INDEPENDENT AUDITORS' REPORT

October 13, 2021

Board of Education
Escanaba Area Public Schools
Escanaba, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of ***Escanaba Area Public Schools*** (the "District"), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the District as of June 30, 2021, and the respective changes in financial position thereof, and the budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedules for the pension and other postemployment benefits plans, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules, the schedule of taxable valuations, tax rates and tax levies, and the schedule of changes in fiduciary net position - co-mingled scholarships fund are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The schedule of taxable valuations, tax rates and tax levies and the schedule of changes in fiduciary net Position - co-mingled scholarships fund have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide an assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 13, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

ESCANABA AREA PUBLIC SCHOOLS

Management's Discussion and Analysis

Escanaba Area Public School's (the "District") management's discussion and analysis is intended to assist the reader in focusing on significant issues, provide an overview of the District's financial activity, identify changes in the District's financial position, and its ability to address the next and subsequent years' challenges. It also identifies any material deviations from the financial plan and identifies individual fund issues or concerns. This is a requirement of the Governmental Accounting Standards Board Statement No. 34 (GASB 34) *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments* and is intended to provide the financial results for the fiscal year ended June 30, 2021. Please read it in conjunction with the District's financial statements, which immediately follow this section.

Using this Annual Report

This annual report consists of a series of financial statements and notes to those financial statements. These statements are organized so the reader can understand the District's financial position as a whole. The District-wide financial statements provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short term as well as what remains for future spending. The fund financial statements look at the District's operation in more detail than the District-wide financial statements by providing information about the District's most significant fund - the general fund and other less significant funds. Fiduciary fund statements, the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position, presents financial information about activities for which the District acts solely as a fiduciary for the benefit of students and parents. The annual report is arranged as follows:

Single Audit Compliance

As mentioned, GASB 34 requires the presentation of two basic types of financial statements: District-wide Financial Statements and Fund Financial Statements.

District-wide financial statements. The District-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position and the statement of activities, which appear first in the District's financial statements, include all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position, and uses the accrual basis of accounting. This means that all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

ESCANABA AREA PUBLIC SCHOOLS

Management's Discussion and Analysis

The statement of net position combines and consolidates governmental funds current financial resources (short-term available resources) with capital and long-term obligations, regardless of whether they are currently available or not.

Consistent with the full accrual basis method of accounting, the statement of activities accounts for current year revenues and expenses regardless of when cash is received or paid. The intent of this statement is to summarize and simplify the user's analysis of the costs of various District services.

Fund Financial Statements. Consistent with previous years, the fund statements are reported using the modified accrual method of accounting. Under this basis of accounting, revenues are recorded when received except where they are measurable and available and therefore, represent resources that may be appropriated. Expenditures are accounted for in the period those goods and services are used in District programs. In addition, capital asset purchases are shown as expenditures and not recorded as an asset. Current period debt payments are recorded as expenditures and future debt obligations are not recorded.

Fund types include the general fund, special revenue fund, debt service funds, capital projects funds and fiduciary funds. The general fund is used primarily to account for the general education requirements of the District. Its revenues are derived from property taxes, state and federal distributions, grants, and other intergovernmental revenues. Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The debt service funds are used to record the funding and payment of principal and interest on bonded debt. The capital projects funds are used to account for financial resources to be used for the acquisition, construction, or improvements of major capital facilities. The fiduciary funds account for assets held by the District in a trustee capacity.

Management's Discussion and Analysis

Net investment in capital assets is the original cost of the District's capital assets, less accumulated depreciation, less the long-term debt outstanding used to finance the acquisition of those assets. The original cost of capital assets is approximately \$51,231,000 and \$51,730,000 for June 30, 2021 and 2020, respectively. The accumulated depreciation is the accumulation of depreciation expense since acquisition. In accordance with accounting principles generally accepted in the United States of America (GAAP), depreciation expense is recorded as the original cost of the assets, less any estimated salvage value, expensed over the estimated useful life of the assets. Total accumulated depreciation was approximately \$20,270,000 and \$20,105,000 for the years ended June 30, 2021 and 2020, respectively. Total outstanding debt related to capital assets is approximately \$16,657,000 and \$18,807,000 at 2021 and 2020, respectively. The change in net investment in capital assets was primarily due to routine reduction of general obligation bond payments in accordance with payment terms as well as increases in capital assets.

Restricted net position for food service and debt service are by their nature restricted for use by laws or regulations of the State of Michigan. These balances totaled approximately \$318,000 and \$405,000, respectively for 2021, and approximately \$60,000 and \$505,000, respectively, for 2020.

The remaining amount of net position, a deficit of approximately \$44,135,000 and \$44,543,000 for 2021 and 2020, respectively, represents the accumulated results of the current and all past years' operations and is attributable mainly to the impact of the recording of net pension and OPEB liabilities.

The results of operations for the District as a whole are reported in the statement of activities. A condensed summary of the District-wide results of operations follows for the years ended June 30:

concluded

Operating grants - federal, state, and local revenues accounted for 28% or approximately \$8,310,000 of the revenue available. The main reason for the increase over the prior year was due to various unanticipated grants to prevent, prepare for, and respond to the COVID-19 epidemic were awarded throughout the 2020-2021 fiscal year. These federal grant awards are commonly known as ESSER, ESSER Education Equity, GEER, CRF, and District Covid Costs 103(2). In addition, the District experienced an unexpected increase in Summer Food Service Program meal reimbursements.

Unrestricted state aid revenue accounted for 49% or approximately \$14,674,000 of the revenue available. This revenue is determined by a formula that incorporates pupil headcount, the annual per-pupil allowance, and the non-homestead property taxable values of the District. This revenue increased by approximately \$235,000 over the past year, mostly due to the net effect of the current year decline in the state aid membership count and the prior year return of \$405,000 for the state's revenue shortfall reduction.

Property tax revenues accounted for 21% or approximately \$6,347,000 of the total revenue. Of the total property tax revenues reported, approximately \$4,040,000 was allocated to operations and approximately \$2,307,000 was allocated to debt retirement. Property tax revenue decreased by approximately \$49,000 from the prior year level. This decrease was the result of a decline in property taxable values compared to the prior year.

