MEMORANDUM

To: Matt Lobban, Superintendent of Davison Community Schools

From: Joshua Evans, Director of Business Services

Date: June 17, 2024

Regarding: 2023/2024 Fiscal Year Final Budget Amendments

The final budget amendments for the 2023/2024 fiscal year, presented below, comply with the requirements set forth in the State of Michigan's Uniform Budgeting and Accounting Act (PA 2 of 1968 as amended). This submission also adheres to the guidelines outlined in Act 43 and Article 10, ensuring public involvement in the budget approval process.

These budgets embody a balanced approach, aligning with legislative mandates and board policies, while maintaining a forward-looking perspective. They encompass the district funds, General Operating, DCER, Food Service, Student Activity, Debt Service, Sinking, 2020 Building & Site Series I, and 2022 Building & Site Series II. The information is organized according to specific categories outlined by the Michigan Department of Education and the Governmental Accounting Standards Board.

The final budget amendments represent the culmination of a comprehensive year-long planning process, reviewing actual expenses against projected revenues. Throughout the year, adjustments to revenues and expenditures, following the initial budget approvals, were presented to the Board of Education for approval during the district's quarterly budget review and revision sessions held in December '23 and April '24. These revisions ensure alignment with financial targets and operational needs, reflecting ongoing fiscal responsibility and adaptability in managing the district's financial affairs.

Your review and consideration of the proposed 2023/2024 budgets are greatly appreciated.

Thank you.

2023/2024 General Operating Fund Final Budget Amendment

BE IT RESOLVED that this resolution shall serve as the final General Operating Fund Appropriation Act of Davison Community Schools for the 2023/2024 fiscal year. A resolution to make appropriations, authorize the expenditure of these appropriations, and to provide for the disposition of all revenue received by Davison Community Schools.

BE IT FURTHER RESOLVED that a levy of 5.7606 mills were imposed on all commercial personal properties and a levy of 17.7606 mills were imposed on all non-homestead properties within the Davison Community Schools district, for General Operating Fund operations during the 2023/2024 fiscal year.

BE IT FURTHER RESOLVED that the total revenues and unappropriated fund balance estimated to be available for appropriation in the General Operating Fund of Davison Community Schools for fiscal year 2023/2024 are as follows:

REVENUES

| 1xx Local Sources | \$ 5,988,550 |
|--|--------------|
| 2xx Non-Educational Sources | 13,400 |
| 3xx State Sources | 67,018,708 |
| 4xx Federal Sources | 4,871,824 |
| 5xx-6xx Operating Transfers In & Other Sources | 1,691,304 |

| Total Revenue | \$ 79,583,787 |
|--------------------------------------|---------------|
| Available Fund Balance, July 1, 2023 | 16,955,984 |

Total Available to Appropriate for General Operating Fund Expenditures \$ 96,539,771

BE IT FURTHER RESOLVED that \$0 of the total available appropriations in the General Operating Fund is hereby allocated for the amounts and purposes set forth below:

EXPENDITURES

| 1xx Instruction | |
|--|---------------|
| 11x Basic Programs | \$ 34,774,119 |
| 12x Added Needs | 9,967,953 |

2023/2024 2022 Building & Site, Series II Fund Final Budget Amendment

BE IT RESOLVED that this resolution shall serve as the final 2022 Building & Site, Series II Fund Appropriation Act of Davison Community Schools for the 2023/2024 fiscal year. A resolution to make appropriations, authorize the expenditure of these appropriations, and to provide for the disposition of all revenue received by Davison Community Schools.

