000	\$ 1,735,000

MIO AUSABLE SCHOOLS
Management's Discussion and Analysis
For the Year Ended June 30, 2016

Factors Expected to have an Effect on Future Operations

Our elected Board and administration consider many factors when setting the School District's 2017 fiscal year budget. One of the most important factors affecting the budget is our student count. The State foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The 2017 fiscal year budget was adopted in June 2016, based on an estimate of students that will be enrolled in September 2016. Under State law, the School District cannot access additional property tax revenue for general operations. As a result, district funding is heavily dependent on the State's ability to fund local school operations. As a result, district funding is heavily dependent on the State's ability to fund local school operations. Based on early enrollment data at the start of the 2016-2017 school year, we anticipate that the fall student count will be close to the estimates used in creating the 2017 fiscal year budget. Once the final student count and related per pupil funding is validated, State law requires the School District to amend the budget if actual district resources are not sufficient to fund original appropriations.

Since the School District's revenue is heavily dependent on State funding and the health of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect revenues to fund its appropriation to school districts. The State periodically holds a revenue-estimating conference to estimate revenues. Based on the results of the most recent conference, the State estimates funds are sufficient to fund the appropriation until 2016-2017.

Requests for Information

This financial report is designed to provide a general overview of the School District's finances for all those with an interest in the School District. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Mio AuSable Schools (School District) conform to U.S. generally accepted accounting principles (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the School District:

Reporting Entity

The School District is governed by an elected Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate component units of the School District. The School District has no component units.

District-wide and Fund Financial Statements

The district-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the School District's government-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes; (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments and other items that are not properly included among program revenues are reported as general revenue.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus, Basis of Accounting and Financial Statement Presentation

District-wide Statements - The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the district-wide financial statements.

Amounts reported as program revenue include; (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes and unrestricted State aid.

Fund-based Statements - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenue to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, unrestricted state aid, intergovernmental grants and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the government.

Fiduciary fund statements also are reported using the economic resources measurement focus and the accrual basis of accounting.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The School District reports the following major governmental funds:

General Fund - The General Fund is used to record the general operations of the School District pertaining to education and those operations not provided for in other funds. Included are all transactions related to the approved current operating budget.

Food Service Fund - The Food Service Fund is used to account for the recordings of transactions relative to breakfast and lunch of the School District.

Assets, Liabilities, and Net Assets or Equity

Cash and Investments - Cash and cash equivalents include cash on hand, demand deposits and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Receivables and Payables - In general, outstanding balances between funds are reported as "due to/from other funds." Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "advances to/from other funds."

Inventories and Prepaid Items - Inventories are valued at cost, on a first-in, first-out basis. Inventory of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and is recorded as prepaid items in both district-wide and fund financial statements.

Capital Assets - Capital assets, which include land, buildings, equipment and vehicles, are reported in the applicable governmental activities column in the district-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$2,000 and any asset susceptible to theft. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset lives are not capitalized. The School District does not have infrastructure-type assets.

Buildings, equipment and vehicles are depreciated using the straight-line method over the following useful lives:

Buildings and improvements	20-50 years
Buses and other vehicles	8 years
Furniture and equipment	5-20 years

Compensated Absences - The liability for compensated absences reported in the district-wide statements consists of unpaid, accumulated annual and sick leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who are currently eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

Long-term Obligations - In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Defined Benefit Plan - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public Employees Retirement Systems (MPERS) and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Equity - The fund balance classifications are reported on the extent to which a government is bound to observe constraints imposed on the use of the resources in governmental funds. The fund balances are classified as nonspendable, restricted, committed, assigned and unassigned.

Nonspendable fund balance represents amounts that are not in a spendable form. The School District's nonspendable fund balance represents inventories and prepaid expenditures. In the fund financial statements, governmental funds report restrictions on fund balances for amounts that are legally restricted by outside parties for a specific purpose. Committed fund balance represents funds formally set aside by the School District for a particular purpose. The use of committed funds would be approved by the Board of Education through the budget process or official board action.

Assigned fund balance would represent tentative management plans that are subject to change which at the present time the School District does not have any assigned fund balance. The School District's intent would be to spend uncommitted/unassigned funds prior to the use of committed funds. When both restricted and unrestricted resources are available for use, it is the School District's policy to use restricted resources first, then unrestricted resources as they are needed.

Deferred Outflows and Inflows of Resources

Deferred outflows - In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The School District only has one item that qualifies for reporting in this category. It is the pension contributions reported in the government-wide statement of net position. A deferred outflow is recognized for pension contributions made after the plans measurement date, but before the fiscal year end. The amount is amortized in the plan year in which it applies.

