MANAGEMENT’S DISCUSSION AND ANALYSIS

This section of Onekama Consolidated School’s (the “School District”) annual financial report presents a discussion and analysis of the District’s financial performance during the fiscal year that ended on June 30, 2019. It is to be read in conjunction with the School District’s financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

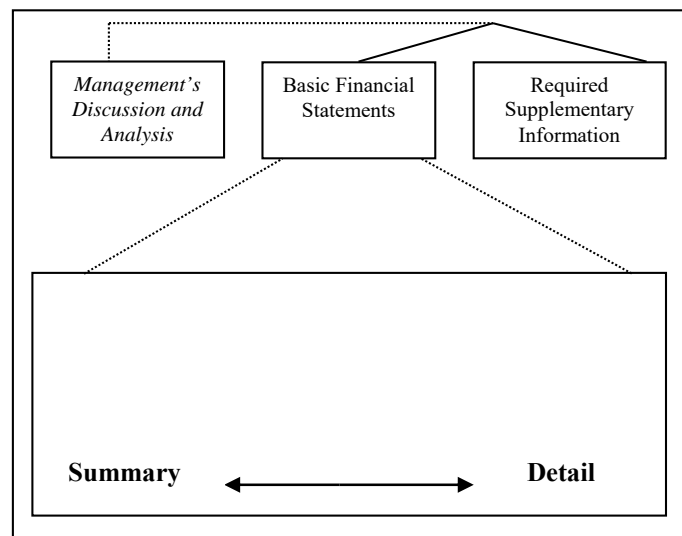

- The School District’s financial status decreased during the year due to a decrease in student count.
- The State of Michigan foundation grant increased by \$127 from \$8,282 to \$8,409.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: management’s discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the School District:

- The first two statements are *district-wide financial statements* that provide both *short-term* and *long-term* information about the District’s *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the School District, reporting the School District’s operations *in more detail* than the district-wide statements.
- The *governmental funds* statements tell how *basic* services like regular and special education were financed in the *short-term* as well as what remains for future spending.
- *Fiduciary funds* statements provide information about the financial relationships in which the School District acts solely as a *trustee or agent* for the benefit of others.

Figure A-1
Onekama Consolidated Schools Annual
Financial Report

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the financial statements with a comparison of the School District’s budget for the year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Figure A-2			
Major Features of District-Wide and Fund Financial Statements			
	District-wide Statements	Fund Financial Statements	
		Governmental Funds	Fiduciary Funds
Scope	Entire district (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as special education and building maintenance.	Instances in which the district administers resources on behalf of someone else, such as scholarship programs and student activities monies
Required financial statements	* Statement of net position * Statement of activities	* Balance sheet * Statement of revenues, expenditures and changes in fund balances	* Statement of fiduciary net assets * Statement of changes in fiduciary net assets
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both short-term and long-term, the District's funds do not currently contain capital assets.
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year, expenditures when goods or services have been received and the related liability is due and payable	All additions and deductions during the year, regardless of when cash is received or paid

Figure A-2 summarized the major features of the School District’s financial statements, including the portion of the School District’s activities they cover and the types of information they contain. The remainder of this overview section of management’s discussion and analysis highlights the structure and contents of each of the statements.

DISTRICT-WIDE STATEMENTS

The district-wide statements report information about the School District as a whole using accounting methods similar to those used by private-sector companies. The statements of net position include *all* of the School District’s assets and liabilities. All of the current year’s revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the School District’s *net position* and how they have changed. Net assets, the difference between the School District’s assets and liabilities, are one way to measure the School District’s financial health or *position*.

- Over time, increases or decreases in the School District’s net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the School District, consideration must be given to additional nonfinancial factors such as changes in the School District’s property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements, the School District’s activities:

- *Governmental activities* – Most of the School District’s basic services are included here, such as regular and special education, transportation and administration. Property taxes and state formula aid finance most of these activities.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the School District’s *funds*, focusing on its most significant or “major” funds – not the School District as a whole. Funds are accounting devices the School District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The School District establishes other funds to control and manage money for particular purposes (repayment of long-term debt) or to show that it is properly using certain revenues (like school lunch).

The School District has two kinds of funds:

- *Governmental funds*: Most of the School District’s basic services are included in governmental funds, which generally focus on (1) how *cash and other financial assets* can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District’s programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information is provided with the governmental funds statements that explains the relationship (or differences) between them.
- *Fiduciary funds*: The School District is the trustee, or *fiduciary*, for assets that belong to others, such as the scholarship fund and the student activities funds. The School District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. We exclude these activities from the district-wide financial statements because the School District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

For the fiscal year ended June 30, the results of operations, on a district wide basis, were as follows:

Table A-3

	<u>2018</u>	<u>2019</u>
Assets		
Current and other assets	\$ 2,492,225	\$ 981,419

 Change in net position	 463,006	 (124,539)
 Net position - beginning of year	 <u>(4,942,170)</u>	 <u>(4,479,164)</u>
 Net position - end of year	 <u><u>\$ (4,479,164)</u></u>	 <u><u>\$ (4,603,703)</u></u>

PENSION AND OPEB EXPENSE

GASB 68 and GASB 75 require the School District to account for its payments to the Michigan Public School Employees' Retirement System in a manner that has a significant effect on the School District's change in net position. Based on various factors, the School District may report an increase or decrease in net position depending on whether the School District's proportionate share of the net pension and net OPEB liabilities increases or decreases in any given year. For the year ended June 30, 2019, the School District recorded \$6,375,201 and \$1,666,656 as their proportionate share of the net pension and net OPEB liabilities, respectively.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the School District as a whole is reflected in its governmental funds as well. As the School District completed the year, its governmental funds reported combined fund balances of \$558,707; a decrease of \$1,534,406 from last year's ending fund balances of \$2,093,113.