The expense portion of the table shows the financial support of each functional area required during the year. Expenses decreased from the prior fiscal year by approximately \$1,425,000. Being in the business of educating children, the largest expenses were incurred in instruction, which accounted for approximately \$15,595,000 or 57% of total expenses. Support services costs are approximately \$9,016,000 or 33% of total expenses, which include such items as transportation, maintenance, security, supervision, counseling, athletics, and a variety of similar services that support the District's mission of educating children. The main reasons for the decrease in overall expenses for the year were cost savings as a result of staff retirements, decreases in food costs due to a decline in curbside meals provided by food service, and a decrease in interest expense related to long-term debt obligations.

Management's Discussion and Analysis

Major Governmental Fund Budgeting and Operating Highlights

The District's Funds

The overall fund balance of the governmental funds increased by approximately \$1,409,000 from the prior year. The general fund balance increased by approximately \$1,038,000 and the nonmajor governmental funds increased approximately \$371,000. The general fund increase related mainly to an increase in state aid funding and annual costs eligible to be charged to federal stimulus funds.

As we noted earlier, the District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the District is being accountable for the resources taxpayers and others provide and may provide more insight into the District's overall financial health.

The District's budgets are prepared according to Michigan law and are initially adopted prior to July 1 of each year, before student enrollment counts are known and the State of Michigan's budget has been finalized. Therefore, it is expected that there will be changes between the initial budget and subsequent amendments, as actual enrollments are known and the State of Michigan's budget is adopted by October 1 and any subsequent budget amendments are made. The most significant fund budgeted is the general fund. The budget was amended during the year for various reasons. The most significant amendments, and the reasons for those amendments, were:

Revenue from state sources - This category's budget was increased by approximately \$1,603,000, or 10% over the course of the school year. The main reason for this increase is a result of no decline in the foundation allowance for fiscal year 2020-2021. The District initially budgeted for a \$700 per pupil decline in the foundation allowance, whereas the State passed a budget with no change to the \$8,111 foundation allowance.

Revenue from federal sources - This category's budget was increased by approximately \$2,198,000, or 188% over the course of the school year. The main reason for this increase was to various unanticipated grants to prevent, prepare for, and respond to the COVID-19 epidemic were awarded throughout the 2020-2021 fiscal year. These federal grant awards are commonly known as ESSER, ESSER Education Equity, GEER, CRF, and District Covid Costs 103(2). In addition, the District experienced an unexpected increase in Summer Food Service Program meal reimbursements.

Instructional Staff expenditures - This budget for these costs was increased by approximately \$376,000, or 41%, over the course of the school year. The main reason for this increase was the need for quarantine room supervisors during the epidemic and the implementation of a more robust district-wide summer school program.

Transfers out - This budget for interfund transfers out was increased by approximately \$423,000 over the course of the school year. The main reasons for this increase was a series of transfers to the Public Improvement Fund for projects identified and approved throughout the school year. These upcoming projects mainly included a district-wide keyless door entry project, re-roofing project at the Upper Elementary School, and the construction of a bus lane at the Webster Kindergarten Center.

There were also significant variations from the final amended budget. These variations are as follows:

Revenue from federal source - This category came in approximately \$1,039,000 under the final amended budget. The main reason for this variance was a conservative approach to budgeting federal funding that was awarded, while not knowing the availability to recognize these funds within the fiscal year. We became aware after the final budget amendment that ESSER II funding would not be approved until after fiscal year end, and therefore these revenues were unable to be recognized for costs incurred prior to June 30, 2021.

ESCANABA AREA PUBLIC SCHOOLS

Management's Discussion and Analysis

Basic instruction expenditures - The actual costs for this category came in under the final amended budget by approximately \$546,000. The main reason for this variance was the budgeting of awarded federal funds that were unspent by June 30, 2021, and will be available during the subsequent fiscal year.

Added needs expenditures - The actual costs for this category came in under the final amended budget by approximately \$198,000. The main reason for this variance was the budgeting of awarded federal funds that were unspent by June 30, 2021, and will be available during the subsequent fiscal year.

In general fund operations, the total revenue was approximately \$25,503,000. This is above the original budgeted revenues of approximately \$22,812,000 and below the final amended budgeted revenues of approximately \$26,639,000. The actual expenditures of the general fund operations were approximately \$23,911,000. This is below the final budget of approximately \$25,533,000.

The major reason for total revenues exceeding the originally budgeted revenue is state aid funding exceeding initial expectations, along with the addition of unexpected federal stimulus funding. Actual expenditures were comparable with the original budget, but were below the final budgeted expenditures as a result of budgeting the potential costs relating to the COVID-19 pandemic that did not occur by June 30, 2021.

| Other | 395,450 | 1.3% |
| Total | \$ 29,733,133 | 100% |

Unrestricted State Aid

The District is predominately funded by State aid based on a blended count formula that the State of Michigan utilizes. State aid membership counts were 2,294 and 2,313 for fiscal 2021 and 2020, respectively. The District experienced an overall increase in state funding of approximately \$235,000, mainly due to the prior year return of \$405,000 for the state's revenue shortfall reduction.

Property Taxes

The District levies 18 mills of property taxes on all non-homestead property and 6 mills on commercial personal property located within the District for general fund operations. The levy is assessed on the taxable value of the property. The increase in taxable value is limited to the lesser of the inflation rate of the prior year or 5%. When a property is sold, the taxable valuation of the sold property is readjusted to the state equalized value, which is approximately 50% of the market value. The fiscal 2021 non-homestead and personal property tax levies totaled approximately \$4,040,000.

The District levied 3.95 mills of property taxes on all classes of property located within the District for bonded debt retirement. The levy is used to pay the principal and interest on bond obligations. The total amount levied for debt retirement for fiscal year 2021 was approximately \$2,307,000.

Operating Grants - Federal, State, and Local

The primary sources of operating grants are the Federal Title I and Title II programs, the State funded At Risk program, and the Special Education Obligation funds required under the Headlee Amendment, State of Michigan legislation. Title I, Title II and At Risk programs assist students who are deemed to be at risk in the instructional process. For fiscal 2021, the District expended approximately \$550,000, \$105,000 and \$899,000 for the Title I, Title II and At Risk programs, respectively. In addition the District expended approximately \$1,226,000 of funding received from the U.S. Department of Agriculture to support the District's food service program.

Enrollment

The District's 2020-2021 blended enrollment totaled 2,294, which is a decrease of 19 students from the previous year. Escanaba Area Public Schools is located in Michigan's Upper Peninsula and is the second largest district in Michigan's upper peninsula.

