Learning Loss Plan - 98c funds

Monitor Student Academic Progress to Identify Students Who Need More Help

- 6th - 8th grade mathematics intervention to address learning loss and work towards math proficiency for all students by 8th grade. This will include during the school day small group and one on one instruction for students that require additional support in order to reach mathematics proficiency.

Implementing Evidence Based Activities

- ESpark - Y5 - 5th grade subscriptions to provide individualized mathematics and reading intervention and plans for students including instruction and assessment. Standards-aligned, adaptive reading and math pathways engage students to help them learn at their own level and pace. This allows teachers to quickly assess student skills and assign individualized lessons and activities to meet the needs of all students in their classes. In addition, this program provides feedback to parents in order to increase parent involvement in student learning.
- IXL - 2nd - 5th grade subscriptions to provide individualized mathematics, reading, science, and social studies intervention and plans for students including instruction and assessment. Standards-aligned, adaptive reading and math pathways engage students to help them learn at their own level and pace. This allows teachers to quickly assess student skills and assign individualized lessons and activities to meet the needs of all students in their classes. In addition, this program provides feedback to parents in order to increase parent involvement in student learning.

Additional Student Support

- Summer School Intervention K-8 grade support students - In order to fully support students with additional academic needs beyond those that are covered during the regular summer school programming interventionists will be provided for small group and one on one instruction to aide students in reaching grade level.

Budget

Monitor Student Academic Progress to Identify Students Who Need More Help	
6th - 8th grade mathematics intervention to address learning loss and work towards math proficiency for all students by 8th grade.	\$40,916
Implementing Evidence-Based Activities