General Fund Budgetary Highlights

Over the course of the year, the School District revised the annual operating budget several times. These budget amendments are as follows:

- Changes made in the third and fourth quarters to account for final enrollment counts, staffing assignments and changes in grant funding since the original budget was adopted.
- While the final budget for the general fund anticipated that revenues and expenditures would reflect a decrease of \$276,484, the actual results for the year show a decrease of \$205,652 due to final adjustments to personnel and conservative budgeting of expense line items.
- Actual revenues were \$4,184,975 or \$81,416 less than expected, due primarily to final grant allocations.
- Actual expenditures were \$4,431,080 or \$60,703 below budget, due primarily to conservative budgeting of supplies and utilities.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

Depreciable assets for the 2018-2019 school year totaled \$19,991,104. A summary of capital assets follows:

Table A-5
OCS's Capital Assets

	2018	Additions	Deletions	2019
Capital assets not being depreciated				
Land	\$ 401,966	\$ -	\$ -	\$ 401,966
Construction-in-progress	335,116	1,163,261	-	1,498,377
Total non-depreciable	737,082	1,163,261	-	1,900,343
Capital assets being depreciated				
Building and building improvements	18,158,945	33,913	-	18,192,858
Buses and other vehicles	530,311	84,861	-	615,172
Furniture and equipment	1,099,310	83,764	-	1,183,074
Gross capital assets	19,788,566	202,538	-	19,991,104
Less accumulated depreciation	(5,913,240)	(531,559)	-	(6,444,799)
Net governmental capital assets	<u>\$ 14,612,408</u>	<u>\$ 834,240</u>	<u>\$ -</u>	<u>\$ 15,446,648</u>

Long-term Debt

At year-end the District had \$12,790,000 in general obligation bonds and \$97,497 in note payable obligations.

Table A-6
The District's Outstanding Long-Term Debt

	<u>2018</u>	<u>Net Additions/(Payments)</u>	<u>2019</u>
General obligation bonds (financed with property taxes)	\$ 13,475,000	\$ (685,000)	\$ 12,790,000
Note payable/capital lease	85,048	12,449	97,497
Unamortized bond premium	1,041,299	(78,526)	962,773
Early retirement liability	18,300	(11,841)	6,459
Accumulated sick & vacation	132,318	(11,865)	120,453
	<u> </u>	<u> </u>	<u> </u>
Total	<u>\$ 14,751,965</u>	<u>\$ (774,783)</u>	<u>\$ 13,977,182</u>

Additional information on the District's long-term debt can be found in Note F on page 19 of this report.

FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the School District was aware of existing circumstances that could significantly affect its financial health in the future:

- The 2019-2020 foundation allowance will increase by a range from \$120 - \$240. Student enrollment is always fluctuating and a concern and will be closely monitored.
- The Board of Education and the Onekama Education Association have a contract through August, 2020.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and investors, and creditors with a general overview of the School District's finances and to demonstrate the School District's accountability for the money it receives. If you have questions about this report or need additional information, contact the Onekama Consolidated School District Business Office at 772 E Parkdale Ave, Manistee, MI, 49660.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Education
Onekama Consolidated Schools

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of ***Onekama Consolidated Schools*** (the "School District") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Onekama Consolidated Schools as of June 30, 2019, and the respective changes in financial position thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages i through vii, budgetary comparison information on page 38, Pension contribution schedule on page 39 and OPEB contribution schedule on page 40 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The combining non-major fund financial statements and other supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

We previously audit the School District's financial statements for the years ended June 30, 2017 and 2018 and issued our reports thereon, dated October 3, 2017 and October 1, 2018, respectively, and expressed unmodified opinions on those audited financial statements.

The combining non-major fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining non-major fund financial statements and other supplementary information are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 8, 2019, on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Reconciliation of Governmental Fund Balances to District-Wide Government Activities Net Position

Amounts reported for governmental activities in the statement of net position are different because: Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. The cost of the assets is \$21,891,447 and the accumulated depreciation is \$6,444,799. 15,446,648

Deferred outflows of resources is not a financial resource and, therefore, is not reported as an asset in governmental funds. 2,451,320

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:

	Bonds payable	12,790,000	
	Notes payable	97,497	
	Unamortized bond premium	962,773	
	Accrued interest on bonds	87,924	
	Early retirement incentive payable	6,459	
	Accumulated leave liability	120,453	
	Net pension obligation	6,375,201	
	Net OPEB obligation	1,666,656	(22,106,963)

Deferred inflows of resources is not a financial resource and, therefore, is not reported as a liability in governmental funds. (953,415)

Total net position - governmental activities \$ (4,603,703)

Onekama Consolidated Schools

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES WITH THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

Year Ended June 30, 2019

Total net change in fund balances - governmental funds \$ (1,534,406)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in the governmental funds as expenditures. However, costs that meet the capitalization policy are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities. This is the amount by which depreciation exceeds capital outlays in the period.

Capital outlays	\$ 1,365,799	
Depreciation expense	<u>(531,559)</u>	834,240

Change in deferred outflows of resources for loss on refunding of bonds. (33,136)

Change in deferred outflows of resources for pension obligation of \$816,210 and OPEB obligation of \$173,192. 989,402

In the statement of activities, certain operating expenses - compensated absences and early retirement incentives - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). This year, accumulated leave earned was less than the amounts used by \$11,865. Early retirement incentives payments were \$11,841. 23,706

Repayment of bond principal and notes payable are expenditures in the governmental funds, but reduce long-term liabilities in the statement of net position and do not affect the statement of activities. 718,551

Note proceeds provide current financial resources to governmental funds; however issuing debt increases long-term liabilities in the statement of net position. (46,000)

Net amortization of bond premium. 78,526

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities however, interest expense is recognized as the interest accrues, regardless of when it is due. The lower amount of interest reported in the statement of activities is the net result of the decrease in accrued interest on bonds payable. 3,376

Increase in net pension liability. (808,556)

Decrease in net OPEB liability. 233,942

Change in deferred inflows of resources for pension obligation of \$(236,918) and OPEB obligation of \$(347,266). (584,184)

Changes in net position of governmental activities \$ (124,539)

Onekama Consolidated Schools

NOTES TO FINANCIAL STATEMENTS

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Introduction

Onekama Consolidated Schools (the "School District") is a Michigan public school district consisting of one K-12 building. The School District primarily serves the Onekama and Arcadia communities. As of June 30, 2019, the School District employed 26 professional staff and 30 non-professional staff, and had 416 students enrolled within its School District.

The accounting policies of the School District conform to generally accepted accounting principles as applicable to governments. The School District is considered to be a local government unit.

The accounting and reporting framework and the more significant accounting principles and practices of the School District are discussed in subsequent sections of this note. The remainder of the notes are organized to provide explanations, including required disclosures, of the School District's financial activities for the fiscal year ended June 30, 2019.