The District continues to see improvements in the regional economic condition. Continual close monitoring of the regional employment opportunities along with birth rates will help the District project enrollment changes over time.

ESCANABA AREA PUBLIC SCHOOLS

Management's Discussion and Analysis

Student enrollment FTE (full time equivalent) is important to the financial health of the District because state funding is based on a per-pupil FTE formula.

Capital Assets and Debt Administration

Capital Assets. At June 30, 2021, the District had approximately \$51,231,000 invested in land and building, machinery and equipment, vehicles and buses. Approximately \$20,270,000 has been depreciated. Net book value totals approximately \$30,961,000. The years of construction of the District buildings and improvements ranges from 1931 to 2021. The District currently owns one kindergarten center, one secondary campus, and four elementary buildings of which one has been previously closed due to declining enrollment. The closed building is currently being used for storage of excess building equipment.

The District's capitalization policy is to capitalize assets purchased in amounts of more than \$5,000 that have an estimated useful life in excess of one year. During the year ended June 30, 2021, the District expended approximately \$402,000 for capital asset additions including approximately \$201,000 for buildings and improvements, \$16,000 for machinery and equipment, and \$184,000 for vehicles and buses.

Debt Administration. As of June 30, 2021, the District had approximately \$17,223,000 in bonds and bond premium outstanding from capital projects and approximately \$222,000 in installment purchase agreements outstanding. In addition, the District has approximately \$1,456,000 in early retirement incentives and compensated absences outstanding. The District collects property taxes to retire our bonded debt. Therefore, total growth in valuation is an important element in determining the District's ability to retire bonded debt and/or to incur additional debt.

Economic Factors and Next Year's Budgets and Rates

Our elected officials and administration consider many factors when setting the District's 2022 fiscal year budgets. There are many important factors affecting the budget, two of which are our student count and state per-pupil foundation allowance. In 2020-2021, the blended count decreased to 2,294 students. Enrollment is also expected to decline into the 2021-2022 school year as the Upper Peninsula of Michigan's employment opportunities continue to be limited, along with the unknown effects which will be brought on by coronavirus epidemic. The 2021-2022 fiscal year budget will reflect new initiatives and new opportunities for students while continually monitoring costs as state and local funding remains uncertain in these challenging times.

The Board of Education and administration worked closely with staff and community members to create a budget that would provide unique opportunities for students while remaining fiscally responsible. Continued changes in staff and programs were included in the fiscal 2022 budget. The Board of Education adopted a balanced budget for the fiscal year 2021-2022. The Board and Administration continue to develop a strategy to reduce spending while providing a quality education to Escanaba area students and maintain the long-term fiscal health of the District.

The District has received preliminary allocations of ESSER II funds in the amount of \$1,745,859 and ESSER III funds in the amount of \$3,920,952. These funds must be expended by September 30, 2023 and September 30, 2024, respectively.

to Change in Net Position of Governmental Activities
For the Year Ended June 30, 2021

| | |
|---|---------------------|
| Net change in fund balances - total governmental funds | \$ 1,409,258 |
| Amounts reported for <i>governmental activities</i> in the statement of activities are different because: | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In addition, donated capital assets, proceeds from sale of capital assets, and gains (losses) on disposal of capital assets are not reported in the governmental funds. | |
| Capital assets purchased/constructed | 401,796 |
| Depreciation expense | (1,066,399) |
| Bond proceeds provide current financial resources to governmental funds in the period issued, but issuing bonds increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but a reduction in long-term debt or in the statement of net position. | |
| Principal payments on long-term debt | 2,149,575 |
| Amortization of bond premium, deferred charge on bond refunding, and change in accrued interest | 282,812 |

NOTES TO FINANCIAL STATEMENTS

ESCANABA AREA PUBLIC SCHOOLS

Notes to Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies of *Escanaba Area Public Schools* (the "District") consistently applied in the preparation of the accompanying financial statements follows:

Reporting Entity

The District is governed by an elected seven-member Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational and financial relationships that determine which of the governmental organizations are a part of the District's reporting entity, and which organizations are legally separate component units of the District. Based on application of the criteria, the District has no component units.

District-wide and Fund Financial Statements

The District-wide financial statements (i.e., the *statement of net position* and the *statement of activities*) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these financial statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The District had no *business-type activities* during the year ended June 30, 2021.

The *statement of activities* demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds even though the latter is excluded from the District-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The District-wide financial statements and the private purpose trust fund are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

ESCANABA AREA PUBLIC SCHOOLS

Notes to Financial Statements

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 90 days of the end of the current fiscal period, except taxes which must be collected within 60 days, and reimbursement type grants which must be collected within one year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, state school aid, expenditure-driven grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the *general fund* as its only major governmental fund and the District's primary operating fund. It accounts for all financial resources of the District, except for those accounted for and reported in another fund.

Additionally, the District reports the following fund types:

The *special revenue funds* are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects that comprise, or are expected to comprise a substantial portion of the fund's total reported inflows.

The *capital projects fund* is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

The *debt service funds* are used to account for all financial resources restricted, committed or assigned to expenditure for principal and interest.

The *private-purpose trust funds* are trust arrangements under which principal and income benefit individuals in the form of scholarships. The District maintains two private-purpose trust funds.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided and 2) operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes, unrestricted grants and interest income.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

ESCANABA AREA PUBLIC SCHOOLS

Notes to Financial Statements

The effect of interfund activity has been eliminated from the District-wide financial statements.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Equity

Deposits and Investments

Cash and cash equivalents include cash on hand, demand deposits, savings accounts, certificates of deposit with maturities of less than three months, and shares in a government money market account.

Investments are reported at fair value.

Receivables and Payables

The District follows the practice of recording revenues that have been earned but not yet received as receivable. Receivables consist primarily of state school aid payments from the State of Michigan and Federal grant funds earned but not yet collected. No amounts have been identified as potentially uncollectible by management, and therefore, no amount has been recorded as a provision for uncollectible accounts.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e. the noncurrent portion of interfund loans). There were no interfund advances outstanding at June 30, 2021.

Other Assets

Other assets consists of inventories which are valued at cost (first-in, first-out) and prepaid items. Inventories consist of expendable supplies held for sale or consumption. The cost is recorded as an expenditure when consumed or sold rather than when purchased. Prepaid items represent disbursements to vendors in the current period that benefit operations in subsequent periods. Reported inventories and prepaid items are equally offset by nonspendable fund balance, which indicates that they do not constitute "available spendable resources" even though they are a component of current assets.