BE IT FURTHER RESOLVED that the total revenues and unappropriated fund balance estimated to be available for appropriation in the 2022 Building & Site, Series II Fund of Davison Community Schools for the 2023/2024 fiscal year are as follows:

REVENUES

1xx Local Sources \$880,000 5xx-6xx Operating Transfers In & Other Sources -

Total Revenue \$880,000 Available Fund Balance, July 1, 2023 18,188,564

Total Available to Appropriate for 2022 Building & Site, Series II Fund Expenditures \$19,068,564

BE IT FURTHER RESOLVED that \$ 5,702,091 of the total available appropriations in the 2022 Building & Site, Series II Fund is hereby allocated for the amounts and purposes set forth below:

EXPENDITURES

4xx Facility Acquisition & Improvements \$ 5,702,091 5xx Other Financing Uses -

Total Appropriated for 2022 Building & Site, Series II Fund Expenditures \$ 5,702,091

BE IT FURTHER RESOLVED, that the fund equity for 2022 Building & Site, Series II Fund shall be deemed Restricted Fund Equity for financial reporting purposes.

Supplemental Information

Understanding Davison Community Schools Accounting Funds

In Michigan, public schools manage their finances through various accounting funds, each serving a distinct purpose. Understanding these funds is essential for citizens to comprehend how their tax dollars are allocated within the education system. The descriptions below explain the different State of Michigan school accounting funds utilized by Davison Community Schools in straightforward terms.

General Operating Fund is the primary operating fund for Davison Community Schools. It covers essential day-to-day expenses such as salaries, utilities, and instructional materials. Essentially, it keeps the school running smoothly by providing funding for core educational activities.

DCER Fund supports a variety of programs and services designed to enhance the quality of life for residents of Davison. DCER provides a range of activities for different age groups, including youth sports, adult fitness classes, summer camps, preschool programs, and more. The aim is to foster community engagement and promote lifelong learning and healthy lifestyles through accessible and diverse recreational opportunities.

Food Service Fund is dedicated to supporting school meal programs. It ensures that students have access to nutritious meals during the school day. This fund covers the costs of purchasing food, kitchen equipment, and staff salaries related to meal preparation and service.

Student Activity Fund is used to finance extracurricular activities and student organizations. This includes sports teams, clubs, field trips, and other enrichment programs. It fosters student engagement, leadership skills, and social development outside of the classroom.

Debt Service Fund is responsible for repaying debts incurred by the school district. This includes bond payments and interest on loans used to finance capital projects such as building construction, renovations, or technology upgrades. It ensures responsible management of long-term financial obligations.

Sinking Fund is designated for specific capital improvements and maintenance projects. It allows schools to address infrastructure needs such as building repairs, facility upgrades, and equipment purchases without relying on debt financing. It helps preserve and improve the investments made to school facilities for future generations.

2020 Building & Site, Series I, and 2022 Building & Site, Series II Funds finance large-scale capital projects supported by the community through bond elections. When voters approve a bond measure, the school district can issue bonds to raise funds for significant infrastructure projects like constructing new buildings, renovating facilities, and upgrading technology systems. Bond funds allow schools to undertake major projects that would otherwise be unaffordable within their regular budgets. By approving bond measures, voters directly enhance local educational facilities and resources.

In conclusion, understanding the various state of Michigan school accounting funds provides insight into how public education finances are managed and allocated. Each fund serves a specific purpose aimed at supporting student learning, community engagement, and fiscal responsibility. By familiarizing themselves with these funds, citizens can actively participate in discussions about education funding and advocate for the resources needed to ensure quality education for all students.

Definitions of Function Codes

In the State of Michigan, school accounting utilizes specific revenue and expense function codes to categorize and track financial activities within each of the aforementioned funds.

Revenue function codes classify the origin of funds received by the school district. These codes include categories such as local sources (1xx), state sources (3xx), and federal sources (4xx). For example, local sources might include property taxes and local grants, while state sources encompass state aid and grants, and federal sources include federal aid and programs.

Expense function codes, on the other hand, classify the purpose for which funds are spent. These codes help in organizing expenditures into distinct functions like instruction (1xx) and supporting services (2xx). For example, instruction codes cover expenses directly related to classroom teaching and learning activities, while supporting services include administrative costs, maintenance, transportation, and other operational services.