Financial Reporting Entity

Onekama Consolidated Schools is a special purpose government and considered to be a primary government because it has a separately elected governing body, is legally separate and is fiscally independent of other State and local governments. The financial reporting entity of Onekama Consolidated Schools includes the School District as the primary government and its component units; i.e., legally separate organizations for which the primary government is financially accountable and any other organizations which management has determined, based on the nature and significance of their relationship with the School District, must be included to prevent the School District's financial statements from being misleading. Based on criteria established in Governmental Accounting Standards Board ("GASB") Statement No. 14, as amended, management has not identified any component units. student, parent and teacher organizations are not included, except to the extent that the School District holds assets in the capacity of an agent.

Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the School District as a whole, except for its fiduciary activities. Individual funds are not displayed.

NOTES TO FINANCIAL STATEMENTS - Continued

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees, fines and forfeitures, and other charges to users of the School District's services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. Taxes and other revenue sources not properly included with program revenues are reported as general revenues.

Fund Financial Statements

The balance sheet and statement of revenues, expenditures and changes in fund balances (i.e., fund financial statements) for the School District's governmental funds are presented after the government-wide statements. These statements display information about major funds individually and non-major funds in the aggregate for governmental funds. Major funds are generally those that represent 10% or more of governmental fund assets, liabilities, revenues or expenditures.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The financial statements of the School District are prepared in accordance with generally accepted accounting principles ("GAAP"). The School District's reporting entity applies all relevant Governmental Accounting Standards Board ("GASB") pronouncements.

The government-wide statements report using the economic resource measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity (between or within funds). Reimbursements are reported as reductions to expenses. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the year for which they are levied while grants are recognized when grantor eligibility requirements are met.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The School District considers revenues to be available, if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported as expenditures in the year due.

Major revenue sources susceptible to accrual include property taxes, intergovernmental revenues and investment income. In general, other revenues are recognized when cash is received.

NOTES TO FINANCIAL STATEMENTS - Continued

Fund Types and Major Funds

Activities in Major Funds

The General Fund is the general operating fund of the School District. It is used to account for all financial resources except those accounted for in another fund.

The 2016 Debt Retirement Fund is used to account for the accumulation of resources for, and the payment of, bond principal, interest and related costs.

The 2017 Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of capital assets.

Activities in Non-major Funds

Governmental Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are committed or restricted to expenditures for specified purposes. The Special Revenue Funds maintained by the School District are the Food Service and Leaps and Bounds Funds.

Debt Retirement Funds are used to account for the accumulation of resources for, and the payment of, bond principal, interest and related costs.

The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of capital assets.

The Sinking Fund records capital projects activities funded with Sinking Fund millage. For this fund, the school district has complied with the applicable provisions of Section 1212 of the Revised School Code.

Fiduciary Funds

Fiduciary Funds are used to account for assets held by the School District in a trustee capacity or as an agent. Fiduciary Fund net position and results of operations are not included in the government-wide statements. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Cash and Cash Equivalents

The School District reporting entity considers highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased to be cash equivalents.

Capital Assets

Capital assets are recorded at cost or, if donated, the fair value at the time of donation. Capital assets are depreciated over their estimated useful lives ranging from 5 to 50 years. The School District generally capitalizes assets with costs of \$5,000 or more as purchase and construction outlays occur. No depreciation is recorded on land or construction-in-process. Expenditures for major renewals and betterments that extend the useful lives of the capital assets are capitalized. Expenditures for maintenance and repairs are charged to current expenditures as incurred. Depreciation is computed using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts and the resulting gain or loss is recorded in operations.

Estimated useful lives for depreciable assets are as follows:

Buildings and improvements	7-50 years
Buses and vehicles	8 years
Furniture and equipment	5-20 years

Long-term Debt and Bond Discounts/Premiums

In the government-wide financial statements, outstanding debt is reported as a liability. Bond discounts or premiums are capitalized and amortized over the terms of the respective bonds using a method that approximates the interest method.

The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period.

Deferred Inflows and Outflows

In addition to assets and liabilities, the statement of financial position includes separate sections for deferred outflows of resources and deferred inflows of resources. The separate financial statement elements, deferred outflows and inflows of resources, represent a consumption/addition of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) or inflows of resources (revenue) until then. The School District's items that qualify for reporting in this category are the items related to the loss on bond refunding and pension and OPEB obligations. See Note I for details of deferred outflows and inflows related to the pension obligation, and Note J for the OPEB obligation.

Fund Equity

Governmental fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned or unassigned. Nonspendable fund balance cannot be spent because of its form. Restricted fund balance has limitations imposed by creditors, grantors or contributors, or by enabling legislation or constitutional provisions. Committed fund balance is a limitation imposed by the School District Board through approval of resolutions. Assigned fund balances is a limitation imposed by a designee of the School District Board. Unassigned fund balance in the General Fund is the net resources in excess of what can be properly classified in one of the above four categories. Negative unassigned fund balance in other governmental funds represents excess expenditures incurred over the amounts restricted, committed or assigned to those purposes.

Program Revenues

Program revenues derive directly from the program itself or from outside parties for the restricted use in a particular program. On the statement of activities, program revenues reduce the net cost of the various functions to reflect the amount which is financed from the School District's general revenues.

The School District's most significant program revenues are Title I and At-Risk Program, which are reported as operating grants and contributions.

Spending Policy

When both restricted and unrestricted fund balances are available for use, it is the School District's policy to use restricted fund balance first, then unrestricted fund balance. Furthermore, committed fund balances are reduced first, followed by assigned amounts and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

Pension Plan

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public Employees Retirement System ("MPERS") and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Post-Employment Benefits Other than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Michigan Public School Employees Retirement System ("MPERS") and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO FINANCIAL STATEMENTS - Continued

Encumbrance Accounting

The School District formally records encumbrances in the accounting records during the year as a normal practice. In accordance with generally accepted accounting principles, outstanding encumbrances at year-end for which goods or services are received are reclassified as expenditures and accounts payable. All other encumbrances in the annual budgeted funds are reversed at year-end and are either canceled or are included as reappropriations of fund balance for the subsequent year.

Allocation of Expenses

The School District reports each function's direct expenses, those that are specifically associated with a service, program or department and, thus, are clearly identifiable to a particular function.

The School District has elected to not allocate indirect expenses.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates.

NOTE B - BUDGETARY POLICY AND PRACTICE

Excess of Expenditures over Appropriations in Budgeted Funds

Michigan Public Act 621 of 1978 provides that a local unit shall not incur expenditures in excess of the amounts appropriated. During the year ended June 30, 2019, the School District was in compliance with that provision.