Capital Assets

Capital assets, which include land, buildings and improvements, machinery and equipment and vehicles and buses, are reported in the governmental activities column in the District-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost where actual cost information is not available. Donated capital assets are recorded at estimated acquisition cost at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

ESCANABA AREA PUBLIC SCHOOLS

Notes to Financial Statements

Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets of the District are depreciated using the straight-line method over the following estimated useful lives:

| Assets | Years |
|----------------------------|-------|
| Buildings and improvements | 5-50 |
| Machinery and equipment | 5-20 |
| Vehicles and buses | 8-10 |

Deferred Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to one or more future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District reports deferred outflows of resources for its pension and net other postemployment benefit plans as well as for the deferred charge on bond refunding. A deferred charge on bond refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. A portion of the deferred outflows of resources represents contributions to the pension and other postemployment benefit plans subsequent to the measurement date.

Salaries Payable and Other Accrued Liabilities

Salaries payable are recorded at June 30, 2021 for those amounts owed to teachers and other employees of the District who do not work during the summer when school is not in session but have elected to have their salaries paid over an entire year. This has the effect of properly charging their salaries to expenditures in the fiscal year in which their services are received, even though they are not paid until July and August of the following fiscal year.

Accrued liabilities include the liability for accrued retirement and the employer share of FICA related to the salaries payable and the liability for employee health insurances for the months of July and August. The District pays these amounts for this period as a part of the compensation for services rendered in the preceding school year.

Unearned Revenue

The District also receives revenue from the state to administer certain categorical education programs. State rules require that revenue earmarked for these programs be used for its specific purpose. Certain categorical funds require an accounting to the State of the expenditures incurred. For categorical funds meeting this requirement, funds received, which are not expended by the close of the fiscal year, are recorded as unearned revenue. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned.

ESCANABA AREA PUBLIC SCHOOLS

Notes to Financial Statements

Compensated Absences and Early Retirement Benefits

Most employees of the District are compensated for leaves of absence attributable to sick days. Each school year, the covered employees are credited with a number of sick days and any unused portion of such allowances can accumulate. Upon retirement, those employees who meet certain age and years of service requirements will be paid for a portion of sick days accumulated to a maximum number of days and at a rate determined by their job category.

The liability for the sick leave has been computed using the vesting method in accordance with Governmental Accounting Standards Board Statement No. 16. This liability is shown on the statement of net position.

Amounts due to retired employees who are currently eligible to receive early retirement incentives are reported as a liability on the statement of net position. The early retirement benefits consist of early retirement incentive cash payments provided to eligible employees for six years following retirement.

Deferred Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to one or more future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District's deferred inflows of resources are related to pension and net other postemployment benefit costs in the District-wide statement of net position.

Long-term Obligations

In the District-wide financial statements, long-term obligations are reported as liabilities in the governmental activities statement of net position. Where applicable, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium and/or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual proceeds received, are reported as debt service expenditures.

ESCANABA AREA PUBLIC SCHOOLS

Notes to Financial Statements

Fund Balances

Governmental funds report nonspendable fund balance for amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Restricted fund balance is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws or regulations of other governments. Committed fund balance is reported for amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision-making authority, the Board of Education. A formal resolution of the Board of Education is required to establish, modify, or rescind a fund balance commitment. The District reports assigned fund balance for amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. The Board of Education has delegated the authority to assign fund balance to the Director of Business Services or their designee. Unassigned fund balance is the residual classification for the general fund.

When the District incurs an expenditure for purposes for which various fund balance classifications can be used, it is the District's policy to use restricted fund balance first, then committed fund balance, assigned fund balance, and finally unassigned fund balance.

Interfund Transactions

During the course of normal operations, the District has numerous transactions between funds, including expenditures and transfers of resources to provide services, construct assets, and service debt. The accompanying financial statements generally reflect such transactions as transfers. Operating subsidies are also recorded as transfers. The amounts recorded as subsidies or advances are determined by the District. Balances outstanding at year-end are reported as due to/from other funds.

Property Taxes

Property taxes are recognized as revenue in the general and debt service funds on a levy year basis. The 2020 levy amounts are recognized as current property tax revenue to the extent that they are collected during the year or within sixty days after year end. Collections of delinquent taxes in subsequent years are recognized as property tax revenues in the year collected. Property taxes are levied December 1 on the assessed valuation of property located in the District as of the preceding December 31, the lien date. Assessed values are established annually by the various governmental units within the District and are equalized by the State of Michigan.

Pensions and Other Postemployment Benefits

For purposes of measuring the net pension and other postemployment benefit liabilities, deferred outflows of resources and deferred inflows of resources related to pension and other postemployment benefit, and pension and other postemployment benefit expense, information about the fiduciary net position of the plan and additions to/deductions from the plan fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

2. STATE OF MICHIGAN SCHOOL AID

The District reports State of Michigan school aid in the fiscal year in which the District is entitled to the revenue as provided by the State of Michigan school aid appropriations act. State funding represents 72% of the District's general fund revenue during the 2021 fiscal year.

3. DEFICIT NET POSITION

Governmental activities reported a deficit in unrestricted net position in the amount of \$44,135,479 at June 30, 2021. Total net position amounted to a deficit of \$29,354,272.

4. BUDGETARY INFORMATION

Annual budgets are adopted on a basis consistent with generally accepted accounting principles ("GAAP") for the general and special revenue funds. All annual appropriations lapse at fiscal year-end.

The general and special revenue funds are under formal budgetary control. Budgets shown in the financial statements are adopted on a basis consistent with GAAP, and are not significantly different from the modified accrual basis used to reflect actual results, and consist only of those amounts contained in the formal budget as originally adopted or as amended by the Board of Education.

P.A. 621 of 1978, as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated. The approved budgets of the District were adopted at the functional level by the Board of Education for all governmental funds, which is the legal level of control. During the year ended June 30, 2021, the District did not incur expenditures in excess of the amounts appropriated.

Michigan law authorizes the District to deposit and invest in:

Bonds, bills, or notes of the United States; obligations, the principal and interest of which are fully guaranteed by the United States; or obligations of the State. In a primary or fourth class school district, the bonds, bills, or notes shall be payable at the option of the holder upon not more than 90 days notice or, if not so payable, shall have maturity dates not more than five years after the purchase dates.