Deferred Inflows - In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School District has one item that qualifies for reporting in this category. It is future resources yet to be recognized in relation to the pension actuarial calculation. These future resources arise from differences in the estimates used by the actuary to calculate the pension liability and the actual results. The amounts are amortized over a period determined by the actuary.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates - The process of preparing the basic financial statements in conformity with U.S. generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenditures. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Property taxes - For the taxpayers of the School District, properties are assessed as of December 31 and the related property taxes are levied and become a lien on July 1. The final collection date is February 28, after which uncollected taxes are added to the County delinquent tax rolls.

State Aid - For the fiscal year ended June 30, 2016, the State of Michigan adopted a foundation grant approach which provides for a specific annual amount of revenue per student based on a state-wide formula. The foundation is funded from state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of state funds to school districts based on information supplied by the districts. For the year ended June 30, 2016, the foundation allowance was based on the average pupil membership counts taken in February of 2015 and September 2015.

The state portion of the foundation is provided primarily by a state education property tax millage of 6 mills and an allocated portion of state sales and other taxes. The local portion of the foundation is funded primarily by non-homestead property taxes which may be levied at a rate of up to 18 mills. The state revenue is recognized during the foundation period (currently the fiscal year) and is funded through payments from October 2015 - August 2016. The local revenue is recognized as outlined in Note 1. Amounts receivable from the State of Michigan at June 30, 2016 relating to state aid is \$479,330.

The School District also receives revenue from the state to administer certain categorical education programs. State rules require that revenue earmarked for these programs be used for its specific purpose. Certain categorical funds require an accounting to the state of the expenditures incurred. For categorical funds meeting this requirement, funds received, which are not expended by the close of the fiscal year are recorded as deferred revenue. Other categorical funding is recognized when the appropriation is received.

Events Occurring After Reporting Date

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through the date of the accompanying independent auditor's report, which is the date the financial statements were available to be issued.

NOTE 2 - BUDGETS

The State of Michigan adopted a Uniform Budgeting and Accounting Act (Act) applicable to all local governmental entities in the state. The law requires appropriation acts to be adopted for General and Special Revenue Funds of school districts prior to the expenditure of monies in a fiscal year.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 2 - BUDGETS (CONTINUED)

Mio AuSable Schools follows these procedures in establishing the budgetary data reflected in the financial statements.

1. The School District's Superintendent submits to the Board of Education a proposed budget prior to July 1 of each year. The budget includes proposed expenditures and the means of financing them.
2. A public hearing is conducted to obtain taxpayer comments.
3. Budgeted amounts are as originally adopted, or as amended by the Board of Education throughout the year. Budgets are adopted to the functional level.
4. Appropriations lapse at year-end and therefore cancels all encumbrances. These appropriations are re-established at the beginning of the following year.

A comparison of actual results of operations to the budgeted amounts (at the level of control adopted by the Board of Education) for the General Fund is presented as Required Supplemental Information.

Expenditures shall not be made or incurred, unless authorized in the budget, in excess of the amount appropriated. Violations, if any, in the General Fund are noted in the required supplementary information section.

NOTE 3 - CASH AND INVESTMENTS

Some statutes and the School District's investment policy authorize the School District to make deposits in the accounts of federally insured banks, credit unions and savings and loan associations that have an office in Michigan; the School District is allowed to invest in U.S. Treasury or Agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds and investment pools that are composed of authorized investment vehicles. The School District's deposits are in accordance with statutory authority.

At year-end, the School District's deposits and investments were reported in the basic financial statements in the following categories:

	Governmental Activities	Fiduciary Funds	Total Primary Government
Cash and Investments	\$ 794,292	\$ 113,126	\$ 907,418

The breakdown between deposits and investments for the School District is as follows:

Deposits (checking and savings accounts, certificates of deposit)	\$ 270,687
Investment in interlocal agreement investment pools (i.e. MILAF) with a weighted average maturity not to exceed 60 days	636,731
Total	\$ 907,418

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 3 - CASH AND INVESTMENTS (CONTINUED)

Interest Rate Risk

In accordance with its investment policy, the School District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations.

Credit Risk

State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations (NRSROs). As of June 30, 2016, the School District's investment in the investment pool was rated AAA by Standard & Poor's.

Custodial Credit Risk - Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. As of June 30, 2016, \$639,884 of the School District's bank balance of \$853,146 was exposed to custodial credit risk because it was uninsured and uncollateralized.