NOTE C - CASH AND CASH EQUIVALENTS

At June 30, 2019, the School District's cash and cash equivalents included the following:

	<u>Cash and Cash Equivalents</u>
Bank deposits	\$ 556,074
Investments	<u>367,962</u>
	<u><u>\$ 924,036</u></u>

NOTES TO FINANCIAL STATEMENTS - Continued

Bank Deposits

All of the School District's bank deposits are with financial institutions which provide FDIC insurance coverage or in highly liquid pooled money funds.

Custodial Credit Risk - Deposits

In the event of bank failure, the School District's deposits may not be returned to it. As of June 30, 2019, \$4,324 of the School District's and Agency bank balance of \$576,836 was exposed to custodial credit risk because it is uninsured and uncollateralized.

Investments

The School District's investment policy permits investments in the following vehicles:

1. Bonds and other obligations of the United States; the principal and interest of which are fully guaranteed by the United States; or obligations of the State.
2. Certificate of deposits issued by financial institutions organized and authorized to operate in Michigan.
3. Certain commercial paper.
4. Securities issued or guaranteed by agencies or instruments of the United States government.
5. United States government Federal agency obligation repurchase agreements.
6. Banker's acceptance issued by a bank that is a member of the FDIC.
7. Certain mutual funds.
8. Investment pools, as authorized by the surplus funds investment pool act, Act No. 367 of the Public Acts of 1982.

Investments at June 30, 2019 consisted of the following:

<u>Investment Type</u>	<u>Cost</u>	<u>Investment Maturities (in years)</u>			
		<u>Current</u>	<u>1-5</u>	<u>6-10</u>	<u>More than 10</u>
MILAF	<u>\$ 367,962</u>	<u>\$ 367,962</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Interest Rate Risk

The School District attempts to minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by: structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and, investing operating funds primarily in short-term securities, liquid asset funds, money market funds, or similar investment pools and limiting the average maturity. MILAF investments are carried at amortized cost and are not subject to any withdrawal restrictions.

NOTES TO FINANCIAL STATEMENTS - Continued

Credit Risk

State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized rating organizations. The School District further limits its investment choices as described above. The School District's investment in the Michigan Liquid Asset Fund ("MILAF") investment pool was rated AAAM by Standard & Poor's.

NOTE D - RECEIVABLES, UNCOLLECTIBLE ACCOUNTS AND UNEARNED REVENUE

Property Taxes Receivable, Unearned Revenue and Property Tax Calendar

Property taxes are levied, billed and attached as enforceable liens in July and December of the School District's fiscal year. Townships within the School District collect and remit taxes until February 15, at which time the uncollected real property taxes are turned over to the counties as delinquent. Delinquent real property taxes are funded by the county and remitted to the School District. Delinquent personal property tax remains a receivable until collected from the taxpayer by the townships and remitted to the School District. In the governmental fund financial statements, if delinquent taxes are not paid within 60 days of year-end, they are recorded as deferred inflows of resources. In the government-wide financial statements, property taxes receivable and related revenue include all amounts due to the School District regardless of when cash is received. Over time, substantially all property taxes are collected.

During the fiscal year, \$18.00 per \$1,000 of equalized non-principal residence property value of \$165.68 million and \$6 per \$1,000 of equalized commercial personal property value of \$2.71 million was levied for general operating purposes. For Debt Service, \$3.98 per \$1,000 of total equalized property value of \$306.18 million was levied for bonded debt repayments by the Debt Service Fund. For sinking fund purposes, \$1 per \$1,000 of total equalized property value of \$306.18 million was levied for the replacement of roofs, unit ventilators and condensing units; upgrades to boilers and heating systems; and adding a new stairway in the parking lot.

Intergovernmental Receivables and Unearned Revenue

Intergovernmental receivables are primarily comprised of amounts due from the State and Federal governments. Revenue is recorded as earned, when eligibility requirements are met. Grant revenues are deferred in the governmental fund financial statements and include unearned revenue and deferred inflow of resources. Unearned revenue received after 60 days is fully recognized as revenue in the government-wide statements, if grantor eligibility requirements are met.

Amounts due from other governments at June 30, 2019 are as follows:

Due from the State of Michigan - State aid	\$ 170,688
Due from Federal grants	21,774
Due from other sources	<u>24,902</u>
	<u>\$ 217,364</u>

NOTES TO FINANCIAL STATEMENTS - Continued

NOTE E - INVESTMENTS IN CAPITAL ASSETS

Investments in capital assets consist of the following:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>Ending Balance</u>
Buildings and improvements	\$ 18,158,945	\$ 33,913	\$ -	\$ 18,192,858
Buses and vehicles	530,311	84,861	-	615,172
Furniture and equipment	<u>1,099,310</u>	<u>83,764</u>	<u>-</u>	<u>1,183,074</u>
Total depreciable assets	19,788,566	202,538	-	19,991,104
Less accumulated depreciation	(5,913,240)	(531,559)	-	(6,444,799)
Construction-in-process	335,116	1,163,261	-	1,498,377
Land	<u>401,966</u>	<u>-</u>	<u>-</u>	<u>401,966</u>
Total capital assets, net	<u>\$ 14,612,408</u>	<u>\$ 834,240</u>	<u>\$ -</u>	<u>\$ 15,446,648</u>

Depreciation expense was charged to the function in the statement of activities, as follows:

Unallocated	<u>\$ 531,559</u>
-------------	-------------------

NOTE F - LONG-TERM LIABILITIES

Changes in long-term liabilities during the year ended June 30, 2019 were as follows:

	<u>Beginning Balance</u>	<u>New Debt</u>	<u>Defeased/ Refunded/ Payments</u>	<u>Ending Balance</u>	<u>Current Portion</u>
General obligation bonds	\$ 13,475,000	\$ -	\$ (685,000)	\$ 12,790,000	\$ 740,000
Notes payable	85,048	46,000	(33,551)	97,497	45,018
Unamortized bond premium	1,041,299	-	(78,526)	962,773	78,526
Early retirement liability	18,300	-	(11,841)	6,459	6,459
Accumulated leave liability	<u>132,318</u>	<u>-</u>	<u>(11,865)</u>	<u>120,453</u>	<u>-</u>
Long-term liabilities	<u>\$ 14,751,965</u>	<u>\$ 46,000</u>	<u>\$ (820,783)</u>	<u>\$ 13,977,182</u>	<u>\$ 870,003</u>

NOTES TO FINANCIAL STATEMENTS - Continued

Payments on general obligation bonds are made by the Debt Retirement Funds. Payments on notes payable are made by the General Fund. The accumulated leave liability and early retirement liability will be liquidated primarily by the General Fund.

