Verona Mills School will utilize the 98c Learning Loss funding to support before and after-school tutoring programs aimed at addressing the significant learning loss experienced by students due to the impact of the Covid-19 pandemic. The disruptions caused by the pandemic have created unprecedented challenges in our educational system, leaving many students struggling to catch up with missed instruction and falling behind their peers. With this grant, we intend to provide high-quality tutoring services that will help bridge the learning gaps, provide individualized support, and empower students to regain their academic confidence. By utilizing these funds, we are committed to making a lasting impact on the educational trajectory of these students and fostering a brighter future for all.