The balance of the sweep accounts was used to purchase short-term federal debt securities.

Fair Value Measurement

The District is required to disclose amounts within a framework established for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1: Quoted prices in active markets for identical securities.
- Level 2: Prices determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include prices for similar securities, interest rates, prepayments speeds, credit risk and others.
- Level 3: Prices determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable or deemed less relevant, unobservable inputs may be used. Unobservable inputs reflect the District's own assumptions about the factors market participants would use in pricing an investment and would be based on the best information available.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The District does not have any investments subject to the fair value measurement.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 4 - CAPITAL ASSETS

A summary of changes in governmental capital assets follows:

	Balance June 30, 2015	Additions	Disposals	Balance June 30, 2016
Capital assets being depreciated:				
Land improvements	\$ 933,703	\$ 0	\$ 0	\$ 933,703
Buildings and improvements	7,653,377	10,818	0	7,664,195
Buses and other vehicles	1,198,368	0	(11,000)	1,187,368
Furniture and equipment	814,644	11,860	(6,095)	820,409
Subtotal	<u>10,600,092</u>	<u>22,678</u>	<u>(17,095)</u>	<u>10,605,675</u>
Accumulated depreciation:				
Land improvements	923,319	575	0	923,894
Building and improvements	3,273,931	175,117	0	3,449,048
Buses and other vehicles	761,423	71,198	(11,000)	821,621
Furniture and equipment	630,099	28,674	(6,095)	652,678
Subtotal	<u>5,588,772</u>	<u>275,564</u>	<u>(17,095)</u>	<u>5,847,241</u>
Net capital assets being depreciated	<u>5,011,320</u>	<u>(252,886)</u>	<u>0</u>	<u>4,758,434</u>
Net capital assets	<u>\$ 5,011,320</u>	<u>\$ (252,886)</u>	<u>\$ 0</u>	<u>\$ 4,758,434</u>

Depreciation expense for fiscal year ended June 30, 2016 was \$275,564. The School District determined that it was impractical to allocate depreciation to the various governmental activities as the assets serve multiple functions.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 5 - INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

A summary of interfund receivable and payable balances at June 30, 2016 are as follows:

		Payables			
		General	School Lunch	2005 Capital Projects Fund	Total
Receivables	General	\$ 0	\$ 135,029	\$ 2,800	\$ 137,829
	Debt Service	115	0	0	115
Total		\$ 115	\$ 135,029	\$ 2,800	\$ 137,944

A summary of interfund transfers made during the year ended June 30, 2016 are as follows:

		<u>Transfers Out</u>
		<u>School Lunch</u>
Transfers In	General	\$ 9,373

These interfund receivable and payable balances resulted from the time lag between the dates that; (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. Transfers are used to assign indirect costs to the Food Service fund.

NOTE 6 - RECEIVABLES

Receivables at June 30, 2016 consist of accounts (fees), intergovernmental grants and interest.

A summary of the intergovernmental receivables (due from other governmental units) follows:

State aid and grants	\$ 479,331
Federal grants	265,438
Interdistrict and other sources	46,983
	\$ 791,752

NOTE 7 - UNEARNED REVENUE

Governmental funds report unearned revenue in connection with receivables for revenue that are not considered to be available to liquidate liabilities of the current period. Governmental funds also reflect unearned revenue in connection with resources that have been received but not yet earned. At the end of the current fiscal year, grant and categorical aid payments received prior to meeting all eligibility requirements amounted to \$9,023.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 8 - LONG-TERM DEBT

The following is a summary of governmental long-term obligations for the School District for the year ended June 30, 2016:

	Balance		Retirements	Balance	Amount Due
	<u>June 30, 2015</u>	<u>Additions</u>	<u>and Payments</u>	<u>June 30, 2016</u>	<u>Within One</u>
					<u>Year</u>
Bonds	\$ 1,735,000	\$ 0	\$ 190,000	\$ 1,545,000	\$ 200,000
Compensated absences	95,270	26,931	0	122,201	0
Installment purchase	50,000	0	25,000	25,000	25,000
Bond premium	<u>77,183</u>	<u>0</u>	<u>9,648</u>	<u>67,535</u>	<u>0</u>
	<u>\$ 1,957,453</u>	<u>\$ 26,931</u>	<u>\$ 224,648</u>	<u>\$ 1,759,736</u>	<u>\$ 225,000</u>

Bonds payable at June 30, 2016 is comprised of the following issues:

\$2,080,000, 2013 School Improvement bond due in annual installments of \$165,000 to \$240,000 through May 1, 2023; interest at 2.00% to 3.00%	<u>\$ 1,545,000</u>
--	---------------------

Compensated absences include unused sick pay and vacation pay. Unused sick pay is calculated using the daily rate for eligible employees times the number of unused days. Vacation payouts are computed using an average daily rate using 220 days. At June 30, 2016, the amount of \$122,201 has been recorded in the district-wide financial statements.