These revenue and expense function codes are crucial for maintaining detailed and transparent financial records, ensuring that funds are appropriately allocated and spent according to regulatory standards. By understanding these codes, citizens can further comprehend how their tax dollars are used to support and enhance the educational system.

REVENUES

1xx Local Sources: This represents revenue generated within the local community. It includes property taxes, local grants, donations, and fees for services such as facility rentals.

2xx Non-Educational Sources: This category covers revenue from sources not directly related to educational activities. It may include interest earnings, revenues from leasing property, or income from business activities operated by the school district.

3xx State Sources: State sources encompass funds provided by the State of Michigan, including state aid, state grants, and reimbursements. These funds are allocated based on state funding formulas and are essential for supplementing local revenues.

4xx Federal Sources: Federal sources include funding from the federal government, such as federal grants, aid programs, and specific project funding. Examples include Title I funds for disadvantaged students and IDEA funds for special education.

5xx-6xx Operating Transfers In & Other Sources: This category includes transfers in from other funds within the district and other miscellaneous sources of revenue. Operating transfers can be used to balance budgets between funds, while other sources might include sale of assets or one-time financial infusions.

EXPENDITURES

1xx Instruction: This category includes expenses directly related to teaching students. It covers costs for classroom activities, teacher salaries, instructional materials, and educational equipment.

11x Basic Programs: These expenses support the standard educational programs provided to all students, such as general education classes in subjects like math, science, language arts, and social studies.

12x Added Needs: This code covers programs for students who require additional support, such as special education, gifted and talented programs, and English as a Second Language (ESL) services.

2xx Support Services: These expenditures encompass various services that support the instructional process.

21x Pupil: This category includes services directly benefiting students, such as counseling, social work, health services, and attendance tracking.

22x Instructional Staff: These expenses are for supporting teachers and instructional staff, including professional development, curriculum development, and instructional supervision.

23x General Administration: This code covers district-wide administrative functions, including the school board, superintendent's office, and legal services.

24x School Administration: These expenses are for the administration of individual schools, including principals, assistant principals, and school office staff.

25x Business: This category includes financial and business services like accounting, payroll, and purchasing.

26x Operations and Maintenance: These expenditures cover the upkeep of school facilities, including cleaning, repairs, utilities, and security.

27x Transportation: This code covers the costs of transporting students to and from school, including bus maintenance, fuel, and driver salaries.

28x Central Services: These are district-wide services such as information technology and human resources.

29x Other: This category includes other support services that do not fit into the above categories, providing flexibility for miscellaneous support expenses.

3xx Community Services: These expenses cover activities and programs provided by the school district that benefit the community, such as recreational programs, adult education, and childcare services.

4xx Facility Acquisition & Improvements: This code includes costs related to acquiring new facilities and improving existing ones, such as construction, renovation, and major repairs.

5xx-6xx Operating Transfers Out & Other Uses: This category involves transfers out to other funds within the district and other miscellaneous uses of funds, such as debt service payments and contingencies.

Definitions of Object Codes

In Michigan school accounting, expense object codes correspond to specific types of expenses incurred by the school district. The expense object codes are organized into different series, each representing distinct categories of expenditures. Each series contains subcategories that further detail the nature and purpose of expenditures, ensuring comprehensive financial reporting and facilitating comparisons across different fiscal periods.

1xxx Salaries and Wages: Covers all aspects of employee compensation within the school district. This includes regular salaries for administrative, instructional, and support staff, as well as overtime payments and supplemental pay for additional duties.

2xxx Employee Benefits: Expenditures related to employee welfare which includes health, dental, and vision insurance premiums, contributions to retirement plans, and payments for unemployment and workers' compensation insurance.

3xxx Purchased Services: Series encompasses payments made to external entities for services rendered to the school district. This could range from professional services like legal counsel and consulting, to property services such as rentals and maintenance, utility services like electricity and water, and transportation services including busing and staff travel.