This space left blank intentionally.

NOTES TO FINANCIAL STATEMENTS - Continued

At June 30, 2019, the School District's long-term liabilities consisted of the following:

\$4,860,000 2017 School Building and Site and Refunding general obligation bonds for the advance refunding of the School District's 2008 bond issue and \$1,550,000 in new debt; due in annual installments of \$185,000 to \$445,000 through May 2033; interest rate of 4.00%; due semi-annually.	\$ 4,630,000
\$8,925,000 2016 Refunding general obligation bonds for the advance refunding of the School District's 2004 and 2007 bond issues; due in annual installments of \$450,000 to \$775,000 through May 2032; interest rate of 4.00%; due semi-annually.	<u>8,160,000</u>
Total general obligation bonds	12,790,000
Note payable for a bus with a cost of \$83,083; due in annual installments of \$17,622 through August 2020; interest rate of 1.99%; due annually. Secured by the purchased bus.	34,219
Note payable for a bus with a cost of \$83,083; due in annual installments of \$17,622 through August 2019; interest rate of 1.99%; due annually. Secured by the purchased bus.	17,278
Note payable for a bus with a cost of \$84,861; due in annual installments of \$12,735 through July 2022; interest rate of 4.15%; due annually. Secured by the purchased bus.	<u>46,000</u>
Total general obligation bonds, notes payable and capital leases	12,887,497
Unamortized bond premium	962,773
Early retirement liability	6,459
Accumulated leave liability	<u>120,453</u>
Total long-term liabilities	<u>\$13,977,182</u>

Total annual requirements to amortize general obligation bonds and notes payable as of June 30, 2019 are as follows:

Years Ending <u>June 30,</u>	<u>Principal</u>	<u>Interest</u>
2020	\$ 785,018	\$ 514,561
2021	813,541	483,825
2022	831,727	451,608
2023	872,211	418,314
2024	890,000	383,400
2025-2029	5,010,000	1,353,600
2030-2034	<u>3,685,000</u>	<u>313,400</u>
	<u>\$12,887,497</u>	<u>\$ 3,918,708</u>

NOTES TO FINANCIAL STATEMENTS - Continued

Interest expense for the year ended June 30, 2019 was \$574,813, and interest paid was \$545,053.

Accumulated Leave Liability

Employees of the School District accumulate days of compensated sick leave, as specified by the bargaining units' contract. This benefit vests after four years of employment. Upon either resignation or retirement, the employees are compensated at a daily rate specified in the bargaining units' contracts.

Early Retirement Incentives

The School District has an early retirement incentive program for eligible teachers. Under the program, a teacher is scheduled to receive contributions of \$6,000 per year. As of June 30, 2019, the amount due to teachers in the program was \$6,459.

Deferred Loss on Refunding

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Amortization</u>	<u>Ending Balance</u>
2017 School Building and Site Refunding bonds	\$ 73,037	\$ -	\$ (5,312)	\$ 67,725
2016 Refunding bonds	<u>357,071</u>	<u>-</u>	<u>(27,824)</u>	<u>329,247</u>
Total deferred outflows	<u>\$ 430,108</u>	<u>\$ -</u>	<u>\$ (33,136)</u>	<u>\$ 396,972</u>

NOTE G - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; unemployment benefits; and natural disasters. The School District manages its risk exposures and provides certain employee benefits through a combination of self-insurance and risk management pools.

The School District pays unemployment claims on a reimbursement basis through the Bureau of Workers' and Unemployment Compensation ("BWUC"). As BWUC pays eligible recipients benefits, this amount is billed to Onkama Consolidated Schools. At June 30, 2019, there were no significant unbilled claims.

The School District participates in SET-SEG's risk management pools for worker's compensation claims, liability insurance and errors and omissions coverages. SET-SEG was established pursuant to laws of the State of Michigan which authorize local units of government to jointly exercise any power, privilege or authority which each might exercise separately. The purpose of SET-SEG is to provide cooperative and comprehensive risk financing and risk control services. SET-SEG provides risk management, underwriting, reinsurance and claim review and processing services for all member governments pursuant to its charter.

NOTES TO FINANCIAL STATEMENTS - Continued

The School District makes annual contributions to SET-SEG based on actuarial studies using historical data and insurance industry statistics. These contributions are paid from the General Fund. Such contributions as received by SET-SEG are allocated between its General and Member Retention Funds. Economic resources in SET-SEG's General Fund are expended for reinsurance coverage, claim payments and certain general and administrative costs, whereas resources in the Member Retention Fund are used for loss payments and defense costs up to the member's self-insurance retention limits along with certain other member-specific costs. Any refunds from SET-SEG are deposited in the School District's General Fund.

NOTE H - BALANCES AND TRANSFERS/PAYMENTS WITHIN THE REPORTING ENTITY

Due To and Due From Other Funds

Outstanding balances between funds reported as "due to/from other funds" include outstanding charges by one fund to another for services or goods, subsidy commitments outstanding at year-end and other miscellaneous receivables/payables between funds.

	<u>Due From</u>	<u>Due To</u>
Major Governmental Funds		
General	\$ 3,584	\$ 11,623
Other Governmental Funds		
Food Service	10,661	3,584
Leaps and Bounds	<u>11,623</u>	<u>10,661</u>
	<u>\$ 25,868</u>	<u>\$ 25,868</u>

Transfers

Transfers within the reporting entity are substantially for the purposes of subsidizing operating functions and funding capital projects. Resources are accumulated in a fund to support and simplify the administration of various projects or programs.

The government-wide statement of activities eliminates transfers as reported within the segregated governmental columns.

NOTES TO FINANCIAL STATEMENTS - Continued

The following schedule reports transfers within the reporting entity:

<u>Transfer in</u>	<u>Amount</u>	<u>Transfer out</u>	<u>Amount</u>
Major Governmental Funds		Major Governmental Funds	
General Fund	\$ 45,000	General Fund	\$ 3,568
2016 Debt Retirement Fund	45,902		
Other Governmental Funds		Other Governmental Funds	
Food Service Fund	1,568	2016 Debt Retirement Fund	45,902
Leaps and Bounds Fund	2,000	2017 Debt Retirement Fund	619
2017 Debt Retirement Fund	<u>619</u>	Capital Projects Fund	<u>45,000</u>
	<u>\$ 95,089</u>		<u>\$ 95,089</u>

NOTE I - PENSION PLAN

Plan Description

The Michigan Public School Employees' Retirement System ("MPERS") is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan ("State") originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the Board's authority to promulgate or amend the provisions of the System. The Board consists of twelve members - eleven appointed by the Governor and the State Superintendent of Instruction, who serves as an ex-officio member.