The School District has an outstanding installment note payable resulting from the purchase of buses. The original balance of the loan of \$150,000 is due in annual principal installments of \$25,000 through January 22, 2017 with interest at 3.71%.

The annual requirements to amortize bonds outstanding as of June 30, 2016, including interest payments are as follows:

<u>Year Ended June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2017	\$ 200,000	\$ 36,775	\$ 236,775
2018	210,000	32,775	242,775
2019	215,000	28,575	243,575
2020	220,000	24,275	244,275
2021	225,000	19,875	244,875
2022 - 2023	<u>475,000</u>	<u>21,450</u>	<u>496,450</u>
	<u>\$ 1,545,000</u>	<u>\$ 163,725</u>	<u>\$ 1,708,725</u>

NOTE 9 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The School District has purchased commercial insurance for medical claims and participates in the SET-SEG risk pool for claims relating to workers' compensation, general liability, and property/casualty claims. Settled claims relating to the commercial insurance did not exceed the amount of insurance coverage in any of the past three fiscal years.

The SET-SEG shared-risk pool program in which the School District participates operates as a common risk-sharing management program for school districts in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

NOTE 10 - DEFINED BENEFIT PENSION PLAN AND POSTEMPLOYMENT BENEFITS

Plan Description

The Michigan Public School Employees' Retirement System (MPSERS) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the board's authority to promulgate or amend the provisions of the System. MPSERS issues a publicly available Comprehensive Annual Financial Report that can be obtained at <http://michigan.gov/orsschools/0.1607.7-206-36585-.00.html>.

Benefits Provided

Participants are enrolled in one of multiple plans based on date of hire and certain voluntary elections. A summary of the pension plans offered by MPSERS is as follows:

<u>Plan Name</u>	<u>Plan Type</u>	<u>Plan Status</u>
Basic	Defined Benefit	Closed
Member Investment Plan (MIP)	Defined Benefit	Closed
Pension Plus	Hybrid	Open
Defined Contribution	Defined Contribution	Open

NOTE 10 - DEFINED BENEFIT PENSION PLAN AND POSTEMPLOYMENT BENEFITS
(CONTINUED)

Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan. Retirement benefits for DB plan members are determined by final average compensation and years of service. DB members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to DB plan members.

Prior to Pension reform of 2010 there were two plans commonly referred to as Basic and the Member Investment Plan (MIP). Basic Plan member's contributions range from 0% - 4%. On January 1, 1987, the Member Investment Plan (MIP) was enacted. MIP members enrolled prior to January 1, 1990, contribute at a permanently fixed rate of 3.9% of gross wages. Members first hired January 1, 1990, or later including Pension Plus members, contribute at various graduated permanently fixed contribution rates from 3.0% - 7.0%.

Pension Reform 2010

On May 19, 2010, the Governor signed Public Act 75 of 2010 into law. As a result, any member of the Michigan Public School Employees' Retirement System (MPERS) who became a member of MPERS after June 30, 2010 is a Pension Plus member. Pension Plus is a hybrid plan that contains a pension component with an employee contribution (graded, up to 6.4% of salary) and a flexible and transferable defined contribution (DC) tax-deferred investment account that earns an employer match of 50% (up to 1% of salary) on employee contributions. Retirement benefits for Pension Plus members are determined by final average compensation and years of service. Disability and survivor benefits are available to Pension Plus members.

Pension Reform 2012

On September 4, 2012, the Governor signed Public Act 300 of 2012 into law. The legislation grants all active members who first became a member before July 1, 2010 and who earned service credit in the 12 months ending September 3, 2012, or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their pension. Any changes to a member's pension are effective as of the member's *transition date*, which is defined as the first day of the pay period that begins on or after February 1, 2013. Under the reform, members voluntarily chose to increase, maintain, or stop their contributions to the pension fund. Members who elected under option 1 to increase their level of contribution contribute 4% (Basic Plan) or 7% (MIP).