4xxx Repairs and Maintenance Services: All costs associated with maintaining school facilities and equipment are categorized here. This includes routine repairs to keep facilities operational, preventive maintenance to extend the lifespan of equipment, and emergency services to address unforeseen issues promptly.

5xxx Supplies and Materials: Series covers expenditures for consumable items essential for school operations. This includes general supplies needed in offices and classrooms, textbooks and instructional materials, as well as maintenance supplies to upkeep facilities.

6xxx Capital Outlay: Expenditures focused on acquiring, improving, or maintaining long-term assets necessary for educational purposes. This encompasses investments in land, buildings, equipment, and technology infrastructure.

7xxx Other Expenditures and Financing Uses: Series addresses various financial transactions that do not fit into the previous categories. This includes payments for long-term debt obligations such as principal repayments and interest payments on bonds and loans. Additionally, miscellaneous expenses like dues, fees, taxes, and claims are recorded here, ensuring comprehensive financial oversight and compliance with regulatory requirements.

8xxx Transfers and Other Transactions: This series manages outgoing transfers and other financial transactions within the school district. This involves transfers to other funds within the district, payments to external governmental units or organizations for shared services or interdistrict agreements, and other financial transactions that facilitate efficient resource management and collaboration.

9xxx Indirect Cost Recovery and Program Changes: Dedicated to managing revenues generated from indirect cost recoveries and tracking expenditures related to program changes within educational institutions. These object codes are crucial for offsetting administrative and operational expenses through funds recovered from external entities. They also facilitate monitoring and adjusting budgets to accommodate programmatic changes and reallocations of funds within different educational initiatives.

Understanding School Fund Balances

A school's Fund Balance is the accumulation of surplus funds over time.

When a school district's revenues exceed its expenditures, the surplus is added to the Fund Balance. This can happen annually if the district consistently operates within its budget and generates surplus revenue.

Conversely, if a district's expenditures exceed its revenues in a given year, or if it dips into its Fund Balance to cover expenses, the Fund Balance would be reduced. This subtraction can occur due to unexpected costs, declines in revenue, or deliberate decisions to allocate funds for specific purposes, such as facility upgrades or technology investments.

A school's Fund Balance serves as a critical market indicator, providing a glimpse into the district's overall financial health. Although it doesn't necessarily represent cash reserves immediately available, the Fund Balance remains a strong correlation metric. Generally speaking, a higher Fund Balance, and Fund Balance Percentage, suggests a healthier district and a greater ability to weather unforeseen financial challenges without disrupting its educational programs or services.

A school's Fund Balance Percentage refers to the ratio of its Fund Balance divided by its total annual expenditures. Ultimately, the ideal fund balance percentage can vary depending on factors such as the district's financial goals, debt obligations, revenue sources, and potential risks or risk tolerance. Various authoritative entities and financial experts recommend different ranges for what constitutes a healthy or adequate school fund balance percentage but on average, 15% is considered a standard benchmark for a healthy Fund Balance Percent.

FUND BALANCE TYPES

71x Non-Spendable Fund Balance: This class of fund balance represents those assets that are not available in a spendable formation. Some examples would include inventories and prepaid expenditures.

72x Restricted Fund Balance: This class of fund balance represents amounts constrained to being used for a specific purpose by external parties, constitutional provisions, and enabling legislation. Examples include Bonded Capital Projects, Debt Service Funds, and School Food Service Revenues.

73x Committed Fund Balance: This class of fund balance represents amounts constrained on use imposed by the district itself using its highest level of decision-making authority (local school board resolution).

74x Assigned Fund Balance: This class of fund balance represents amounts intended to be used for specific purposes. The intent is expressed by the governing body, the finance committee, or the official authorized by the governing body. An appropriation of the existing fund balance to cover current year expenditures is considered an assignment of fund balance.

75x Unassigned Fund Balance: This class of fund balance represents the remaining fund balance after non-spendable, restrictions, commitments, and assignments.
