A. General Information

ISDs serve as a central support system for all public, charter and non-public schools that operate within their district. There are 57 Intermediate School Districts (ISDs) or Regional Education Service Agencies (RESAs) in the state of Michigan. No two are exactly alike. Each bases its work on the specific needs of its constituent public school districts. All offer leadership, programs, and services in the areas of instruction, career and technical education, special education, technology, and business related functions.

	FY 2021-22			
Total Budget	\$	31,830,164		
Pupil FTEs		12,215		
ISD Employees		230		
Constituent Districts, PSAs, Nonpublic Schools		14		

B. Travel Information

As ISDs seek to provide leadership, programs and services to their constituents, staff seek out best practices, gain state and national educational perspectives, gather knowledge and skill levels that reflect the latest trends, innovations, and challenges. This requires more travel to conferences and trainings than you would typically experience in a K-12 school district.

None in excess of \$3,000

C. Contract Information

ISDs occasionally enter into contracts with vendors to perform specific services that would not be cost effective or reasonable for the ISD to provide on its own. ISDs must follow state requirements for seeking competitive bids on some purchases. Below are the contracts required to be reported under this section.

E. Salary, Expense Account, & Supplemental Compensation Information

ISD employees are typically categorized by classification. All classifications are normally established according to demands of the position, level of responsibility, job functions performed, credentials and skills required, etc. Each classification falls into at least one established salary schedule, which takes into account such factors as seniority in position or in similar positions, comparison to similar jobs elsewhere in the community, cost of living factors, etc. In addition, some classifications require travel inside and outside of the ISD, attendance at meetings, and attendance at workshops and conferences. Expenses for these activities are strictly limited in a budget approved annually by the ISD Board of Education.

F. Fiber Optic/Cable Equipment & Operating System Software for Fiber Optic/Cable Equipment Networks

Many ISDs utilize fiber networks which benefit students and the community. These high capacity broadband networks interconnect districts, improve the delivery of Internet, instructional, and administrative resources while reducing over-all costs. Through partnerships, ISDs, local schools, county and other governmental units, and Central Police Dispatch (911), have access to fiber wide-area networks that are more affordable for all partners.

No expenditures for fiber optic or cable equipment or operating system software for fiber optic or cable equipment networks.	

G. Public Relations, Polling, Lobbying, and Legal Services

The 57 intermediate school districts (ISDs) or regional educational service agencies (RESAs) were created by the legislature in 1962 to bring about quality and equitable educational opportunities to students and schools throughout the state. Because public education is funded and regulated by the state and federal government, it is necessary for ISDs to use some resources to fund activities that promote public accountability, research, and government communications. The guiding principle for all activities of this nature is to advocate for the children we serve.

I. Certain ISD Expenditures

Every organization requires leadership. ISDs within the State of Michigan have been charged by the Governor and the Michigan Department of Education to communicate, train, support, and lead educational initiatives defined by the state and federal government. Most recently these include, but are not limited to, the following: No Child Left Behind, newly enacted high school graduation requirements, the Michigan School Improvement Framework, and the new Grade Level Content Expectations for the core subjects. ISDs are required by law to meet the individual and specialized needs of students within our region including the areas of Title I, Special Education, and Career and Technical Education.