Regular Retirement (no reduction factor for age)

Eligibility - Age 55 with 30 years credited service; or age 60 with 10 years credited service. For Member Investment Plan (MIP) members, any age with 30 years credited service; or age 60 with 10 years credited service; or age 60 with 5 years of credited service provided member worked through 60th birthday and has credited service in each of the last 5 years. For Pension Plus (PPP) members, age 60 with 10 years of credited service.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 10 - DEFINED BENEFIT PENSION PLAN AND POSTEMPLOYMENT BENEFITS
(CONTINUED)

Annual Amount - Total credited service as of the Transition Date times 1.5% of Final Average Compensation (FAC).

Pension Plus

An amount determined by the member's election of Option 1, 2, 3, or 4 described below.

Option 1 - Credited Service after the Transition Date times 1.5% times FAC.

Option 2 - Credited Service after the Transition Date (until total service reaches 30 years) times 1.5% times FAC, PLUS Credited Service after the Transition Date and over 30 years times 1.25% times FAC.

Option 3 - Credited Service after the Transition Date times 1.25% times FAC.

Option 4 - None (Member will receive benefit through a Defined Contribution plan). As a DC participant they receive a 4% employer contribution to a tax-deferred 401(k) account and can choose to contribute up to the maximum amounts permitted by the IRS.

Employees who first work on or after September 4, 2012 choose between two retirement plans: the Pension Plus plan and a Defined Contribution that provides a 50% employer match up to 3% of salary on employee contributions.

Final Average Compensation - Average of highest 60 consecutive months (36 months for MIP members). FAC is calculated as of the last day worked unless the member elected option 4, in which case the FAC is calculated at the Transition Date.

Member Contributions

Depending on the plan selected, member contributions range from 0% - 7%. Plan members electing the defined contribution plan are not required to make additional contributions.

Employer Contributions

Reporting units are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of members and retiree Other Post-Employment Benefits (OPEB). Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 10 - DEFINED BENEFIT PENSION PLAN AND POSTEMPLOYMENT BENEFITS
(CONTINUED)

School districts' contributions are determined based on employee elections. There are several different benefit options included in the plan available to employees based on date of hire. Contribution rates are adjusted annually by the ORS. The range of rates is as follows:

March 10, 2015 - September 30, 2015	18.76% - 23.07%
October 1, 2015 - September 30, 2016	14.56% - 18.95%

The School District's pension contributions for the year ended June 30, 2016 were equal to the required contribution total. Pension contributions were approximately \$1,043,000, with \$741,000 specifically for the Defined Benefit Plan. These amounts include contributions funded from the state revenue Section 147c restricted to fund the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Pension Liabilities

At June 30, 2016, the School District reported a liability of \$8,257,371 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation date of September 30, 2014 and rolled-forward using generally accepted actuarial procedures. The School District's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2015 and 2014, the School District's proportion was 0.03381 and 0.03434 percent.

MPSERS (Plan) Net Pension Liability - As of September 30, 2015:

Total Pension Liability	\$	67,355,988,000
Plan Fiduciary Net Position	\$	42,382,361,000
Net Pension Liability	\$	24,973,627,000
Proportionate share		0.03381 %
Net Pension liability for the School District	\$	8,257,371

MPSERS (Plan) Net Pension Liability - As of September 30, 2014:

Total Pension Liability	\$	65,160,887,000
Plan Fiduciary Net Position	\$	43,134,384,000
Net Pension Liability	\$	22,026,503,000
Proportionate share		0.03434 %
Net Pension liability for the School District	\$	7,563,300

NOTE 10 - DEFINED BENEFIT PENSION PLAN AND POSTEMPLOYMENT BENEFITS
(CONTINUED)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2016, the School District recognized pension expense of approximately \$720,000. These amounts include contributions funded from the state revenue Section 147c restricted to fund the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate. A portion of the Section 147c restricted funds, 69.45%, is considered part of the statutorily required contribution to the plan and 30.55% for OPEB. The amount of the section 147c revenue that relates to the statutorily required contribution was approximately \$224,000 and has been recorded as a deferred inflow of resources.

At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred (Inflows) of Resources</u>
Differences between expected and actual experience	\$ 0	\$ (27,351)
Net difference between projected and actual earnings on pension plan investments	42,147	0
Changes in assumptions	203,314	0
Changes in proportion and differences between employer contributions and proportionate share of contributions	16,904	(98,809)
Unearned revenue related to pension portion of section 147 c	0	(224,428)
Reporting Unit contributions subsequent to the measurement date	<u>589,122</u>	<u>0</u>
Total	<u>\$ 851,487</u>	<u>\$ (350,588)</u>

\$589,122, reported as deferred outflows of resources related to pensions resulting from School District employer contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2017.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 10 - DEFINED BENEFIT PENSION PLAN AND POSTEMPLOYMENT BENEFITS
(CONTINUED)

Other amounts reported as deferred outflows of resources and (deferred inflows) of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30	Amount
2017	\$ 1,129
2018	1,129
2019	(9,895)
2020	143,842
	<u>\$ 136,205</u>

Actuarial Assumptions

Investment rate of return - 8.0% a year, compounded annually net of investment and administrative expenses for the Non-Hybrid groups and 7.0% a year, compounded annually net of investment and administrative expenses for the Hybrid group (Pension Plus plan).

