APRIL 2015 IS SOCIAL HOST AWARENESS MONTH

WHEREAS, adults who provide alcohol to those below the legal drinking age of 21 are placing those youth at risk for health, safety and legal problems, and

WHEREAS, Alcohol is the drug of choice among America's adolescents and is used by more young people than tobacco or illicit drugs. More than one fifth of youth begin drinking before age 13 and

WHEREAS, underage drinking contributed to a wide range of costly health and social problems, including motor vehicle crashes (the greatest single mortality risk for underage drinkers); suicide; interpersonal violence (e.g. homicides, assaults, rapes); unintentional injuries such as burns, falls, and drowning; brain impairment; alcohol dependence; risky sexual activity; academic problems; and alcohol and drug poisoning; and

WHEREAS, Research shows that young people's brains keep developing well into their 20s. Alcohol can alter this development, potentially affecting both brain structure and function. This may cause cognitive or learning problems and/or make the brain more prone to alcohol dependence. This is especially a risk when people start drinking young and drink heavily; and

Of these reporting students, who drank recently, 58.9% reported that they usually drank alcohol at another person's home during the past 30 days.

WHEREAS, one-hundred percent of any alcohol consumed by a minor came from an adult. At one time, an adult over the age of 21 was in control of the alcohol and a minor gained access to it, and

WHEREAS, it is illegal for adults to knowingly allow their child's friends to drink alcohol in their home, even with the permission of the friends' parents, and adults have the authority and should have the responsibility to take steps to reduce the likelihood that their homes will become venues for underage drinking, and
