To Whom It May Concern:

This letter was written to verify that Dove Academy is currently utilizing Sonicwall Firewall and Internet Content Filtering Device at the school location. The device offers Internet Content Filtering, User Policy Enforcement and Bandwidth management. Sonicwall firewall combines appliance-based policy enforcement with comprehensive content filtering in a cost-effective, manageable solution. By restricting traffic to suspect and counterproductive sites, the school has freed up bandwidth for legitimate web applications and made it a safer learning environment while maintaining CIPA compliance.

Please contact me if you have any additional questions.