Salary increases - The rate of pay increase used for individual members is 3.5%.

Inflation - 2.5%

Mortality assumptions - RP2000 Combined Healthy Life Mortality table, adjusted for mortality improvements to 2020 using a projection scale AA for men and women were used.

Experience study - The annual actuarial valuation report of the System used for these statements is dated September 30, 2014. Assumption changes as a result of an experience study for the periods 2007 through 2012 have been adopted by the System for use in the annual pension valuations beginning with September 30, 2014 valuation.

The long-term expected rate of return on pension plan investments - The rate was 8% (7% Pension Plus Plan) net of investment and administrative expenses was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 10 - DEFINED BENEFIT PENSION PLAN AND POSTEMPLOYMENT BENEFITS
(CONTINUED)

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Investment Category	Target Allocation*	Long-Term Expected Real Rate of Return*
Domestic Equity Pools	28.0%	5.9%
Alternate Investment Pools	18.0%	9.2%
International Equity	16.0%	7.2%
Fixed Income Pools	10.5%	0.9%
Real Estate and Infrastructure Pools	10.0%	4.3%
Absolute Return Pools	15.5%	6.0%
Short Term Investment Pools	2.0%	0.0%
Total	100.0%	

*Long term rate of return does not include 2.1% inflation.

Discount rate - The discount rate used to measure the total pension liability was 8% (7% for Pension Plus Plan). The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from school districts will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate

The following presents the Reporting Unit's proportionate share of the net pension liability calculated using the discount rate of 7.0 - 8.0 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1% Lower (6.0-7.0%)	Discount Rate (7.0-8.0%)	1% Higher (8.0-9.0%)
Reporting Unit's proportionate share of the net pension liability	\$10,645,868	\$8,257,371	\$6,243,770

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued Michigan Public School Employees Retirement System 2014 Comprehensive Annual Financial Report.

Payable to the Pension Plan - At year end the School District is current on all required pension plan payments. Amounts accrued at year end for accounting purposes are included in the financial statements as a liability titled accrued payroll and payroll liabilities. These amounts represent current payments for June paid in July, accruals for summer pay primarily for teachers and the contributions due funded from state revenue Section 147c restricted to fund the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate.

Benefit Provisions - Other Postemployment

Introduction

Benefit provisions of the postemployment healthcare plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions. Retirees have the option of health coverage. Beginning fiscal year 2013, it is funded on a prefunded basis. The System has contracted to provide the comprehensive group medical, hearing, dental and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by the System with the balance deducted from the monthly pension of each retiree health care recipient. For members who first worked before July 1, 2008, (Basic, MIP-Fixed, and MIP-Graded plan members), the subsidy is the maximum allowed by statute. To limit future liabilities of Other Postemployment Benefits, members who first worked on or after July 1, 2008, (MIP-Plus plan members), have a graded premium subsidy based on career length where they accrue credit towards their insurance premiums in retirement, not to exceed the maximum allowable by statute. Public Act 300 of 2012 sets the maximum subsidy at 80% beginning January 1, 2013; 90% for those Medicare eligible and enrolled in the insurances as of that date.

Public Act 75 of 2010 requires each actively employed member of MPSERS after June 30, 2010 to annually contribute 3% of their compensation to offset employer contributions for health care benefits of current retirees.

Retiree Healthcare Reform of 2012

Public Act 300 of 2012 granted all active members of the Michigan Public School Employees Retirement System, who earned service credit in the 12 months ending September 3, 2012, or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their retirement healthcare. Any changes to a member's healthcare benefit are effective as of the member's *transition date*, which is defined as the first day of the pay period that begins on or after December 1, 2012.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 10 - DEFINED BENEFIT PENSION PLAN AND POSTEMPLOYMENT BENEFITS
(CONTINUED)

Under Public Act 300 of 2012, members were given the choice between continuing the 3% contribution to retiree healthcare and keeping the premium subsidy benefit described above, or choosing not to pay the 3% contribution and instead opting out of the subsidy benefit and becoming a participant in the Personal Healthcare Fund (PHF), a portable, tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2% employee contribution into their 457 account as of their transition date, earning them a 2% employer match into a 401(k) account. Members who selected this option stop paying the 3% contribution to retiree healthcare as of the day before their transition date, and their prior contributions will be deposited into their 401(k) accounts.