Certificates of deposit insured by a state or national bank, savings accounts of a state or federal savings and loan association, or certificates of deposit or share certificates of a state or federal credit union organized and authorized to operate in this state.

Commercial paper rated prime at the time of purchase and maturing not more than 270 days after the date of purchase.

Securities issued or guaranteed by agencies or instrumentalities of the United States government or federal agency obligation repurchase agreements, and bankers' acceptance issued by a bank that is a member of the federal deposit insurance corporation.

Mutual funds composed entirely of investment vehicles that are legal for direct investment by a school district.

Investment pools, as authorized by surplus funds investment pool act, composed entirely of instruments that are legal for direct investment by a school district.

The District's investment policy allows for all of these types of investments.

Investment and Deposit Risk

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District’s deposits may not be returned. State law does not require and the District does not have a policy for deposit custodial credit risk. As of year-end, \$4,554,086 of the District’s bank balance of \$5,074,833 was exposed to custodial credit risk because it was uninsured and uncollateralized.

Custodial Credit Risk – Investments. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require and the District does not have a policy for investment custodial credit risk. The investments held by the District are not exposed to custodial credit risk since they are held in the counterparty’s trust department in the District’s name.

The District chooses to disclose its investments by investment type. As of June 30, 2021, the District had the following investments:

| Investment | Maturity | Fair Value | Rating |
|--|----------|---------------------|------------|
| Michigan Cooperative Liquid Assets Securities System | Various | \$ 2,047,899 | AAAm (S&P) |
| Common stocks | N/A | 5,666,620 | N/A |
| Mutual funds | N/A | 1,270,281 | N/A |
| Real estate exchange traded funds | N/A | <u>131,545</u> | N/A |
| Total | | <u>\$ 9,116,345</u> | |

Interest Rate Risk. State law limits the allowable investments and the maturities of some of the allowable investments as identified under “statutory authority” above. The District’s investment policy requires investments to be diversified by specific maturity dates and by individual financial institutions of a specific class of securities as a means of managing its exposure to fair value losses arising from increasing interest rates and in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio. The maturity date for each investment is identified above for investments held at year end.

ESCANABA AREA PUBLIC SCHOOLS

Notes to Financial Statements

Credit Risk. State law limits investments to specific government securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds, and qualified external investment pools as identified under “statutory authority” above. The District’s investment policy does not have specific limits in excess of state law on investment credit risk. The ratings for each investment are identified above for investments held at year end.

Custodial Credit Risk – Investments. Investments are exposed to custodial credit risk if the securities are uninsured, unregistered or held by a counterparty or its agency but not in the government’s name. In accordance with the District’s investment policy, all investments are held in the name of the District and are evidenced by a safekeeping receipt confirmation, and thus not exposed to custodial credit risk.

Concentration of Credit Risk. State law limits allowable investments but does not limit concentration of credit risk as identified under “statutory authority” above. The District’s investment policy does not have specific limits in excess of state law on concentration of credit risk. All investments held at year end are reported above.

Fair Value

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; level 2 inputs are significant other observable inputs; level 3 inputs are significant unobservable inputs. These levels are determined by the District’s finance director and are determined at the fund level based on a review of the investment’s class, structure, and what kind of securities are held in the funds. The finance director will request the information from the fund manager, if necessary.

The District had the following recurring fair value measurements as of June 30, 2021:

| Investment Type | Level 1 | Level 2 | Level 3 | Total |
|---|---------------------|-------------|-------------|----------------------------|
| Common stocks | \$ 5,666,620 | \$ - | \$ - | \$ 5,666,620 |
| Mutual funds | 1,270,281 | - | - | 1,270,281 |
| Real estate exchange traded funds | 131,545 | - | - | 131,545 |
| Total | <u>\$ 7,068,446</u> | <u>\$ -</u> | <u>\$ -</u> | 7,068,446 |
| Investments carried at net asset value: | | | | |
| Michigan CLASS government investment pool | | | | <u>2,047,899</u> |
| Total investments at fair value | | | | <u><u>\$ 9,116,345</u></u> |

Notes to Financial Statements

Investments in Entities that Calculate Net Asset Value per Share. The District holds shares in Michigan CLASS whereby the fair value of the investment is measured on a recurring basis using net asset value per share (or its equivalent) of the investment pool as a practical expedient.

At year end, the net asset value of the District's investment in Michigan CLASS was \$2,047,899. The investment pool had no unfunded commitments, specific redemption frequency or redemption notice period required. The Michigan CLASS investment pool invests in U.S. treasury obligations, federal agency obligations of the U.S. government, high-grade commercial paper (rated 'A-1' or better) collateralized bank deposits, repurchase agreements (collateralized at 102% by Treasuries and agencies), and approved money-market funds. The program seeks to provide safety, liquidity, convenience, and competitive rates of return, and is designed to meet the needs of Michigan public sector investors. It purchases securities that are legally permissible under state statutes and are available for investment by Michigan counties, cities, townships, school districts, authorities and other public agencies.

6. RECEIVABLES

Receivable as of June 30, 2021 are comprised of the following:

| | Amount |
|----------------------------|---------------------|
| Accounts receivable | \$ 122,052 |
| Due from other governments | <u>4,036,348</u> |
| | <u>\$ 4,158,400</u> |

7. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities as of June 30, 2021, are comprised of the following:

| | Amount |
|---|----------------------------|
| Accounts payable | \$ 86,669 |
| Salaries payable | 1,217,371 |
| Accrued liabilities | 1,428,329 |

| Total accounts payable and accrued liabilities | <u><u>\$ 2,845,221</u></u> |

ESCANABA AREA PUBLIC SCHOOLS

Notes to Financial Statements

8. INTERFUND RECEIVABLES AND PAYABLES AND TRANSFERS

The District reports interfund balances between certain funds. These interfund balances resulted primarily from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made. As of June 30, 2021, the food service fund had an outstanding receivable from the general fund of \$1,540.

