

# **SUMMARY RUBRICS**For PRINCIPAL Evaluation

by Domain, Factor, and Characteristic

The Summary Rubrics provide administrators and their evaluators with a condensed version of the Full Rubrics for either the principal or central office/superintendent evaluation (see School ADvance Administrator Evaluation User Manual). This set of Summary Rubrics is organized around the four practice domains (Domains 2-5) and eight practice factors for the principal evaluation framework and provides statements that capture the major elements of each characteristic in collapsed form. The Summary Rubrics match directly to the School ADvance performance evaluation framework and full rubrics for either the principal or central office/superintendent position. The summary statements can be used as the basis for the summative performance assessment and the expanded (full) rubrics can be used for formative assessment work (e.g. self-assessment, conferencing and dialogue, observations, evidence portfolios, etc.) and to provide clarity for developing performance improvement or personal growth plans.

Each item in the Summary Rubrics collapses several characteristics listed within the Full Rubrics for each of the performance factors. Because the descriptors are collapsed, users should refer back to the Full Rubrics when there is a question about what a Summary Rubric item means or what might be observable or documentable evidence for that item.

#### NOTE: There is no Summary Rubric needed or provided for Domain 1-Results