Employer Contributions

The employer contribution rate ranged from 5.52% - 6.45% of covered payroll for the period October 1, 2013 to March 9, 2015, 2.2% to 2.71% of covered payroll for the period from March 10, 2015 to September 30, 2015, and from 6.4% to 6.83% of covered payroll for the period from October 1, 2015 through June 30, 2016 dependent upon the employee's date of hire and plan election.

The School District postemployment healthcare contributions to MPSERS for the year ended June 30, 2016, 2015 and 2014 were approximately \$263,000, \$305,000 and \$214,000.

NOTE 11 - GRANTS

The School District receives significant financial assistance from federal and state governmental agencies in the form of grants. The disbursement of funds received under these programs generally require compliance with terms and conditions specified in the grant agreements and are subject to audit by the School District's independent auditors and other governmental auditors. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable fund. Based on prior experience, the School District administration believes such disallowance, if any, would be immaterial.

NOTE 12 - ECONOMIC DEPENDENCY

The School District received approximately 47% of their General Fund revenue from the Michigan Department of Education. Due to the significance of this revenue source to the School District, the School District is considered to be economically dependent.

NOTE 13 - BOND AND SINKING FUND COMPLIANCE

The 2004 Capital Projects Fund records capital project activities funding with Sinking Fund millage. The activity related to the sinking fund is recorded in the Capital Projects Fund. The assets, liabilities, revenues and expenditures are included in the School District's basic financial statements for the year ended June 30, 2016.

For this fund, the School District has complied with the applicable provisions of Section 1212(1) of the Revised School Code and the State of Michigan Department of Treasury Letter No. 01-95.

MIO AUSABLE SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2016

NOTE 14 - UPCOMING ACCOUNTING PRONOUNCEMENT

Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, was issued by the GASB in June 2015 and will be effective for the School District's 2018 fiscal year. The Statement requires governments that participate in other postemployment benefit plans (OPEB) to report in their statement of net position an OPEB liability. The OPEB liability is the difference between the total OPEB liability (the present value of projected benefit payments to employees based on their past service) and the assets (mostly investments reported at fair value) set aside in a trust and restricted to paying benefits to current employees, retirees, and their beneficiaries. Statement 75 requires cost-sharing employers to record a liability and expense equal to their proportionate share of the collective net OPEB liability and expense for the cost-sharing plan. The Statement also will improve the comparability and consistency of how governments calculate the OPEB liabilities and expense. The School District is in the process of evaluating the financial statement impact of this statement and believes the impact of this statement could be significant.

Governmental Accounting Standards Board (GASB) Statement No. 77, Tax Abatement Disclosures, was issued by the GASB in August 2015 and will be effective for the School District's 2017 fiscal year. The Statement requires the School District to disclose agreements of other governments that affect the School District's revenue. The School District is in the process of evaluating the impact of this standard on the financial statements when adopted.

NOTE 15 - PRIOR PERIOD ADJUSTMENT

A prior period adjustment has been reflected in the financial statements to adjust beginning net position in the amount of \$279,070 for deferred outflows of resources related to pensions not recorded in the prior year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

September 29, 2016

Board of Education
Mio AuSable Schools
Mio, Michigan

We have audited, in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Mio AuSable Schools (School District), as of and for the year ended June 30, 2016 and the related notes to the financial statements, which collectively comprise Mio AuSable Schools' basic financial statements and have issued our report thereon dated September 29, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Mio AuSable Schools' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of Mio AuSable Schools' internal control. Accordingly, we do not express an opinion on the effectiveness of Mio AuSable Schools' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiency: 2016-001.

Board of Education
Mio AuSable Schools
September 29, 2016

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Mio AuSable Schools' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2016-002.

Response to Findings

Mio AuSable Schools' response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Mio AuSable Schools' response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Weinlander Fitzhugh

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

September 29, 2016

Board of Education
Mio AuSable Schools
Mio, Michigan

Report on Compliance for Each Major Federal Program

We have audited Mio AuSable Schools' compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Mio AuSable Schools' major federal programs for the year ended June 30, 2016. Mio AuSable Schools' major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Mio AuSable Schools' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Mio AuSable Schools' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Mio AuSable Schools' compliance.