The System's pension plan was established by the State to provide retirement, survivor and disability benefits to public school employees. In addition, the System's health plan provides all retirees with the option of receiving health, prescription drug, dental and vision coverage under the Michigan Public School Employees' Retirement Act (1980 PA 300 as amended).

The system is administered by the Office of Retirement Services ("ORS") within the Michigan Department of Technology, Management and Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State Treasurer serves as the investment officer and custodian for the System.

The System's financial statements are available at www.michigan.gov/orsschools.

Benefits Provided

Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit ("DB") pension plan. Depending on the plan option selected, member retirement benefits are determined by final average compensation, years of service, and a pension factor ranging from 1.25% to 1.50%. DB members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to DB plan members.

NOTES TO FINANCIAL STATEMENTS - Continued

A DB plan member who leaves Michigan public school employment may request a refund of his or her member contributions to the retirement system account, if applicable. A refund cancels a former member's rights to future benefits. However, returning members who previously received a refund of their contributions may reinstate their service through repayment of the refund upon satisfaction of certain requirements.

Regular Retirement

The retirement benefit for DB and Pension Plus plan members is based on a member's years of credited service (employment) and final average compensation ("FAC"). The FAC is calculated based on the member's highest total wages earned during a specific period of consecutive calendar months divided by the service credit accrued during that same time period.

There is no mandatory retirement age.

Funding Policy

Defined Contribution Plan

Employer contributions to the Plan are dependent on the plan elected by the participant.

Contributions

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. The unfunded (overfunded) actuarial accrued liability as of September 30, 2017 will be amortized over a 21 year period beginning October 1, 2017 and ending September 30, 2038.

The schedule below summarizes pension contribution rates in effect for the Plan's fiscal year September 30, 2018:

<u>Pension Contribution Rates</u>		
<u>Benefit Structure</u>	<u>Member</u>	<u>Employer</u>
Basic	0.0-4.0%	17.89%
Member Investment Plan	3.0-7.0%	17.89%
Pension Plus	3.0-6.4%	16.61%
Pension Plus 2	6.2%	19.74%
Defined Contribution	0.0%	13.54%

NOTES TO FINANCIAL STATEMENTS - Continued

Required contributions to the pension plan from the School District were \$577,471 for the year ended September 30, 2018.

The School District's contributions to the MPSERS Defined Contribution Plan were \$5,459, for the year ended June 30, 2019, which is equal to the pension expense recognized by the School District for the year.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the School District reported a liability of \$6,375,201 for its proportionate share of the MPSERS net pension liability. The net pension liability was measured as of September 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation rolled forward from September 30, 2017. The School District's proportion of the net pension liability was determined by dividing each employer's statutorily required pension contributions to the systems employers during the measurement period by the percent of pension contributions required from all applicable employees during the measurement period. At September 30, 2018, the School District's proportion was 0.02120698% percent, which was a decrease of 0.00027404% from its proportion measured as of September 30, 2017.

For the year ended June 30, 2019, the School District recognized pension expense of \$803,290. At June 30, 2019, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 29,582	\$ 46,327
Changes of assumptions	1,476,491	-
Net difference between projected and actual earnings on pension plan investments	-	435,902
Changes in proportion and differences between School District contributions and proportionate share of contributions	32,835	59,666
School District contributions subsequent to the measurement date	<u>233,763</u>	<u>-</u>
Total	<u>\$ 1,772,671</u>	<u>\$ 541,895</u>

From the above table, \$233,763 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

NOTES TO FINANCIAL STATEMENTS - Continued

Year Ended September 30,	Amount
2019	\$ 417,931
2020	300,107
2021	200,540
2022	<u>78,435</u>
Total	<u>\$ 997,013</u>

Actuarial Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Additional information as of the latest actual valuation follows:

Summary of Actuarial Assumptions

Valuation Date:	September 30, 2017
Actuarial Cost Method:	Entry Age, Normal
Wage Inflation Rate:	2.75%
Investment Rate of Return:	
MIP and Basic Plans:	7.05%
Pension Plus Plan:	7.0%
Pension Plus 2 Plan:	6.0%
Projected Salary Increases:	2.75-11.55%, including wage inflation at 2.75%
Cost-of-Living Pension Adjustments:	3% Annual Non-Compounded for MIP Members
Mortality:	
Retirees:	RP-2014 Male and Female Healthy Annuitant Mortality Tables, scaled by 82% for males and 78% for females and adjusted for mortality improvements using projection scale MP-2017 from 2006.
Active Members:	RP-2014 Male and Female Healthy Annuitant Mortality Tables, scaled 100% and adjusted for mortality improvements using projection scale MP-2017 from 2006.

NOTES TO FINANCIAL STATEMENTS - Continued

Notes:

- Assumption changes as a result of an experience study for the period 2012 through 2017 have been adopted by the System for use in the annual pension valuations beginning with the September 30, 2017 valuation. The total pension liability as of September 30, 2018, is based on the results of an actuarial valuation date of September 30, 2017, and rolled forward using generally accepted actuarial procedures, including the experience study.
- Recognition period for liabilities is the average of the expected remaining service lives of all employees in years: 4.5304 for non-university employers
- Recognition period for assets in years: 5.0000
- Full actuarial assumptions are available in the 2018 MPSERS Comprehensive Annual Financial Report found on the ORS website at www.michigan.gov/orsschools.

