RE: CIPA Compliance, New Branches Charter Academy (NB)

NB is deploying GoGuardian Suite of security products a DNS-based compliant solution for a cloud based system for devices used outside of the school's network. Additionally Microsoft Active Directory is being utilized for staff and Windows devices and NB student workstations use G Suite authentication thus allowing access to the network by authorized persons only and recognizing the various levels of permissions between student user and staff user.

NB filtering activity **includes but is not limited to:**

- (a) access by minors to inappropriate content on the Internet;
- (b) the safety and security of minors when using electronic mail, chat rooms and other forms of direct electronic communications;
- (c) unauthorized access, including so-called "hacking," and other unlawful activities by minors online;
- (d) unauthorized disclosure, use, and dissemination of personal information regarding minors;
- (e) measures designed to restrict minors' access to material harmful to minors.

A handwritten signature in black ink that reads 'Andriy Kharkovyy'.