For the year ended June 30, 2021, interfund transfers consisted of the following:

| | Transfers In |
|-----------------------------|-----------------------------|
| Transfers Out | Nonmajor governmental funds |
| General fund | \$ 553,177 |
| Nonmajor governmental funds | <u>2,821,050</u> |
| Total | <u><u>\$ 3,374,227</u></u> |

Transfers are used to: 1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; 2) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; and 3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

| Governmental activities capital assets, net | <u>\$ 31,625,203</u> | <u>\$ (664,603)</u> | <u>\$ -</u> | <u>\$ 30,960,600</u> |

Depreciation expense of \$1,066,399 is reported as unallocated in the statement of activities.

10. STATE AID ANTICIPATION NOTES PAYABLE

The District annually issues state aid anticipation notes in advance of receiving its state aid payments.

Short-term debt activity related to these notes for the year ended June 30, 2021 was as follows:

| | Balance July 1, 2020 | Additions | Deductions | Balance June 30, 2021 |
|--------------------------------------|-------------------------|--------------|----------------|--------------------------|
| State aid anticipation notes payable | \$ 3,219,631 | \$ 3,950,000 | \$ (3,972,024) | \$ 3,197,607 |

The balance at June 30, 2021 includes accrued interest of \$7,607.

The notes which carry an interest rate of 0.70% and 0.25%, are repaid annually as a reduction of state aid with the remaining outstanding balance repaid in July and August.

The current employment contracts with teachers and administrators allow the option of early retirement to those employees who meet state requirements for retirement. Qualified retirees shall receive an early retirement incentive of \$150 per month for a period of up to six years. At June 30, 2021, 40 retirees were receiving or eligible to begin receiving the early retirement incentive, with \$61,200 being paid to these individuals during 2020-2021. The total early retirement incentive liability at June 30, 2021 was \$288,000.

Accrued employee benefits included in long-term debt are for the accumulated terminal leave of employees from unused sick leave and the early retirement incentive, as previously discussed. The total outstanding accumulated terminal leave at June 30, 2021 was \$1,167,748.

The estimated debt service requirements on bonded debt for principal and interest to maturity as of June 30, 2021 are as follows:

12. PENSION AND OTHER POSTEMPLOYMENT BENEFITS PLANS

Plan Description

The Michigan Public School Employees' Retirement System (the "System" or MPSERS) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (the "State") originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the board's authority to promulgate or amend the provisions of the System. The board consists of twelve members - eleven appointed by the Governor and the State Superintendent of Instruction, who serves as an ex-officio member.

The System's pension plan was established by the State to provide retirement, survivor and disability benefits to public school employees. In addition, the System's health plan provides all retirees with the option of receiving health, prescription drug, dental and vision coverage under the Michigan Public School Employees' Retirement Act (1980 PA 300 as amended).

The System is administered by the Office of Retirement Services (ORS) within the Michigan Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State Treasurer serves as the investment officer and custodian for the System.

The System's financial statements are available at the ORS website at www.michigan.gov/orsschools.

Pension Benefits Provided

Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan. Depending on the plan option selected, member retirement benefits are determined by final average compensation, years of service, and a pension factor ranging from 1.25% to 1.50%. DB members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to DB plan members.

A DB member plan member who leaves Michigan public school employment may request a refund of his or her member contributions to the retirement system account if applicable. A refund cancels a former member's rights to future benefits. However, returning members who previously received a refund of their contributions may reinstate their service through repayment of the refund upon satisfaction of certain requirements.

Participants in the defined contribution plan consist of one of the following: (1) members who worked for a Michigan public school on or after September 4, 2012 and elected to be enrolled in the defined contribution plan; (2) members who elected to transfer from the defined benefit plan to the defined contribution plan under the reform (P.A. 300) of 2012; or (3) members who worked for a Michigan public school on or after February 1, 2018 and did not elect participation in the Pension Plus 2 plan. Members who worked for a Michigan public school on or after September 4, 2012 and elected to be enrolled in the defined contribution plan receive a 100% match of the member contribution rate up to a maximum of 3% based on the member's gross earnings. Additionally, there is a mandatory employer contribution of 4% of the member's gross earnings for MPERS members who elected to convert from a Basic or MIP benefit plan to the defined contribution benefit plan. Members electing the Pension Plus or Pension Plus 2 benefit plan receive a 50% match of the member's contribution percent up to a maximum of 1% based on the member's gross earnings. Effective October 1, 2017, there is a mandatory employer contribution of 4% of the member's gross earnings for members who elect the Defined Contribution benefit plan. The employer must match 100% of the employee contribution for any member who elected the Personal Healthcare Fund up to a maximum of 2% of the member's gross earnings. For all members with a Personal Health Care Fund (PHF), the first 2% of DC contributions must go into the PHF and must be matched 100% by the employer.

Other Postemployment Benefits Provided

Benefit provisions of the postemployment healthcare plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions. Retirees have the option of health coverage, which, through 2012, was funded on a cash disbursement basis. Beginning fiscal year 2013, it is funded on a prefunded basis. The System has contracted to provide the comprehensive group medical, prescription drug, dental and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by the System with the balance deducted from the monthly pension of each retiree healthcare recipient. For members who first worked before July 1, 2008, (Basic, MIP-Fixed, and MIP Graded plan members) the subsidy is the maximum allowed by statute. To limit future liabilities of Other Postemployment Benefits, members who first worked on or after July 1, 2008 (MIP-Plus plan members) have a graded premium subsidy based on career length where they accrue credit towards their insurance premiums in retirement, not to exceed the maximum allowable by statute. Public Act 300 of 2012 sets the maximum subsidy at 80% beginning January 1, 2013; 90% for those Medicare eligible and enrolled in the insurances as of that date. Dependents are eligible for healthcare coverage if they meet the dependency requirements set forth in Public Act 300 of 1980, as amended.

Public Act 300 of 2012 granted all active members of the Michigan Public School Employees Retirement System, who earned service credit in the 12 months ending September 3, 2012 or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their retirement healthcare. Any changes to a member's healthcare benefit are effective as of the member's transition date, which is defined as the first day of the pay period that begins on or after February 1, 2013.

Under Public Act 300 of 2012, members were given the choice between continuing the 3% contribution to retiree healthcare and keeping the premium subsidy benefit described above, or choosing not to pay the 3% contribution and instead opting out of the subsidy benefit and becoming a participant in the Personal Healthcare Fund (PHF), a portable, tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2% employee contribution into their 457 account as of their transition date, earning them a 2% employer match into a 401(k) account. Members who selected this option stop paying the 3% contribution to retiree healthcare as of the day before their transition date, and their prior contributions were deposited into their 401(k) account.