Long-Term Expected Rate of Return on Investments

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2018, are summarized in the following table:

Investment Category	Target Allocation	Long-Term Expected Real Rate of Return*
Domestic Equity Pools	28.0 %	5.7 %
Private Equity Pools	18.0	9.2
International Equity Pools	16.0	7.2
Fixed Income Pools	10.5	0.5
Real Estate and Infrastructure Pools	10.0	3.9
Absolute Return Pools	15.5	5.2
Short-Term Investment Pools	2.0	0.0
	100.0 %	

**Long-term rate of return does not include 2.3% inflation.*

Rate of Return

For the fiscal year ended September 30, 2018, the annual money-weighted rate of return on pension plan investment, net of pension plan investment expense, was 11.11%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

A discount rate of 7.05% was used to measure the total pension liability (7.0% for the Pension Plus plan, 6.0% for the Pension Plus 2 plan provided through non-university employers only). This discount rate was based on the long term expected rate of return on pension plan investments of 7.05% (7.0% for the Pension Plus plan, 6.0% for the Pension Plus 2 plan). The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.05% (7.0% for the Pension Plus plan, 6.0% for the Pension Plus 2 plan), as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher:

1% Decrease <u>(6.05% / 6.0% / 5.0%)</u>	Current Single Discount Rate Assumption <u>(7.05% / 7.0% / 6.0%)</u>	1% Increase <u>(8.05% / 8.0% / 7.0%)</u>
\$ 8,370,147	\$ 6,375,201	\$ 4,717,726

Michigan Public School Employees' Retirement System ("MPERS") Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued 2017 MPERS Comprehensive Annual Financial Report ("CAFR"), available on the ORS website at www.michigan.gov/orsschools.

Payables to the Michigan Public School Employees' Retirement System ("MPERS")

The School District reported \$81,377 and \$257 payable to the plan at June 30, 2019 for legally required defined benefit and defined contribution plan contributions, respectively.

NOTE J - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

Plan Description

The Michigan Public School Employees' Retirement System (System or MPSERS) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the board's authority to promulgate or amend the provisions of the System. The board consists of twelve members - eleven appointed by the Governor and the State Superintendent of Instruction, who serves as an ex-officio member.

The System's health plan provides all eligible retirees with the option of receiving health, prescription drug, dental and vision coverage under the Michigan Public School Employees' Retirement Act (1980 PA 300 as amended).

The System is administered by the Office of Retirement Services (ORS) within the Michigan Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State Treasurer serves as the investment officer and custodian for the System.

The System's financial statements are available on the ORS website at www.michigan.gov/orsschools.

Benefits Provided

Benefit provisions of the post-employment healthcare plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions. Retirees have the option of health coverage, which, through 2012, was funded on a cash disbursement basis. Beginning fiscal year 2013, it is funded on a prefunded basis. The System has contracted to provide the comprehensive group medical, prescription drug, dental and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by the System with the balance deducted from the monthly pension of each retiree healthcare recipient. For members who first worked before July 1, 2008, (Basic, MIP-Fixed, and MIP Graded plan members) the subsidy is the maximum allowed by statute. To limit future liabilities of Other Post-Employment Benefits, members who first worked on or after July 1, 2008 (MIP-Plus plan members) have a graded premium subsidy based on career length where they accrue credit towards their insurance premiums in retirement, not to exceed the maximum allowable by statute. Public Act 300 of 2012 sets the maximum subsidy at 80% beginning January 1, 2013; 90% for those Medicare eligible and enrolled in the insurances as of that date. Dependents are eligible for healthcare coverage if they meet the dependency requirements set forth in Public Act 300 of 1980, as amended.

Public Act 300 of 2012 granted all active members of the Michigan Public School Employees Retirement System, who earned service credit in the 12 months ending September 3, 2012 or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their retirement healthcare. Any changes to a member's healthcare benefit are effective as of the member's transition date, which is defined as the first day of the pay period that begins on or after February 1, 2013.

NOTES TO FINANCIAL STATEMENTS - Continued

Under Public Act 300 of 2012, members were given the choice between continuing the 3% contribution to retiree healthcare and keeping the premium subsidy benefit described above, or choosing not to pay the 3% contribution and instead opting out of the subsidy benefit and becoming a participant in the Personal Healthcare Fund (PHF), a portable, tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2% employee contribution into their 457 account as of their transition date, earning them a 2% employer match into a 401(k) account. Members who selected this option stop paying the 3% contribution to retiree healthcare as of the day before their transition date, and their prior contributions were deposited into their 401(k) account.

Contributions

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer OPEB contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. The unfunded (overfunded) actuarial accrued liability as of the September 30, 2017 valuation will be amortized over a 21-year period beginning October 1, 2017 and ending September 30, 2038.

The schedule below summarizes OPEB contribution rates in effect for fiscal year 2018.

<u>OPEB Contribution Rates</u>		
<u>Benefit Structure</u>	<u>Member</u>	<u>Employer</u>
Premium Subsidy	3.00%	6.44%
Personal Healthcare Fund (PHF)	0.00%	6.13%

Required contributions to the OPEB plan from the School District were \$136,096 for the year ended September 30, 2018.

OPEB Liabilities, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the School District reported a liability of \$1,666,656 for its proportionate share of the MPSERS net OPEB liability. The net OPEB liability was measured as of September 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation rolled forward from September 30, 2017. The School District's proportion of the net OPEB liability was determined by dividing each employer's statutorily required OPEB contributions to the systems during the measurement period by the percent of OPEB contributions required from all applicable employers during the measurement period. At September 30, 2018, the School District's proportion was 0.02096699%, which was a decrease of 0.00049543% from its proportion measured as of October 1, 2017.

NOTES TO FINANCIAL STATEMENTS - Continued

For the year ended June 30, 2019, the School District recognized OPEB expense of \$73,366. At June 30, 2019, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ 310,207
Changes of assumptions	176,500	-
Net difference between projected and actual earnings on OPEB plan investments	-	64,054
Changes in proportion and differences between School District contributions and proportionate share of contributions	392	37,259
School District contributions subsequent to the measurement date	<u>104,785</u>	<u>-</u>
Total	<u>\$ 281,677</u>	<u>\$ 411,520</u>

From the above table, contributions subsequent to the measurement date reported as deferred outflows of resources related to OPEB of \$104,785 will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ended September 30,</u>	<u>Amount</u>
2019	\$ (56,829)
2020	(56,829)
2021	(56,829)
2022	(43,805)
2023	<u>(20,336)</u>
Total	<u>\$ (234,628)</u>

Actuarial Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

NOTES TO FINANCIAL STATEMENTS - Continued

Additional information as of the latest actuarial valuation follows:

Summary of Actuarial Assumptions

Valuation Date:	September 30, 2017
Actuarial Cost Method:	Entry Age, Normal
Wage Inflation Rate:	2.75%
Investment Rate of Return:	7.15%
Projected Salary Increases:	2.75-11.55%, including wage inflation at 2.75%
Healthcare Cost Trend Rate:	7.5% Year 1 graded to 3.0% Year 12
Mortality:	Retirees: RP-2014 Male and Female Healthy Annuitant Mortality Tables, scaled by 82% for males and 78% for females and adjusted for mortality improvements using projection scale MP-2017 from 2006.
	Active Members: RP-2014 Male and Female Healthy Annuitant Mortality Tables, scaled 100% and adjusted for mortality improvements using projection scale MP-2017 from 2006.