Opinion on Each Major Federal Program

In our opinion, Mio AuSable Schools, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Board of Education
Mio AuSable Schools
September 29, 2016

Report on Internal Control Over Compliance

Management of Mio AuSable Schools, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Mio AuSable Schools' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Mio AuSable Schools' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

84.367	Title II
84.027A	IDEA
10.665	Schools and Roads - Grants to State

Dollar threshold used to distinguish between Type A and Type B programs: \$750,000

Auditee qualified as low-risk auditee? YES NO

MIO AUSABLE SCHOOLS
Schedule of Findings and Questioned Costs
For the Year Ended June 30, 2016

SECTION II - Financial Statement Findings

2016-001 (Repeat Finding 2015-004)

Criteria or Specific Requirement

Establishment and maintenance of internal controls over the financial reporting process.

Condition

Due to the complexity of certain aspects of the fund accounting, the government-wide financial statements in accordance with GASB 34 and the related note disclosures, the School District relies on auditor involvement to report in accordance with U.S. generally accepted accounting principles.

Context

Internal controls should be in place to provide reasonable assurance to the School District that management possesses the specialized skills necessary to monitor and report annual financial activity without auditor involvement.

Effect

The effect of this condition places a reliance on the independent auditor to be part of the School District's internal control over financial reporting.

Cause

The School District continues to rely on the independent auditor to be part of the School District's internal control over financial reporting even though the School District contracts with a third party provider for accounting services.

Recommendation

The School District should review its system of internal controls over financial reporting to determine if it will be able to reduce its reliance on its independent auditor and shift its reliance to the third party provider of accounting services.

Views of the Responsible Officials and Planned Corrective Action

The School District and contracted business services will have all financial activity recorded and available to the auditors at the scheduled time of the audit. COOR Business staff will seek professional development opportunities to gain a better understanding of the financial statements. Refer to our corrective action plan for additional information.

MIO AUSABLE SCHOOLS
Schedule of Findings and Questioned Costs
For the Year Ended June 30, 2016

2016-002

Criteria or Specific Requirement

The State of Michigan requires the Michigan School Districts to maintain appropriate controls over expenditures so that disbursements do not exceed budgeted amounts.

Condition

The School District incurred unfavorable variances in a number of its General Fund expenditure accounts. These variances resulted in a violation of the Uniform Accounting and Budgeting and Budgeting Act Michigan Public Act of 1978 (Act).

Context

Internal controls should be in place to appropriately monitor actual expenditures to budget amounts to ensure that disbursements were within the final approved budget.

Effect

The effect of this condition results in multiple unfavorable budget variances.

Cause

The School District did not appropriately monitor actual expenditures to budget amounts to ensure that disbursements were within the final approved budget.

Recommendation

We recommend the School District should implement measures to enhance its monitoring of its financial activity and amend its budgets when necessary, in accordance with requirements of the Act.

Views of the Responsible Officials and Planned Corrective Action

The School District will strive to better monitor budget to actual expenditures. In addition, the COOR Business staff will seek professional development to gain a better understanding of best budgeting practices and maintaining budget to actual expenditures. Refer to our corrective action plan for additional information.

SECTION III - Federal Award Findings and Questioned Costs

There are no matters reported.

MIO AUSABLE SCHOOLS
Schedule of Prior Year Findings
For the Year Ended June 30, 2016

2015-001 and 2015-005

Audit Finding

During audit fieldwork, it was discovered that bank reconciliation's had not been completed for several months of the fiscal year.

Corrective Action Taken

All bank reconciliations were completed by year-end.

2015-002

Audit Finding

During audit fieldwork, it was discovered that a material number of transactions had not been properly recorded at the fund level on a timely basis throughout the fiscal year.

Corrective Action Taken

All transactions were properly recorded by year-end.

2015-003, 2015-2006, 2014-004 and 2014-007

Audit Finding

There was limited documentation to support the approval of invoices submitted for payment by the School District.

Corrective Action Taken

All invoices were properly approved and signed by the appropriate staff.

See accompanying notes to Schedule of Expenditures of Federal Awards

MIO AUSABLE SCHOOLS
Notes to the Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedule of expenditures of federal awards (Schedule) includes the federal grant activity of Mio AuSable Schools under programs of the federal government for the year ended June 30, 2016. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of Mio AuSable Schools, it is not intended to and does not present the financial position or changes in net position of Mio AuSable Schools.

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts (if any) shown on the Schedule represent adjustments or credit made in the normal course of business to amounts reported as expenditures.

NOTE 2 - OTHER DISCLOSURES

Management has utilized the Cash Management System Grant Auditor Report in preparing the Schedule of Expenditures of Federal Awards.