Contributions

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. The unfunded (overfunded) actuarial accrued liability as of the September 30, 2019 valuation will be amortized over a 19-year period beginning October 1, 2019 and ending September 30, 2038.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability of \$44,469,541 for its proportionate share of the MPSERS net pension liability. The net pension liability was measured as of September 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation rolled forward from September 2019. The District's proportion of the net pension liability was determined by dividing each employer's statutorily required pension contributions to the system during the measurement period by the percent of pension contributions required from all applicable employers during the measurement period. At September 30, 2020, the District's proportion was 0.12946%, which was a decrease of 0.00459% from its proportion measured as of September 30, 2019.

For the year ended June 30, 2021, the District recognized pension expense of \$5,778,647. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The total pension and OPEB liabilities in the September 30, 2019 actuarial valuation were determined using the following actuarial assumptions, applied to all periods included in the measurement:

| | |
|----------------------------------|---|
| Actuarial cost method | Entry age, normal |
| Wage inflation rate | 2.75% |
| Investment rate of return: | |
| MIP and Basic plans (non-hybrid) | 6.80% |
| Pension Plus plan (hybrid) | 6.80% |
| Pension Plus 2 plan (hybrid) | 6.00% |
| OPEB plans | 6.95% |
| Projected salary increases | 2.75% - 11.55%, including wage inflation at 2.75% |
| Cost of living adjustments | 3% annual non-compounded for MIP members |
| Healthcare cost trend rate | 7.0% Year 1 graded to 3.5% Year 15; 3.0% Year 120 |
| Mortality | RP-2014 Male and Female Employee Annuitant Mortality Tables, adjusted for mortality improvements using projection scale MP-2017 from 2006. For retirees, the tables were scaled by 82% for males and 78% for females. For active members, 100% of the table rates were used for both males and females. |
| Other OPEB assumptions: | |
| Opt-out assumptions | 21% of eligible participants hired before July 1, 2008 and 30% of those hired after June 30, 2008 are assumed to opt-out of the retiree health plan. |
| Survivor coverage | 80% of male retirees and 67% of female retirees are assumed to have coverages continuing after the retiree's death. |
| Coverage election at retirement | 75% of male and 60% of female future retirees are assumed to elect coverage for 1 or more dependents. |

Assumption changes as a result of an experience study for the period 2012 through 2017 have been adopted by the System for use in the annual pension and OPEB valuations beginning with the September 30, 2017 valuation. The total pension and OPEB liabilities as of September 30, 2020, are based on the results of an actuarial valuation date of September 30, 2019, and rolled forward using generally accepted actuarial procedures, including the experience study. The recognition period for pension liabilities is 4.4892 years which is the average of the expected remaining service lives of all employees. The recognition period for OPEB liabilities is 5.6018 years which is the average of the expected remaining service lives of all employees. The recognition period for assets is 5 years.

Long-term Expected Return on Pension Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2020, are summarized in the following table:

| Asset Class | Target Allocation | Long-term Expected Real Rate of Return | Expected Money-Weighted Rate of Return |
|--------------------------------------|-------------------|--|--|
| Domestic equity pools | 25.00% | 5.29% | 1.32% |

Long-term Expected Return on OPEB Plan Assets

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan's target asset allocation as of September 30, 2020, are summarized in the following table:

| Asset Class | Target Allocation | Long-term Expected Real Rate of Return | Expected Money-Weighted Rate of Return |

Rate of Return

For the fiscal year ended September 30, 2020, the annual money-weighted rate of return on pension and OPEB plan investments, net of pension and OPEB plan investment expense, was 5.37% and 5.24%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

A discount rate of 6.80% was used to measure the total pension liability (6.80% for the Pension Plus plan, 6.00% for the Pension Plus 2 plan, both of which are hybrid plans provided through non-university employers only) and a discount rate of 6.95% was used to measure the total OPEB liability. This discount rate was based on the long-term expected rate of return on pension and OPEB plan investments of 6.80% (6.80% for the Pension Plus plan, 6.00% for the Pension Plus 2 plan) and 6.95%, respectively. The projection of cash flows used to determine these discount rates assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension and OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension and OPEB plan investments was applied to all periods of projected benefit payments to determine the total pension and OPEB liabilities.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.80% (6.80% for the Pension Plus plan, 6.00% for the Pension Plus 2 plan), as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher:

| | 1% Decrease (5.80% / 5.80% / 5.00%) | Current Discount Rate (6.80% / 6.80% / 6.00%) | 1% Increase (7.80% / 7.80% / 7.00%) |

Pension and OPEB Plans Fiduciary Net Position

Detailed information about the pension and OPEB plan's fiduciary net position is available in the separately issued MPSERS financial statements available on the State of Michigan Office of Retirement Services website at www.michigan.gov/orsschools.

Payable to the Pension Plan

At June 30, 2021, the District reported a payable of \$664,870 for the outstanding amount of pension contributions to the Plan required for the year ended June 30, 2021.

Payable to the OPEB Plan

At June 30, 2021, the District reported a payable of \$154,434 for the outstanding amount of OPEB contributions to the Plan required for the year ended June 30, 2021.

13. SINGLE EMPLOYER OTHER POSTEMPLOYMENT BENEFITS ("OPEB") PLAN

District Defined Benefit Life Insurance Plan

Plan Description. The District administers the Escanaba Area Public Schools Retiree Life Insurance Plan (the "Plan"), a single-employer defined benefit life insurance plan, that can be amended at the District's board members discretion. In addition to the retirement benefits described above, the Plan provides various levels of life insurance to certain retirees up to the age 70, depending on the applicable employee group. The Plan does not prepare separately-issued financial statements.

Basis of Accounting. The Plan is accounted for using the accrual basis of accounting. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

ESCANABA AREA PUBLIC SCHOOLS

Notes to Financial Statements

Funding Policy. The contribution requirements of Plan members and the District are established and may be amended by the Board of Education. The plan's funding policy is that the employer will make benefit payments from general operating funds on a pay-as-you-go basis. There are no long-term contracts for contributions to the plan. The plan has no legally required reserves. For the year ended June 30, 2021, the District contributed \$26,636 to the Plan.