Other Assumptions

Opt Out Assumptions:	21% of eligible participants hired before July 1, 2008 and 30% of those hired after June 30, 2008 are assumed to opt out of the retiree health plan.
Survivor Coverage:	80% of male retirees and 67% of female retirees are assumed to have coverages continuing after the retiree's death.
Coverage Election at Retirement:	75% of male and 60% of female future retirees are assumed to elect coverage for 1 or more dependents.

Notes:

- Assumption changes as a result of an experience study for the period 2012 through 2017 have been adopted by the System for use in the annual OPEB valuations beginning with the September 30, 2017 valuation. The total OPEB liability as of September 30, 2018, is based on the results of an actuarial valuation date of September 30, 2017, and rolled forward using generally accepted actuarial procedures, including the experience study.
- Recognition period for liabilities is the average of the expected remaining service lives of all employees in years: 5.6018 for non-university employers.
- Recognition period for assets in years: 5.0000.
- Full actuarial assumptions are available in the 2018 MPSERS Comprehensive Annual Financial Report found on the ORS website at www.michigan.gov/orsschools.

Long-Term Expected Rate of Return on Investments

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan's target asset allocation as of September 30, 2018, are summarized in the following table:

Investment Category	Target Allocation	Long-Term Expected Real Rate of Return*
Domestic Equity Pools	28.0 %	5.7 %
Private Equity Pools	18.0	9.2
International Equity Pools	16.0	7.2
Fixed Income Pools	10.5	0.5
Real Estate and Infrastructure Pools	10.0	3.9
Absolute Return Pools	15.5	5.0
Short-Term Investment Pools	2.0	0.0
	100.0 %	

**Long-term rate of return does not include 2.3% inflation.*

Rate of Return

For the fiscal year ended September 30, 2018, the annual money-weighted rate of return on OPEB plan investment, net of OPEB plan investment expense, was 10.75%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

A discount rate of 7.15% was used to measure the total OPEB liability. This discount rate was based on the long-term expected rate of return on OPEB plan investments of 7.15%. The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the School District's proportionate share of the net OPEB liability calculated using the discount rate of 7.15%, as well as what the School District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher:

<u>1% Decrease (6.15%)</u>	<u>Current Discount Rate (7.15%)</u>	<u>1% Increase (8.15%)</u>
\$ 2,000,787	\$ 1,666,656	\$ 1,385,611

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Healthcare Cost Trend Rate

The following presents School District's proportionate share of the net OPEB liability calculated using assumed trend rates, as well as what School District's proportionate share of net OPEB liability would be if it were calculated using a trend rate that is 1-percentage-point lower or 1-percentage-point higher:

<u>1% Decrease</u>	<u>Current Healthcare Cost Trend Rate</u>	<u>1% Increase</u>
\$ 1,370,806	\$ 1,666,656	\$ 2,006,056

OPEB Plan Fiduciary Net Position

Detailed information about the OPEB plan's fiduciary net position is available in the separately issued 2018 MPSERS CAFR, available on the ORS website at www.michigan.gov/orsschools.

Payables to the OPEB Plan

The School District reported \$4,995 payable to the Plan at June 30, 2019 for the OPEB liability.

NOTE K - COMMITMENTS AND CONTINGENCIES

School Improvement Commitment

As of June 30, 2019, the School District has committed to a total project cost of approximately \$1,700,000. Of this amount, the School District issued bonds in the amount of \$1,550,000 during the year ended June 30, 2017, plus an underwriter's discount of \$7,750. The remaining balance of \$142,250 will be received in the form of amortized bond premium and interest income. As of June 30, 2019, \$1,645,278 has been expended to date, leaving a remaining capital acquisition commitment of approximately \$97,500. The 2017 Capital Projects Fund balance was approximately \$97,500 at June 30, 2019. The project was substantially complete at June 30, 2019.

NOTES TO FINANCIAL STATEMENTS - Continued

Federal and State Grants

In the normal course of operations, the School District receives grant funds from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authorities, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

Collectively Bargained Employment Agreements

The teachers of the School District are organized under the Onekama Education Association. The Board of Education and the Onekama Education Association have a contract through August 31, 2019.

NOTE L - SUBSEQUENT EVENTS

Subsequent events were evaluated through October 8, 2019, the date the financial statements were available to be issued. Management provided the following assessment:

On July 6, 2019, the School District entered into a 4-year lease agreement for computer equipment for approximately \$370,000.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Education
Onkama Consolidated Schools

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of ***Onkama Consolidated Schools*** (the "School District") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated October 8, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a deficiency in internal control over financial reporting, as described below, that we consider to be a material weakness:

Criteria: All Michigan governments are required to prepare financial statements in accordance with generally accepted accounting principles ("GAAP"). This is a responsibility of the School District's management. The preparation of financial statements in accordance with GAAP requires internal controls over both (1) recording, processing and summarizing accounting data (i.e., maintaining internal books and records) and (2) reporting government-wide and fund financial statements, including the related footnotes (i.e., external financial reporting.)

Condition: As is the case with many smaller and medium-sized entities, the School District has historically relied on its independent external auditors to assist in the preparation of the basic financial statements as part of its external financial reporting process. Accordingly, the School District's ability to prepare financial statements in accordance with GAAP is based, in part, on its reliance on its external auditors, who cannot by definition be considered a part of the School District's internal controls.

Cause: This condition was caused by the School District's decision that it is more cost effective to outsource the preparation of its annual financial statements to auditors than to incur the time and expense of obtaining the necessary resources required for the School District to perform this task internally.

Effect: As a result of this condition, the School District lacks internal controls over the preparation of financial statements in accordance with GAAP and instead relies, in part, on its external auditors for assistance with this task.

Management's Response: The School District has evaluated the cost vs. benefit of establishing internal controls over the preparation of financial statements in accordance with GAAP, and determined that it is in the best interest of the School District to outsource this task to its external auditors and to carefully review the draft financial statements and notes prior to approving them and accepting responsibility for their content and presentation.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

School District's Response to Findings

The School District's response to the findings identified in our audit is describe above. The School District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Dennis, Gartland & Niergarth
