

To all Van Buren Public Schools employees enrolled in the group medical plan.

Van Buren Public Schools has partnered with ElectRx in conjunction with your pharmacy benefit manager EHIM, to provide a solution to the high cost of many medications. If you are taking a high cost drug you may be eligible to receive this covered medication at zero cost on a traditional plan, and at a greatly reduced price if you are on a high deductible health plan. Once your deductible is met on a high deductible health plan the cost to you would be zero.

If you are taking any of the medications on the list below or any other high qualifying drug and you enroll in the ElectRx program to receive your medication, you may be eligible to receive a financial reward.

Call ElectRx's confidential customer concierge service at (844) 779-2678 to order your medication or to see if your medication is available under this cost savings program. ElectRx is an independent third party and your information is completely confidential. We look forward to