Membership of the Plan consisted of the following at June 30, 2021, the date of the most recent actuarial valuation:

| | |
|---|-------------------|
| Retirees and beneficiaries receiving benefits | 106 |
| Active plan members | <u>109</u> |
| Total | <u><u>215</u></u> |

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation of June 30, 2021. The following actuarial assumptions were used in the measurement:

| | |
|--------------------------------|---|
| Actuarial cost method | Entry age (level percentage of compensation) |
| Amortization method | 7-year, level percent of pay |
| Inflation | N/A - plan is not pre-funded |
| Salary increases | 3.50% (for purposes of allocating liability) |
| Investment rate of return | N/A - plan is not pre-funded |
| 20-year Aa Municipal bond rate | 2.18% |
| Mortality | Public Teacher and General 2010 Employee and Healthy Retiree, Headcount weighted |
| Premiums | Monthly premiums based on the following: \$42.03 administrators and supervisors; \$14.28 EEA, and \$27.33 teamsters and non-union |

Discount Rate -The discount rate used to measure the total OPEB liability was 2.66% for 2021 contribution; 2.18% for June 30, 2021 disclosure and 2022 contribution. The Plan is funded on a pay-as-you-go basis, therefore, the AA municipal bond index of 2.18% was applied to all future periods.

Assumption changes since prior valuation include: mortality improvement scale updated from MP-2019; discount rate lowered from 2.66% to 2.18%; termination rates added.

15. COMMITMENTS AND CONTINGENCIES

Federal Grant Programs. The District participates in federally assisted grant programs, which are subject to program compliance audits by the grantor or its representatives. Such audits of these programs may be performed at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the District expects such amounts, if any, not to be material.

Risk Management. The District is exposed to various risks of loss related to property loss, torts, errors and omissions, employee injuries (workers' compensation) as well as medical benefits provided to employees. The District has purchased commercial insurance for general liability, property and casualty and health claims and participates in the MASB/SET-SEG (risk pool) for claims relating to employee injuries/workers' compensation. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The shared-risk pool program, in which the District participates, operates as a common risk-sharing management program for school districts in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

As is the case with other entities, the District faces exposure from potential claims and legal proceedings involving environmental matters. No such claims or proceedings have been asserted as of June 30, 2021.

16. CORONAVIRUS (COVID-19)

In March 2020, the World Health Organization declared the novel coronavirus outbreak (COVID-19) to be a global pandemic. While the pandemic has resulted in an increase in the demands on the District to deliver education to students in a safe environment, the Federal Government has also provided significant resources to help mitigate the impacts of COVID-19. The District received over \$1,558,000 during 2021 from various funding sources to be used to respond to the impacts of the COVID-19 pandemic through the CARES Act and other funding sources. This funding was used to purchase personal protection equipment (PPE), cleaning and sanitizing materials, and supplies, as well as for activities to support remote learning for students. With these additional Federal resources, at this time management does not believe that the negative financial impact of the pandemic, if any, would be material to the District.

17. SUBSEQUENT EVENT

In August 2021, the District borrowed \$1,000,000 on state aid anticipation notes with effective interest charged at 0.11% maturing in July 2022.

In August 2021, the District borrowed \$1,750,000 on state aid anticipation notes with effective interest charged at 0.12% maturing in August 2022.

MPSERS Cost-Sharing Multiple-Employer Plan

Pension Information

GASB 68 was implemented in fiscal year 2015. The pension plan schedules are being built prospectively. Ultimately, 10 years of date will be presented.

The amounts presented in the schedule of the District's Proportionate Share of the Net Pension Liability were determined as of September 30 of the preceding year (the plan year).

The significant changes in assumptions for each of the fiscal years ended June 30 were as follows:

- 2021 - The payroll growth assumption for amortization purposes used in determining the fiscal year 2022 employer contributions decreased from 3.5% to 3.0%.
- 2020 - The discount rate used in the September 30, 2018 actuarial valuation decreased to 6.80% for the MIP and Basic plans, 6.80% for the Pension Plus Plan, and 6.00% for the Pension Plus 2 Plan.
- 2019 - The discount rate used in the September 30, 2017 actuarial valuation decreased to 7.05% for the MIP and Basic plans, 7.00% for the Pension Plus plan, and 6.00% for the Pension Plus 2 plan.
- 2018 - The discount rate used in the September 30, 2016 actuarial valuation decreased to 7.50% for the MIP and Basic plans and 7.00% for the Pension Plus plan.

OPEB Information

GASB 75 was implemented in fiscal year 2018. The OPEB plan schedules are being built prospectively. Ultimately, 10 years of date will be presented.

**INDEPENDENT AUDITORS' REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
REQUIRED BY THE UNIFORM GUIDANCE**

October 13, 2021

Board of Education
Escanaba Area Public Schools
Escanaba, Michigan

We have audited the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of **Escanaba Area Public Schools** (the "District") as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated October 13, 2021, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

ESCANABA AREA PUBLIC SCHOOLS

Notes to Schedule of Expenditures of Federal Awards

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of Escanaba Area Public Schools (the "District") under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting, which is described in Note 1 to the District's financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance or other applicable guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available.

Cash received is recorded on the cash basis; expenditures are recorded on the modified accrual basis of accounting. Revenues are recognized when the qualifying expenditures have been incurred and all grant requirements have been met.

The Schedule has been arranged to provide information on both actual cash received and the revenue recognized. Accordingly, the effects of accruals of accounts receivable, unearned revenue and accounts payable items at both the beginning and end of the fiscal year have been reported.

Expenditures are in agreement with amounts reported in the financial statements and the financial reports. The amounts reported on the Grant Auditor Report reconcile with this Schedule.

2. 10% DE MINIMIS COST RATE

For purposes of charging indirect costs to federal awards, the District has not elected to use the 10 percent de minimis cost rate as permitted by §200.414 of the Uniform Guidance.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

October 13, 2021

Board of Education
Escanaba Area Public Schools
Escanaba, Michigan

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of **Escanaba Area Public Schools** (the "District"), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 13, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Rehmann is an independent member of Nexia International.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

October 13, 2021

Board of Education
Escanaba Area Public Schools
Escanaba, Michigan

Report on Compliance for the Major Federal Program

We have audited the compliance of *Escanaba Area Public Schools* (the "District") with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the District's major federal program for the year ended June 30, 2021. The District's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal program.

Independent Auditors' Responsibility

Our responsibility is to express an opinion on compliance for the District's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the District's compliance.

Rehmann is an independent member of Nexia International.

Opinion on the Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
