

The board shall, through the superintendent, provide such equipment and supplies as necessary to insure the proper and efficient operation of the district. Such equipment and supplies shall be purchased in accordance with the board's general purchasing policy and where feasible in terms of storage, facilities, need and costs, supplies shall be purchased in bulk quantities. Also, where feasible may be rented or leased.

Equipment owned by the district shall be adequately maintained in order to insure its effective operation and to maximize its useful life. All departments shall keep maintenance, usage and inventory records for equipment and supplies owned by the district.

Approved: (P.V.E)
